RUMORS OF NAVAL BATTLES

Indiana State Library

HOSTILE FLEETS BELIEVED GRAPPLED

Dover, Eng., Aug. 5.—The German steamer, Franz Horn, from Curacao, July 11, for Stettin, on entering port here this afternoon, reported that firing was audible in many directions but could give no definite information.

MAY BE SEA FIGHT OFF MAINE COAST.

Portland, Maine, Aug. 5.—The firing of heavy guns off the Maine coast, was heard early today. Eight or ten shots within two minutes were heard shortly before 7 o'clock by the keeper of the Portland observatory.

The sound seemed to come from a point 25 or 30 miles southeast of Portland, and probably in the vicinity of Seguin island.

London, Aug. 5.—Although five of the great European powers—Austria, England, France, Germany and Russia—are at war and millions of men on land and sea are under arms and ready to strike, developments of prime importance were few today.

The cutting of the German telegraph and telephone connections and the severance of the German trans-Atlantic cable virtually cut Germany off from communication with other countries. Reports from France, Belgium, Holland and Russia, however, showed that Germany's armies were steadily moving forward east and west, and that her advanced posts were in contact with the opposing Russian and French armies.

In England preparations were rapidly completed for naval activities after the declaration of war last night, but the authorities would not permit any leakage of news as to military or naval movements.

German Ships Seized.

Several German steamships in British waters, including the Belgia with 73 German reservists and a quantity of foodstuffs on board were declared prizes of war. The Maria Leonhardt, in the Thames, suffered a similar fate.

The British government today commandeered the horses belonging to express companies and big department stores, thus causing almost a suspension of business.

On the coast of the North Sea, where it had been erroneously reported that a naval battle was in progress last night the British government has taken over all schools and other public buildings for conversion into hospitals in readiness to receive the wounded after the expected important naval encounter between the German and British fleets.

Volunteers Called For.

Volunteers were requested for the British army and this was taken as an indication that an expeditionary force was to be sent out but no authoritative information on this point was obtainable. In France the minister of war declared the mobilization to have proceeded satisfactorily and everything to be in readiness with General Joffre at the frontier.

As the Black Sea has been tightly closed by Turkey's shutting the Dardanelles and Bosphorus in order to maintain her neutrality, the Russian fleet there had no difficulty in making captive many German and Austrian vessels. Austria and Servia appear to have stopped their activities, or at least to have put a strict censorship on the news of any important events, as no dispatches of importance reached the British capital from those two countries.

The French fleet in the Mediterranean is reported to have captured or destroyed three German cruisers but the dispatches are conflicting.

Methodical Plans of Campaign.

The plans of campaign of the various nations at war are being developed with methodical deliberation and military authorities here are of opinion that the alleged fighting on the Russo-German and Franco-German frontiers has consisted of nothing but skirmishes between reconnoitering bodies of troops. They point out that it will take at least another week for the main armies of Germany, France and Russia to get into position for the decisive struggle. It is known now, however, that severe fighting is in progress in Belgium between the Belgians and the Germans and it has been reported that 80,000 Germans have been repulsed near Liege, although the Belgian war minister only permits himself to say in his official reports that the Belgians are successfully meeting the German invaders. Little credence is placed in authoritative quarters here in the alleged "authentic information" from Algiers in regard to the sinking or capture of German warships in the Mediterranean.

MANY GERMANS YET IN PARIS.

Paris, Aug. 5.—It is believed that several thousands of Germans and Austrians are still in Paris. There were more than 80,000 on the police registers before war broke out and it is thought impossible that all left the city. No fewer

GERMANY IS NOW SHUT IN

Cables Are Cut and What is Going on There is a War Mystery.

BRITISH SEVER SUBMARINE LINE

Only News That Can Get Out Must Trickle Through Hostile Lands.

New York, Aug. 5.—Direct cable communication with Germany was stopped today.

The German Atlantic cable lines from New York to Emden, via the Azores, were cut about 1:40 a. m. at some point east of the Azores, possibly by British warships.

The Commercial Cable company, which operates the American end of this line, made the announcement of the cutting today and refused to accept messages for Germany. It was denied that the lines had been cut by British warships on this side of the Atlantic. The cable was working, according to announcement as far as the Azores. Charles P. Adams, second vice president of the Commercial Cable company, said there was no trouble with the regular Commercial Cable company's lines, which run from New York to Nova Scotia and thence to points on the Eng-

War News In Flashes

Brussels, Aug. 5.—The government states that the German troops continue their march and were today in the neighborhod of Floron, near Liege. They were out of range of the forts and evidently wishing to reach the French department of Meuse by following the course of the river Meuse.

Paris, Aug. 5.—It is reported from Mont Beliard, in the department of Doubs, that the Germans have violated the neutrality of Switzerland.

St. Petersburg, Aug. 5.—A German fleet of nineteen ships was sighted yesterday near the east coast of the Baltic sea, between Memel and Libau. Russian warships in the Black sea have captured many German merchantmen.

St. Petersburg, Aug. 5.—Russian troops have established contact with the enemy along the greater part of the Russo-German frontier in northeastern Prussia. The Germans are reported to have fallen back and to be burning villages over an enormous stretch of the country which they had invaded.

London, Aug. 5.—The rumor that a naval engagement had taken place off Clomarty, Scotland, was set at rest today by an official denial that there had been a battle in that vicinity.

Paris, Aug. 5.—An official announcement today says that seventeen Alsatians, while endeavoring to cross into France, were captured by the Germans and summarily shot.

London, Aug. 5.—Detectives, during a raid on houses occupied by Germans, in London, in one place discovered a large number of bombs and rifles. Several arrests were made.

MOB ATTACKS IN ST. PETERSBURG

German Embassy Destroyed by Incensed Crowd of Russians.

Washington, Aug. 5.—The German embassy in St. Petersburg, has been destroyed by a mob, inflamed by a report that the Russian embassy in Berlin had been attacked. One German employe was killed.

The state department does not credit the report of an attack on the Russian embassy in Berlin. Its information comes from St. Petersburg in diplomatic dispatches.

SENATOR STONE RENOMINATED.

St. Louis, Aug. 5.—Returns today show that Senator William J. Stone was re-nominated on the democratic ticket by an overwhelming majority at the direct primary yesterday. Thomas J. Akins, of St. Louis, seems to have beaten Pollite Elvins, of Elvins, Mo., for the republican nomination. Arthur N. Sager had no opposition on the progressive ballot.

BELGIANS RESIST INVADER.

Brussels, Via London, Aug. 5.—The Belgian minister of war, in an official statement, today said:

"The Belgians are successfully combatting the German invasion.

"The Belgian losses are trifling compared with those of the Germans.

Brussels, Aug. 5.—The Belgium official Gazette announces today that the entire 7th and 10th German army corps have invaded the Belgian province of Liege and have reached the vicinity of Herve, Pepinster and Remounchamps. The German artillery bombarded some small forts in their advance.

TOWN TAKEN AND BURNED.

Liege, Belgium, Aug. 5.—The capture of the frontier Belgian town of Vise was effected by German troops after an engagement lasting several hours. It is stated that the victors set fire to the town, killing those of the population who resisted them.

The town Argentau is also in flames. One hundred thousand Germans are reported to be marching on Liege.

GERMAN INVASION OF HOLLAND.

London, Aug. 5.—The Germans have invaded Dutch territory at Tilburg.

It is reported that German troops met with resistance after crossing the river Meuse, at Eysden, Belgium.

The prompt destruction of bridges by the Belgian troops checked the advance of the Germans.

GERMANY ACCUSED OF TRYING TO BRIBE

Washington, Aug. 5.—Diplomatic dispatches indicate Sweden will join Great Britain, France and Russia if she finds herself unable to remain neutral.

London, Aug. 5.—Great Britain having last night declared war against Germany, Premier Asquith today announced that the British government would ask for another credit of $500,000,000 tomorrow. It was officially stated that Viscount Morley and John Burns had resigned from the cabinet.

Tried to Start Panic.

The Pall Mall Gazette today makes public reports current in the city to the effect that the heavy selling orders from Germany during the past week or two was really a deliberate attempt to smash the London market and cause a scare to the financial and commercial world so as to keep Great Britain out of the war. The newspaper says it hears the sum of $10,000,000 was expended or had been arranged to be expended for this object with the cognizance of the German government.

Kaiser's Sinister Motive.

made yesterday. It adds that it is probable that diplomatic papers will throw an unexpected light on Germany's motives, which, it is supposed, are aimed at acquiring French colonies and that as the price of British neutrality Germany was prepared to give guarantee that she would not annex any portion of France in the event of a French defeat.

London, Aug. 5.—The Gazette, the official newspaper, today published the notification of the state of war existing between Germany and England as well as an order in council signed by the king relating to the merchant vessels of the country with which the British empire is at war. The order specifies as contraband arms of all kinds, clothing and harness of a military character and animals suitable for war purposes.

Articles specified as conditional contraband are food stuffs, fuel, harness, telescopes and field glasses.

WILSON TENDERS THE NATION'S BEST AID

President Notifies Warring Powers That United States Will be Pleased to Act as Peace Mediator

UNDER AUTHORITY OF THE HAGUE PACT

BULLETIN.

Washington, Aug. 5.—Mr. Bryan presented the president's offer in writing to Dr. Dumba, the Austrian ambassador, and secretaries from the British, German and Russian embassies and the Belgian minister. An effort will be made to transmit it to Berlin by wireless.

Later the mediation proposal was delivered to the French charge and the secretary of the Netherlands legation, completing the list.

Washington, Aug. 5.—President Wilson has offered his good wishes to all the European powers involved in the war.

The president has sent the following message to Emperor William, Emperor Nicholas, Emperor Francis Joseph, President Poincare and King George:

"As official head of one of the powers signatory to The Hague convention, I feel it to be my privilege and my duty under article three of that convention to say to you in a spirit of most earnest friendship that I should welcome an opportunity to act in the interest of European peace either now or any other time that might be thought more suitable, as an occasion to serve you and all concerned in a way that would afford me lasting cause for gratitude and happiness.

(Signed)

"WOODROW WILSON."

The proffer of good offices was forwarded by Secretary Bryan to the American embassies in the nations involved and through them transmitted to the governments.

It was said at the white house that no intimations had been received that such an offer would be favorably received. President Wilson took the position that the European war was so stupendous and that its effect on the entire world was liable to be so lasting that the United States as one of the few large neutral powers could not do otherwise than at least offer to be the means of bringing about peace.

The proffer of good offices was not sent to the governments of Servia and Montenegro because those countries are not parties to The Hague convention.

Secretary Bryan has called a conference of representatives of all the European powers for late today when it is believed messages will be delivered supplementary to those of President Wilson, urging an acceptance of the tender of good offices.

Most of the diplomats are away at summer embassies, but are all expected back soon. Mr. Bryan sent out his invitation, however, as some are in Washington and others are expected to return in response to the call.

England and France Willing.

From informal inquiries which American diplomats have been making of their own initiative for several days it appeared probable to officials here that England and France might accept the tender of good offices. An acceptance by Great Britain, it is presumed, would mean similar action by her allies, Russia and France.

All eyes here are turned on Berlin, where, it is believed, the decision on mediation really lies. Ambassador Gerard has been active since hostilities began in his efforts to suggest some way for a pacific settlement and the general trend of opinion in white house circles was one of optimism.

Another basis for hope was the fact that inasmuch as the United States is in no way a party to the European dispute, a rejection of her tender of good offices would be contrary to the spirit of The Hague convention which specifically suggests that "in case of serious disagreement or conflict, the signatory powers agree to have recourse, as far as circumstances allow, to the good offices or mediation of one or more friendly powers."

Why Acceptance is Easy.

A hope that the president's offer might be accepted was prevalent in official circles, because it is not necessary for any of the warring powers to change the present military status if they accept it. Article 7 of The Hague convention provides:

"The acceptance of mediation cannot unless there be an agreement to the contrary, have the effect of interrupting, delaying or hindering mobilization or other measures of preparation for war.

"If it takes place after the commencement of hostilities, the military operations in progress are not interrupted in the absence of an agreement to the contrary."

JAPAN'S ATTITUDE STATED.

Tokio, Aug. 5.—The Japanese premier, Count Okuma, in an interview today expressed his regret that the United States had not been able to mediate in the European conflict, which, if it continues, he said, means the destruction of western civilization. Japan, he continued, would have been happy to join the United States in mediation, but her possible participation in the war as an ally of Great Britain made her an interested party.

The premier said that Japan, if she were compelled reluctantly to intervene, would protect the British colonies, but under no circumstances would she send a fleet or an army to Europe.

REPORT BRYAN'S TREATIES.

Washington, Aug. 5.—As an influence [illegible] the senate foreign relations committee today ordered favorably reported Secretary Bryan's twenty peace treaties with foreign nations urged for ratification by President Wilson before congress adjourns.

The committee, however, struck out a provision that pending investigation of difficulties contracting nations should agree not to increase their military or naval program unless danger from a third power should compel it.

LATE WAR BULLETINS.

Washington, Aug. 5.—Another neutrality proclamation including Great Britain and Germany, not included in yesterday's proclamation, was prepared for issue today.

Washington, Aug. 5.—Arrangements are being made to return the $10,600,000 gold aboard the liner Kronprinzessin Cecelie at Bar Harbor to the consigner, bankers in New York, by revenue cutters.

Constantinople, Aug. 5.—The Dardanelles and the Bosphorus were closed today in order to preserve the neutrality of Turkey.

Stockholm, Aug. 5.—The German ambassador to Russia with his staff arrived here yesterday from St. Petersburg on a steamer flying the American flag. They proceeded to Berlin.

Berlin, Aug. 5.—An embargo was today laid on Russian balance at the great banks in Germany. These funds are considered by Germany as property belonging to a hostile force.

Copenhagen, Aug. 5.—A German torpedo boat destroyer was sunk today near Gedser light ship off South Gedser by the explosion of one of her boilers. Thirty men were drowned. A few of the crew were saved and taken aboard the lightship.

London, Aug. 5.—Chancellor of the Exchequer Lloyd George announced in the house of commons today that the Bank of England rate was to be reduced to six per cent either tomorrow or Friday. The government he said had not yet decided to suspend specie payments.

London, Aug. 5.—Reginald McKenna, the home secretary, announced today that 21 spies had been arrested in the British Isles during the last 24 hours, chiefly in important naval centers.

The home secretary introduced a bill in the house of commons to restrain the movements of undesirable aliens with the object of facilitating the removal of spies. The measure was immediately given a second reading.

London, Aug. 5.—Earl Beauchamp was appointed to succeed Viscount Morley as president of the council today and Walter Runciman to take the place of John Burns as president of the local government board.

New York, Aug. 5.—Messages destined to Austria-Hungary or Germany may no longer be sent over the Western Union cables. J. G. Willover, manager in the United States of the cable system, announced today that he had received such instructions from the English military censors.

Paris, Aug. 5.—The French customs and telegraph offices at Homecourt and Joeuf in Meurth-et-Moselle have been sacked by German infantry, according to dispatches received here. At Morfontaine, a German officer was taken prisoner when the French infantry repulsed a party of German cavalry.

Quebec, Aug. 5.—The newspapers of Canada were today given instructions not to publish any information regarding the steps taken by the military authorities for the defense of Quebec or any other port in Canada.

BULLETIN.

Tokio, Aug. 5.—Considerable activity among the vessels of the Japanese navy followed the announcement of the declaration of war between Germany and Great Britain.

The light houses along the Siberian coast have been extinguished.

A number of German, Austrian and French reserve officers sailed today on board the Korea for San Francisco.

BULLETIN.

London, Aug. 5.—It was officially announced tonight that the British cruiser Amphion has sunk the Hamburg-American line steamer Koenigin Luiz, which had been fitted out for mine-laying.

world had been waiting came before the expiration of the time limit set by Great Britain in her ultimatum to Germany demanding a satisfactory reply on the subject of Belgian neutrality.

Germany's reply was the summary rejection of the request that Belgian neutrality should be respected.

State of War Exists.

The British ambassador at Berlin thereupon received his passports and the British government notified Germany that a state of war existed between the two countries.

The British foreign office has issued the following statement:

"Owing to the summary rejection by the German government of the request made by his Britanic majesty's government that the neutrality of Belgium should be respected, his majesty's ambassador at Berlin has received his passports, and his majesty's government has declared to the German government that a state of war exists between Great Britain and Germany from 11 o'clock p. m., Aug. 4."

KAISER'S ENVOY STILL THERE.

London, Eng., Aug. 5.—The German ambassador to England is not expected to leave before tomorrow. It was reported today that a British cruiser might be placed at his disposal to insure his safe passage across the channel. He visited Viscount Haldane at his private residence this morning.

GEORGE PATS HIS ADMIRAL.

London, Aug. 5.—King George sent the following message to Admiral Jellicoe, who has been made commander of the British fleets:

"At this grave moment in our national history, I send you and through you to the officers and men of the fleets of which you have assumed command assurance of my confidence that under your direction they will revive and renew the glories of the royal navy and prove once again the sure shield of Britain and her empire in the hour of trial."

THE DEATHS.

LIEFER.

Mrs. Clara Liefer, aged forty-five years, died at 4 o'clock Tuesday afternoon at St. Joseph's hospital where she had been a patient since last Friday suffering from cancer and other complications. She is survived by a son and daughter at Gary, Ind., and her father and several sisters at Massillon, O. The remains were shipped to Massillon Wednesday for funeral services and burial.

RIDLEY.

Anthony Ridley, aged thirty-five years, died at a local hospital Tuesday afternoon from apoplexy.

Mr. Ridley had been an inmate at the hospital where he died for the past year. He was engaged in the show business for some time and was a musician and minstrel man. While in the Philippine Islands several months ago he contracted an attack of malaria fever and never completely recovered from its effects.

WHEAT TUMBLES AS WAR BULGES

England's Entrance Into Conflict Signalized by a Slump.

Chicago, Aug. 5.—England's actual entrance into the war was signalized today by a drop of prices in wheat. Opening prices were 1-4 to 1 5-8 under last night, with the market tending downward.

Within a few minutes the break had widened to two cents a bushel and was still in progress. The trade seemed to take the position that for the time being the effect of British action was to diminish the chance of an immediate export demand. Buyers who yesterday anticipated quick action in the way of foreign shipments, were unloading today.

The most definite advices regarding the export outlook were received by George Blanchard, Chicago representative of the North American Export Grain association. He had a cablegram from Liverpool that the British government's plan to guarantee war risks on ocean shipments of wheat was being held in abeyance owing to the difficulty of fixing the cost for receivers account. The cablegram added that a substitute plan was expected to be adopted before tomorrow.

APPOINTMENTS ARE FAVORED.

Washington, Aug. 5.—Confirmation of Paul M. Warburg, of New York, and Frederic A. Delano, of Chicago, to complete the federal reserve board, was recommended today by the senate banking committee.

than 42 Germans of both sexes have been arrested as spies since last Saturday.

Germans began to crowd today in the American consulate general here which has been charged with their interests during the hostilities. The arrangement with the French government with Consul General Thackara is to give each of them a certificate of identification which must be presented to the police commissary of the district in which the person is domiciled. In exchange the commissary gives him an authorization to depart by train to some town where he must remain until the war is over.

Most of the Germans are destitute and the members of the consular staff have provided many of them with money from their own pockets as no public fund is available for the purpose. One wealthy German family expelled from its flat may have to walk the streets until the day appointed by the authorities for its departure for the west of France.

The French authorities have arranged for the departure of two trains to Boulogne and two to Dieppe for the transportation of passengers desiring to cross the channel. Arrangements also have been made for connecting steamers to meet the trains and carry the passengers to Folkestone, New Haven and Southampton. A large number of Americans have applied for tickets.

EIGHT CRUISERS OFF THIS COAST

New York, Aug. 5.—Eight cruisers—three German, three British and two French—are hovering somewhere off this coast. For days incoming steamships have reported news of fragmentary wireless indicating that these vessels were in American waters, but no skipper was able to fix their position. The firing heard off the coast of Maine today may have marked the first engagement between either the German and English or the German and French ships. The British cruisers known to be in American waters are the Berwink, Essex and Lancaster. The German cruisers are the Dresden, Strassburg and Karlshrue. The French cruisers are the Conde and Descartes.

These vessels have been primarily concerned of late in attempts to intercept merchant vessels of the enemy and several big liners, notably the Kronprinzessin Cecelia, which put into Bar Harbor, Maine, yesterday after abandoning her trip to Europe, have had narrow escapes. Captain Polack, of the Cecelie, believed that at one time she was in imminent danger of capture by one of the French vessels.

SOCIALIST IN CABINET.

Brussels, Aug. 5.—Premier Broqueville announced in parliament today that Emile Vandervelde, the great socialist leader, who was one of the chiefs in the general political strike and is regarded as one of the most able of the opponents of the clerical ministry, had joined the cabinet, being appointed minister of state.

The premier also stated that all men trained in the past fifteen years had been called to the colors. He read the Belgian reply to the last German note which informed this government that if Belgium raised difficulties against the passage of German troops through Belgium the necessary force would be used by Germany to accomplish her end.

BRITAIN BUYS BATTLESHIPS.

London, Aug. 5.—The British government will pass in the neighborhood of $25,000,000 for the two Turkish battleships being constructed in English yards and which has been taken over. One of them has been named Agincourt, and is completed. The other Osman I, and which will be known in the British navy as the Erin, is nearly completed. They are first class battleships.

ANTI-GERMAN RIOTS.

Antwerp, Aug. 5.—Serious anti-German rioting occurred here today. An angry mob sacked the German cafes and restaurants and tore the escutcheon from the door of the German consulate. The police being unable to check the disorders, the Belgian military governor placed the city under martial law and ordered the expulsion of all German residents.

RUSSIAN AIRSRIP WRECKED.

Vienna, Aug. 5.—According to the Neue Frie Presse a Russian aeroplane, carrying a pilot and two Russian officers was sighted on the Russo-German frontier near Lemberg, an important military station of Austria-Hungary and was fired on by Austrians. The machine crashed to the ground and the two officers were killed.

TO ACT FOR BRITAIN IN BERLIN.

Washington, Aug. 5.—Colville Barclay, charge d'affaires of the British embassy today asked that the United States take over British diplomatic interests in Berlin. Secretary Bryan instructed Ambassador Gerard to do so.

TWO GERMAN ARMY CORPS NEAR LIEGE

man army corps, the 10th army corps at Eysden, the 7th army corps, 40,000 strong at Verviers, and the 6th army corps in another locality not named. The 10th German army corps is operating along the northern line and finding unexpected resistace, moved further northward invading Dutch territory at Tillburg and crossing the Meuse at Eysden. An army of 100,000 Germans was marching today on Liege where a general attack is expected tomorrow. A German officer, taken prisoner by the Belgians, said he was amazed at the resistance offered to the German advance. The Germans had been given to understand at Berlin that they would not be opposed in Belgium.

A German military aviator was killed today.

FORTS FIRE ON THE GERMANS.

Brussels, Aug. 5.—The Belgian ministry of war announces that the fortifications of Liege and the vicinity, are firing vigorously at the German troops.

German troops have crossed the Belgian frontier at three points—at Dalhem, 7 miles north of Liege, and at Franceorchamps and Stavelot, both about 25 miles to the southeast of Liege. A fight is believed to be in progress between the Belgians and Germans for the possession of Flecon, six miles from Liege.

WAR PREPARATIONS IN FAR EAST

Shanghai, Aug. 5.—Guns were mounted today on the German Lloyd steamship Prince Eitel Friedrich at Tsing-Tau.

The far eastern squadron of the German fleet accompanied by a number of merchantmen left Tsing-Tau today and it was reported that the warships were proceeding northward.

Large numbers of Chinese coolies have been forced to work under armed guards on the defenses of Tsing-Tau.

WANT CABINET CHANGES MADE.

London, Aug. 5.—Some of the morning papers express irritation because of the delay in the rearrangement of the cabinet posts. The delay is interpreted as indicating a divergence of opinion as to whether an expeditionary force should be sent to the assistance of France.

It is understood that Premier Asquith will relinquish the duties of secretary of state for war, but it is still unknown whether Viscount Haldane, who is assisting at the war office, or Field Marshal Lord Kitchener will succeed him. The resignations of Viscount Morley, secretary of state for India, and John Burns, president of the local government board, have not yet been accepted or officially announced.

WOULD FOLLOW THE CAMPAIGN.

Paris, Aug. 5.—Myron T. Herrick, United States ambassador in Paris, has cabled to the war department in Washington for permission for Major Spencer Crosby, Major Morton J. Henry, Captain Frank Parker, Captain Francis H. Pope, Lieutenant B. B. Somervell and four other graduates of Westpoint, all of whom are on leave to accompany the French army as military observers. These officers assisted the ambassador in handling the crowds of Americans who had come to the embassy to get passports or identification papers.

The ambassador has requested the French government to extend the time limit for the issue of special permit of residence to Americans living in Paris, or who desire to remain here. The government had granted only till tonight to foreigners desiring to obtain permits. Mrs. Anna Wilson Howe, of Philadelphia, sister of President Wilson, took her place in the line at the embassy yesterday waiting for a passport.

Oscar Underwood, jr., was among those who assisted American residents, using his private automobile to bring in children and others who had been separated from their parents and friends.

PICKS UP GERMAN MESSAGE.

New York, Aug. 5.—The powerful wireless station at Sayville, Long Island, has been in continuous communication with German war vessels off the American coast for the past few days. A great many messages have been sent in code to the cruiser Dresden and other German warships during this time, according to the manager of the Atlantic Communications company which controls the wireless plant. No messages to French or English vessels have been sent, he added, these for the most part going by way of Cape Cod. Information as to the source of messages to the German vessels was refused, but it was said that they had come from many places, among them being the cable offices in this city. The manager said that no firm was an American one. Most of the [illegible]

TO KEEP FOOD PRICES DOWN.

Vienna, Aug. 5.—The Austria-Hungarian government today took drastic measures to protect the public against dealers charging exorbitant prices for food. A decree was issued calling on producers, warehouse men and dealers to inform the local authorities as to the stocks in their possession. Any attempt to keep secret the extent of stocks or raise prices is to be punished by imprisonment varying from one month to one year. The church authorities have decided to permit the performance of marriages without the usual publication of bans. Hundreds of couples are taking advantage of these regulations.

A BILLION NOW AVAILABLE.

Washington, Aug. 5.—More than a billion dollars was made available today for additional circulation to prevent any financial stringency growing out of the European war under the bill amending the bank law to which President Wilson had placed his signature. The new act extends issues of currency to 125 per cent. of capital and surplus of banks and trust companies in the federal reserve system.

GERMAN CONSULATE ATTACKED.

Vancouver, B. C., Aug. 5.—The big black eagle above the door of the German consulate was torn from its supports today by a crowd which threatened the consulate with destruction.

The C. O. F. Baseball Club will hold their social at St. Andrew's School hall, instead of 2416 New Haven avenue.

SCARCITY CAUSE OF HIGH PRICES

Noted Packer Says Texas Cattle Output Has Decreased.

Detroit, Mich., Aug. 5.—"Texas, which produced more cattle than any other two states in the union, is now producing 40 per cent. fewer cattle than it did five years ago.

"It would take ten years, with careful conservation of the heifer calves throughout the country, to get the herds back to where they were ten years ago. And this would not allow for the increase in population which the United States will have during the next ten years.

"If we could get enough Argentine cattle it would reduce the price of live cattle and have an effect on the price of dressed beef in the United States. But Argentina is three million head of cattle short of what she had four years ago, due to disease and bad seasons."

This is the answer of H. E. Finney, general manager in Texas and Argentina for Armour & Co., to the reason for higher prices for beef.

Mr. Finney sees no hope for a reduction in the price of beef.

"Texas, because of the cutting up of the large ranches, is turning out more finished cattle and fewer stockers, but the size of the herds is decreased.

"Importation of Argentine cattle is an undoubted help, but there are not enough cattle coming in from that country to reduce prices. Before the passage of the Wilson tariff most Argentine beef was shipped to Europe. Removal of duty here and the disturbed industrial conditions in England, which have lessened the demand there for Argentine beef, have increased importations to this country.

"When normal conditions are restored abroad and the demand for beef picks up there will be less importation of Argentine cattle, unless the price here is better than over the water. The Argentine output this year was good. Uruguay and Australia also are beginning to export cattle to the United States and will be considered factors.

"Here is another thing that affects the price of cattle. It takes from four to seven acres to graze a steer. Land prices are constantly increasing in the United States. At $250 an acre, you can get an idea of the cost of raising a steer."

REFUSES TO KISS PHOTOGRAPH.

Man Is Knifed When He Declines to Salute Wilson's Picture.

Yonkers, N. Y., Aug. 5.—Frank Jahn was challenged by George Warda, a fellow Syrian, to show his fidelity to his adopted country by kissing a picture of Woodrow Wilson. Warda did it himself, and when Jahn refused to follow his example a fight ensued, in which Warda's finger was sliced nearly off with a knife.

ONE KISS A YEAR NOT ENOUGH.

Wife Says She Is Entitled to Divorce on That Account.

Atlanta, Ga., Aug. 5.—When a husband kisses his wife only once a year, and this continues for three years, it is cause for divorce in Georgia, according to Mrs. Nellie Thomas, a popular young woman, who has entered divorce proceedings against N. S. Thomas. Mrs. Thomas says her husband has been cold to her for some time and has told her he did not love her.

FIGHTING TROOPS AND OFFICER OF THE GERMAN ARMY AND RUSSIAN REGIMENT SALUTING THE TSAR AS IT ENTRAINS FOR FRONT

THE TSAR SALUTING ONE OF HIS REGIMENTS AS IT ENTRAINS FOR THE FRONT. CENTRAL NEWS PHOTO. GENERAL PAU LEAVES PARIS TO MOBILIZE A CORPS AT CARCASSONNE AND PROCEEDS INTO POSITION

THE SENTINEL'S DAILY SCRIPTURE READING.

John 2:1-12.

1 And the third day there was a marriage in Cana of Galilee; and the mother of Jesus was there:

2 And both Jesus was called, and his disciples, to the marriage.

3 And when they wanted wine, the mother of Jesus saith unto him, They have no wine.

4 Jesus saith unto her, Woman, what have I to do with thee? mine hour is not yet come.

5 His mother saith unto the servants, Whatsoever he saith unto you, do it.

6 And there were set there six waterpots of stone, after the manner of the purifying of the Jews, containing two or three firkins apiece.

7 Jesus saith unto them, Fill the waterpots with water. And they filled them up to the brim.

8 And he saith unto them, Draw out now, and bear unto the governor of the feast. And they bare it.

9 When the ruler of the feast had tasted the water that was made wine, and knew not whence it was, (but the servants which drew the water knew,) the governor of the feast called the bridegroom,

10 And saith unto him, Every man at the beginning doth set forth good wine; and when men have well drunk, then that which is worse: but thou hast kept the good wine until now.

11 This beginning of miracles did Jesus in Cana of Galilee, and manifested forth his glory; and his disciples believed on him.

12 After this he went down to Capernaum, he and his mother, and his brethren, and his disciples; and they continued there not many days.

All Europe Now Set for War

Great Britain's declaration of war against Germany adds nothing to the magnitude of the prospect. It merely gives a positive definiteness to what was a fact that lacked only formality. That Britain would be embroiled in this war was a conclusion foregone from the moment the break came between Germany and Russia. There is no very happy prospect that any country of Europe will escape being drawn into the conflict sooner or later. Italy has declared her neutrality, asserting that the conventions of the dreibund do not oblige her to draw the sword under the circumstances that have involved her allies—Germany and Austria. She will be sucked into the maelstrom of strife, without doubt, and already is enforcing preliminary steps for mobilization of her armies. It is a conflict that necessarily will involve all of Europe, and as it now appears nothing less than a direct intervention of providence can avert a war that must prove the most calamitous the world has ever known. Such mighty armies have never swept the land, such prodigious navies have never scoured the seas as will in this war. The spectacle of the greater part of the civilized world in armed strife will be vast and awe-inspiring. Its material effects will stir different emotions when they have fully struck the world. This war will be felt everywhere for generations.

Military aviation and aerial combat are two of the fattest little facts that ever developed for the aid and behoof of the war romancer. He can fill the midnight heavens with "airy navies grappling in the upper blue," develop all sorts of sensations, victories and disasters and write his dizzy head off about the happenings and there is no great chance of his being proved a liar. Hand to hand fighting by legions of foot, the thunderous shock of spurred squadrons of horse, the deafening roar of booming cannon, the mighty struggle of dreadnaughts on the swelling deep offer some rather elegant opportunities for the play of martial fancies, but these are trifles and perhaps nothings. There must be some basis of fact for the appearance of these in war stories. The operation of the diligent imagination dealing with military aviation needs no such vulgar accessory as an intervention of facts or even an assumption of truth. It's quite the finest little piece of business yet introduced into the war game.

In something better than two thousand words President Wilson has proclaimed the neutrality of the United States in the hostile issues of European politics and defines what American citizens and foreign subjects on American soil, as well as the rights, privileges, immunities and obligations of the merchant marine, privateers and warships of belligerents may do within our borders, under our sovereignty and upon our waters and roadsteads. Fail not to peruse, ponder and heed—in short, stop, look, listen and don't get yourself mixed up in any international affair at this time. It's no easy matter to keep out of a general shindy, but "oceans braid between us roll," and it is not going to be so doggone hard to be an innocent and perfectly peaceable and safe bystander in this conflict of the powers.

Mexico seems to resent being backed entirely and without notice off the war stage. Carranza and his constitutionalists are preparing to march upon the provisional government of the republic and shoot things to pieces in the capital. A peaceable transition from the provisional hands to the constitutional hands had been arranged and your fatigued Uncle Samuel was beginning to breathe easy out of a pardonable chestiness that he fairly well had done a good thing. Now comes this. It's provoking.

The man on the war lookout can see things in the European conflict as readily as he used to see 'em from the Mole St. Nicholas in the Spanish America tiff and later from Chefu, when Russ and Jap were at it. The North German Lloyd prize liner, Kronprinzessin Cecelie was veraciously reported Sunday night to have been run down and captured with her $11,000,000 of treasure by two British cruisers. Monday she was known to have put in at two or three ddifferent German ports, no matter where. Tuesday morning she heaves anchor at Bar Harbor, Maine. Of this last report there need be no skeptical misgivings. If the Kronprinzessin Cecelie interests you in any fashion you can go to sleep on the telegraphed story of her heading about when almost in sight of home and making a hasty skedaddle back to American shores.

"Come, let us reason together," saith the prophet. But the war-mad nations have no mind to hearken to Isaiah or any other. A reasoning together would have put this wicked war far from the ken of those now waging it. War has few reasons, but it musters legions of pretexts and no end of excuses. However, when this conflict shall have been brought to its bloody conclusion there will be a few millions of the survivors here and there in the prostrated nations that are waging the battle, who will ask, "Why is a king anyway?" That will help some and a deal, maybe.

The American tourist in Europe at this time can hear the air filled with "Wacht am Rhein," "Marsellaise," and "God Save the King," but these national airs blend into one sad and unavailing composite that sounds much like "Home Sweet Home."

For the present the dreibund is only a zweibund, but perhaps Italy will come in or be dragged in to the aid of her ally who watches the Rhine.

Patrick Gallivan has returned from Chicago, where he spent several days with his sister, Mrs. Katherine Stack, and family.

Judge Walter Olds and wife, of Fort Wayne, were guests Sunday of S. J. Peabody.

John L. Miller, residing south of the city, who recently broke a leg, has been troubled of late with rheumatism and is affected in the joints.

Born, to Mr. and Mrs. Ceryl Coulter, of Smith township—a boy.

Work has been begun on the moving out to the curb margin of the sidewalks of East Van Buren street, and Supt. Frank Shultz, of the city power plant, is busy taking out and resetting telephone poles.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O.

BEST ORGANIZED MILITARY BODY IN THE WORLD IS GERMAN ARMY.

Every Able-Bodied Man Has to Be a Soldier in Peace or War—Cogs in Mighty Machine Explained.

(By an Ex-Officer in the German Army.)

The German army of today is the most efficient fighting organization that the world has ever seen. It has served as a model for the armies of most other countries. The Austrian, Japanese, Chinese, Turkish armies have been organized on methods copied from the German system.

On January 1 of the year in which he attains his twentieth birthday, every male German must report to the military authorities of his district. If he is not excused because of some physical defect he must serve two years, if in the infantry; three years, if in the cavalry or artillery. For his services he receives a pittance for pocket-money.

After his term in the standing army, he is transferred to the first reserves for a period of five years. During this period he is required to go through military training with his regiment a month or two each year.

Now he is passed into the "Landwehr," where he remains another five years. Here he is called out for drill at any time desired by the military authorities. From the first class of the "Landwehr" the German soldier is passed into the second class, where he stays until he is 39. Then he goes into the "Landstrum," or final line of reserves, which is called for service only in case of extreme national necessity. After six years his military service comes to an end.

The standing army consists of 600,000 men. Nearly half of this number pass out every year and are replaced by an equal number of fresh recruits. The first reserve consists approximately of 1,500,000 men, and the "Landwehr" consists of 2,200,000 men. The "Landstrum" brings up the total to over 6,000,000.

The unit of organization in the infantry is the "section" consisting of twenty men under the command of a corporal. Two sections for a "semi-detachment," or forty men under the command of a sergeant. Two semi-detachments form a "detachment" of eighty men under the command of a lieutenant. Thre detachments form a company of 240 men under a captain. Four companies make a battalion of 960 men under a major. Three battalions form a regiment under a colonel; and two regiments form a brigade under the command of a major general. The army corps, which is the largest military unit, consists of two or three divisions.

All details of the mobilization of the army have been worked out with such precision that 6,000,000 soldiers can be mustered and prepared for active service without delay or confusion or misunderstanding. Not only are the men themselves carefully instructed regarding their duty in case of war, but all the military materials required for a modern campaign are stored and classified ready for use at any moment.

A uniform for every soldier is ready to be put on at the word of command. Six million pairs of boots, six million caps, six million tunics, six million belts and so forth are all stored in the vast military arsenals in such perfect order that they can be handed out to each individual with exactness and every man will be clothed according to his height and measurements. Six million modern rifles are ready, with immense quantities of ammunition.

All the plans for concentration at any given point have been worked out. Immediately after a declaration of war, the imperial government could take possession of all the railways. The military authorities know exactly what rolling stock would be required to concentrate any number of troops at any given spot. All the railway cars in use in Germany for the conveyance of freight have been numbered and measured.

The intellectual power which guides and controls these forces is the general staff. The general staff is nominally a body of officers whose exceptional talents entitle them to be regarded as military experts. Chief of the General Staff Von Moltke is really the commander-in-chief of all the forces, although the kaiser would nominally hold this position in the event of war.

Quick, Safe Way to Remove Hairs

(Toilet Talks.)

Keep a little delatone powder on your dressing table and when ugly, hairy growths appear, make a paste with a little of the powder and some water, apply and let remain on the hairy surface for 2 or 3 minutes, then rub off, wash the skin and the hairs have vanished. This treatment is quite harmless and rarely more than one application is required, but to avoid disappointment care should be used to buy the real delatone.

As pretty an announcement party as the midsummer days have afforded was the one given by Miss Frances Newhaus, daughter of Mr. and Mrs. R. H. Newhaus, at her home in St. Mary's avenue on Sunday afternoon. During the entertainment Miss Newhaus announced her engagement to Carl H. F. Schomburg and gave the date of the wedding to be September the ninth. Music and games were the amusement of the time and a supper was by no means the least feature of the pleasure provided for the company. Hand-painted place cards bore the announcement of the marriage date at the supper. The wedding will take place in the Church of the Precious Blood. Roses and ferns made an appropriate and beautiful decoration of the rooms and supper table. The groom-elect is a son of Mr. and Mrs. Henry Schomburg, of Smith street, and is a well known and highly respected young man who is in the drug business. The selection of the wedding day was made in deference to the parents of the bride who will attain the thirty-fifth anniversary of their marriage on that day. The guests on Sunday were Misses Mary and Lena Reincke, Lydia and Emma Schomburg, Nettie Ropa, Lorene Bock, Mildred Stetter, Tena Tremple, Margaret Moeschel, Lucy Gusching, Frances Vachon, Laura Wiebke, Mollie and Frances Neuhaus and Mrs. Ida Vachon.

Miss Lois Connell went to Fort Wayne to be the guest of Miss Matilda Ehrman until Saturday.

Miss Beaman arrived here from Wellsboro, Pa., and then went to Fort Wayne to be the guest of relatives.

J. B. Drummond sold his peanut stand here to Bruce Niblick and left today on an extended visit in Albany, Ore., with his daughter, Mrs. W. O. Simon.

Miss Irene Schuh returned to Plymouth after a visit here with Miss Florence Myers.

The second annual reunion of the Fiting family will be held in the Henry Fiting grove southwest of the city next Sunday.

SEVEN CARS WERE NEEDED.

Trolley Party of Associated Christian Workers Attended by 287 People.

Seven cars were needed Tuesday evening for the 287 people who attended the trolley party given by the Associated Christian Workers under the auspices of the social committee of the association. The procession, headed by Electra and a trailer also lighted, left the interurban station at 8:15, from where it went to Robison park. Upon the return the cars took the open air party to Foster park.

At the southside park a social time was enjoyed by all and refreshments added to the pleasure of the occasion. At 10:30 the cars took the entire party back to the interurban station, from where most of the young people departed for their homes reporting having had a good time.

The grand success of the entire affair is due to the work of Emil Koenig, chairman of the social committee, under whose direction the entire affair was carried out. The officers report that it was one of the best social affairs ever given by the society.

WILL HAVE MOONLIGHT PICNIC.

Standard Bearers of First M. E. Church Will Have Open Air Meeting Thursday.

Instead of holding the regular monthly business and social meeting in the church parlors Thursday evening as usual, the Standard Bearers of the First M. E. church will have an open air meeting at Weisser park in the nature of a "moonlight picnic" on Thursday evening, Aug. 13.

The committee in charge is arranging for a 7 o'clock lunch so that all parties concerned may take a car to the park directly from work. After lunch the time will be spent in playing various games and outdoor exercises. All members and friends are urged to be present as a good time is assured.

The Dehm Idea of Service

Service is the mainspring of a business. When a service ceases, the wheels stop and business soon comes to a standstill.

That is why we continually give so much emphasis to the service this store offers. We regard service as a most important factor in our business success. We feel that had we given our patrons a bungling, inefficient service, we would not have made the success we have.

As one of the big restaurants says: "We serve you right!"

Final Clearance of Trimmed Hats

Prices have been further and finally reduced on nearly one hundred Trimmed Hats, including the finest.

Values were never greater—because we have never had such a great variety—we have never made greater efforts than in our summer exhibit. But the display must be changed soon — hence the greater reductions.

Fine Panamas, $3, $4 and $5 values — choice $1.50 — less than one-half wholesale price and none have been in our store more than five days. Smart shapes.

Trimmed Hats—tomorrow your choice of any black, white or wanted color at 25c to $1.95; others at 50c, 95c and $1.50—all white, all black; very special values.

At no other store, to our knowledge, is so varied or extensive a range of models to be obtained.

A new lot of White Felt Hats — soft, flexible, light weight, 75c. White Corduroy Hats, pretty sailor shapes, 75c. White Linen Hats, close-fitting kind, 50c.

Black Velvet Hats with white hemp brims, clever late blocks with deep lustrous black velvet, sold for as much as $2.50, tomorrow get them at $1.50. Fine Satin Hats, new fall shapes, small and large shapes in all black and white, also sells regularly at $2.50, for tomorrow, here only $1.50.

Finest Display Fall Fashions for wholesale trade. We extend an invitation to all milliners.

AMERICAN WOMEN WHO ARE WIVES OF THE GREAT.

NO REFLECTED GLORY FOR WIFE OF THIS CABINET MEMBER.

©Harris & Ewing

Mrs. A. D. Burleson.

Mrs. Albert S. Burleson is one cabinet member's wife who does not shine in reflected glory.

The postmaster general is distinguished among statesmen, but his wife has won in the literary world.

The production of her clever comedy, "His Secretary," in Washington last winter, with Preston Gibson as sponsor, gave Mrs. Burleson a place among recognized writers and called attention to the fact that she had already written "The Vive Mexico," "Her Hour" and "The Deluge" and several other plays that had been successfully produced.

"I began writing long before I assumed the responsibilities of a family," says Mrs. Burleson, "but I gladly laid aside my pen to rock the cradle, and I had little hope of ever taking it up again. But now the children are grown, my eldest daughter has a baby of her own, and my ambition to write is even greater than it was when I was a young girl, and so, having no more cradles to rock, I am giving most of my time to writing."

The Burleson's are this season occupying a huge old house in the old-fashioned residence section of Washington. Here they entertain a great deal. Mrs. Burleson's drawing room is always thronged on her days at home. Two young daughters—Lucy and Sydney—add to the popularity of the postmaster general and Mrs. Burleson. The two Burleson girls are so similar in size and appearance that they are wittily known as "the postage stamps" in cabinet circles.

The Aid society of the Simpson M. E. church will hold an ice cream social in the church parlors Thursday evening.

BEVERLY BAYNE DISPELS BEAUTY BELIEFS — "PERSONALITY BEATS LOTIONS," SHE SAYS.

Beverly Bayne says: "It is harder to make the lips give expression to a lie than the tongue."

Beverly Bayne shows that the smiling girl is the girl who has a beautiful mouth.

(By Idah McGlone Gibson.)

"Pantomime and personality will make you attractive even if you never use a freckle lotion," says Beverly Bayne. "And nothing shows so much of a woman's personality as her mouth."

The mouth plays an even greater part in facial loveliness than the eyes. I have never yet seen a woman with a lovely mouth who was not called beautiful.

Beverly Bayne says: "You would think that in moving pictures the mouth would not be very important, but the next time you go to the movies watch the mouths of the actors. You can read the story most by their expressions, even if you are not a lip reader and can not hear what they are saying.

I have always said: "Let me see a woman's mouth after she is forty and I can tell you almost as much of her life and character as the palmist could from her hands."

Probably right here little Miss Ugly Mouth will say with a pout: "Well, what are you going to do about it?"

You can change the shape of your mouth easier than any other feature of your face.

There is no reason why any one should not have a pretty mouth. If your teeth are bad a visit or two at the dentist will remedy that. Then comes the shape of the lips. Go to the glass and look at your mouth carefully. If you are a discontented sort of a woman you will find it drops at the corners; that there are lines from these corners down to the sides of your chin.

As you grow older the parenthesis lines from your nose to the corners of the mouth will appear.

I know a woman who had all these signs of pessimism and discontent and changed them absolutely after she was 35 years old. At 40 she is considered much better looking than ever before in her life.

How did she do it?

Simply by banishing the hard thoughts, the sad thoughts, the unhappy thoughts from her mind. She never closes her mouth in the determined, ugly fashion which she used to do habitually.

She smiles to herself and at herself if she finds no one to smile with and nothing to smile at.

When she goes to sleep at night she does so with a smile.

"Don't get in the habt of keeping your mouth open," says Beverly Bayne, "even if you think your teeth are your most attractive feature."

A sudden smile and a flash of gleaming pearls are much more alluring than if you are showing them all the time. If your lips are too full then you can learn to close your mouth a little tightly, but even when you do this don't forget to smile.

NEWS OF FORT WAYNE'S NEIGHBORS

BRIDE OF SCAPEGRACE ILL.

Young Mrs. Steve Thimlar Taken to Home of Parents in Bluffton.

Bluffton, Ind., Aug. 5.—Mrs. Nellie Thimlar, the girl-bride of Steven Thimlar, former Bluffton tango teacher, with whom she eloped to Michigan and was married, was brought from Fort Wayne Monday evening to the home of her parents, Mr. and Mrs. Dowe Grove, west of Bluffton, where she will be tenderly cared for during sickness, from which she has been suffering for about two weeks and which threatens to become serious.

Information furnished is to the effect that the young wife, formerly Miss Nellie Grove, an employe of the United Telephone company until the time of her marriage, has broken away from her husband for a final separation, after a married experience of three months. That brief married experience has been one of mistreatment for her almost from the first, according to the statements made by Mrs. Thimlar to relatives and friends. Learning that she was sick and in need the parents made arrangements to have her brought home from Fort Wayne, with the statement from her that if brought to her old home here she would have nothing more to do with the husband who has failed to provide the happy home and comforts with visions of which he beguiled her into the romantic marriage, against the wishes of her parents.

THE LOST PRINCESS.

One of the Big Events of the Season Tonight.

Winona Lake, Ind., Aug. 5.—The Winona people are looking forward to the spectacular play, the children's operetta, which is to be staged this evening. Mrs. Hortense R. Reynolds, who is director of the play, has enlisted one hundred and seventy-five of the children and young people of the park in this presentation, and it will be an occasion of great interest. George Ade took the part of Jack Goose a few years ago, and whose musical and dramatic ability is well known here, has been engaged for the same part again this year. Mrs. Helen Cutler Dickey delineates the character of Bo Peep, afterward the Princess. Other principal parts are represented by Edna Goff, Katherine Carmichael, Claire Hatfield, James Heaton, W. H. Collison, Foster Jones, Lillian Trusler and Homer Secrist.

New features have been added to the play this season, and it is being looked forward to with great expectation. It is one of the entertainments that always please everybody.

BOYS START BIG FIRE.

Portland, Ind., Aug. 5.—Two little boys, guests at the home of County Commissioner Caleb P. Davis, seven miles east of this city in Noble township, while playing with matches near a straw stack on the farm started a fire in the straw that later communicated to the barn and other buildings on the farm and resulted in a loss of several thousand dollars with only partial insurance. Mr. Davis was in the city at the time meeting with the board of commissioners. The boys, after discovering that the straw was on fire, attempted to smother the flames by throwing more straw over the fire.

WARSAW PASTOR RESIGNS.

Warsaw, Ind., Aug. 5.—Rev. A. A. Fletcher, who has been pasor of the Warsaw Baptist church for slightly over a year, has resigned. His resignation was accepted to take effect September 1. Rev. Fletcher expressed his intention of resigning about three months ago, but was asked to reconsider. Rev. Fletcher has announced no plans for the future, however, he will probably remain in this city for some time. Since he came here he has made many friends.

FORT WAYNE BOY HURT.

ically hurt while assisting in threshing in the neighborhood. He was in a wag on playfully scuffling with another boy, when, in some manner he was thrown from the wagon. He fell to the ground striking on the right side, and received, it is feared, internal injuries, as he threw up blood following the accident. A physician was called to attend him, but it is yet too early to fully determine the extent of the injuries he received.

CONFERRING ON LINE ROAD.

Albion, Aug. 5.—One of the most quiet meetings experienced by the board of county commissioners during their present incumbency is now being held, and only a few routine matters will be disposed of at this term of court. Among the most important matters being attended to is the disposition of the stone road extending from Allen county and bordering on Swan township, this county. The road is ten miles long. Commissioners Albert Black and J. D. Butt and Auditor C. H. Brown of Allen county, are conferring with the Noble county officials in an effort to make all adjustments.

FOUR HORSES DIE IN FIRE.

Plymouth, Ind., Aug. 5.—Fire destroyed the barn and contents belonging to Gus Sickmiller, residing in Walnut township, near the edge of Center township, nine miles from Plymouth and four and a half miles from Bourbon, near the Jones Grant farm. The loss included the barn, 60x50, four good horses, large silo, 25 tons of hay, cowshed, good wagon, manure spreader, sets of harness, grains and a large quantity of straw that had just been stacked from the threshing.

TRAMP KILLED BY CARS.

Elkhart, Ind., Aug. 5.—Charles E. Lonner, aged about 30, a native of Sweden, and a structural iron worker out of a job, but on his way to Cleveland in search of work, was thrown beneath the wheels of a Lake Shore freight train he attempted to board at the Canary street crossing last midnight, and his limbs and lower body were crushed and mangled. He died of the injuries a few hours later at the General hospital.

GYPSY TRIALS AUGUST 17.

Warsaw, Aug. 5.—At a conference held before Judge Bowser, of the Kosciusko circuit court here it was agreed to start the five gypsy trials Monday, Aug. 17th, instead of waiting until the regular fall term of court is convened Monday, Sept. 7th, as was originally planned. This action was taken upon the urgent demand of the entire population of Warsaw where the Mendes gypsy band is now encamped.

INJURED UNDER WAGON.

Delphos, O., Aug. 5.—When a team of horses became frightened when he was adjusting a line on one of them, Peter Wagner, a farmer, was seriously injured. Two wheels of the wagon loaded with corn, passed over his chest, and two ribs were fractured and a severe scalp wound received. Two sons, riding with him, were uninjured.

DOG BY PARCELS POST.

Kendallville, Ind., Aug. 5.—Linus Kimmel, of this city, received a full blooded Scotch collie from northern Michigan, the canine coming through the mails by parcels post. Tige had a nice ride, nevertheless, and arrived safe and sound, and is now enjoying all the freedom any member of the canine family deserves.

VAN WERT WOMAN DIES.

Van Wert, O., Aug. 5.—Mrs. Elias McPeak, 82 is dead after an illness of several years. She is survived by her husband and the following children: W. A. McPeak and Mrs. John Boroff, of this city, and Eugene and Wm. McPeak, of Toledo.

FORT WAYNE HAS LOST ITS FIGHT

Playing Listless Ball and Men Are Not Showing Spirit.

(Special to The Sentinel.)

Dayton, O., Aug. 5.—Harry Martin dragged into Dayton Wednesday the only Billiken troupe of ball players that has ever enlisted under the Claude Varnell standard and lost all its fight and ginger before the last game of the season had been played.

Fort Wayne has played losing ball here under Jack Hendricks, Jimmy Burke, Jimmy Casey and Frank Shaughnessy but every team has been keyed up to high speed and has given battle whether it won or not, but the club of this season is in a hopeless rut and in need of a good bracing.

The manager keeps on the coaching lines and does what he can to infuse combativeness but he is leading a forlorn hope, and in addition to bad baseball the men are showing a lack of courage that is at strange variance with the conduct of Billiken players of former years.

The average baseball fan is willing to overlook fielding errors if the men who are charged with them come back strong and keep trying, but they do not love the player who is downed by hard luck, and this is one of the chief faults held against Fort Wayne.

For several weeks the men rallied and fought but a long stretch of defeats at home has taken all of the fight out of them and the loss of the first game here seemed a foregone conclusion when the band entered the field of battle. Tommy Atkins was not hit hard and suffered heavily from bad plays on the part of his pards, while Bruce Noel had everything behind him that a pitcher needs to win games.

The first and only run listed by Fort Wayne was tabbed in the opening round when Smith beat out an infield hit, took second on a pass to McLafferty and third on Holderman's bunt. Noel kicked in with a wild pitch that netted a tally and sent a runner to third, but the Vet southpaw tightened up at this stage and retired Bratchi and Brant without further damage.

A pair in the closing half of the round sent the home guard to the front and it was never overtaken. Martin and DeHaven were scrapped when Frankie Nespo fumbled Clemens' offering. This was followed by a safe rap delivered by Spencer and a short fly off Meister's bat that fell safe just over the infield and resulted in two markers.

Three in the fifth were added to the collection gathered by the Vets. With two men on, McLafferty's throw to get Noel at second was late and DeHaven hit, scoring Hobbs. Noel took third and romped in after Clemens' fly had been caught. DeHaven stole second and tallied on Spencer's two-play crack.

With two gone in the next inning, Hobbs was passed a second time, and when Bratchi fell down on Noel's single to right he reached home. The final run was made in the eighth when Sykes drove to center and Smith let the ball get by him. He threw badly in returning the ball after he had recovered it and the runner got home.

Young was slated for duty in the game scheduled for today, with Cramer booked for the final fray on Thursday, after which the club will move over to Springfield to play three games with their only rivals for tail-end honors.

EXPECT A BIG LIST.

Entries for Tennis Events Close on Friday Night.

Promoters of the tennis tournament to be played on the Nebraska courts under direction of the West End Athletic club, will close the entry list Friday night of this week and all indications point to a successful and interesting lot of events. Most of the best tennis players of the city have already entered and Secretary Paul Warren is anxious to obtain as many more as can be arranged for in order to give the sport an impetus that is in keeping with its popularity here.

BATTLE OLD AGE IN SPORT WORLD

Some Old Ones Are Still Stars in the Field of Athletics.

New York, Aug. 5.—Age is a mighty formidable foe, but there are a few fellows in the different branches of sport who seem to be able to stand up under its wallops and come back for more.

Honus Wagner, of Pittsburg, began playing ball soon after the civil war was finished. Something like ten years ago the general public began counting out Honus, but they never got past the count of nine. Once or twice illness or injury may have made the "Flying Dutchman" a bit groggy, but he always carried enough reserve force to do an effective comeback. And now, in this year 1914 A. D., the same Honus, gray haired, wrinkled and probably spavined and suffering from the diseases of old age, is considerably among those present in the Pirates' lineup.

Johnny Ball, of England, began golfing when the game was young. Johnny is over fifty now, an age where it is said that a man's bones get stiff and where his muscles become useless. But Johnny is playing as good a game of golf today as he did in his youth.

Bill Larned, the net star, first shone brightly in the tennis tournament many years ago. Yet there are few men in America or England today who are superior to him, although he is supposed to be long past that period of life when a man is in his athletic prime.

Christy Mathewson began pitching for the Giants thirteen or fourteen years ago. Back in 1908 the fans began to figure that Matty was slipping. In their opinion Matty was due to be shunted off to the minors long before the 1910 season rolled around. Yet, here we are in 1914, six years away from the time when Matty was first looked upon as a has-been, and Matty is pitching the best ball in either league with the possible exception of one Edward Plank.

And Plank is another of those persons who defy age. Edward began his baseball career so long ago that the fans cannot recall the exact date. Five or six years ago Plank was regarded as "done." Eulogies began to find their way in print. Eddie was a mighty good pitcher in his day "but time exacts his toll and Plank soon must take the road that all others have followed." Plank did—not. Plank, evidently vexed at the obituaries which he considered premature, began pitching the best ball of his career, and he's still doing it. It wouldn't be surprising if he leads the American league at the end of the present season by a wider margin than ever was scored by a pitcher in that organization.

STRAIN IS TELLING ON PLAYERS IN THE FINAL LAP IN RACES FOR FLAGS

PLAYERS WHO UPSET THE DOPE IN THE AMERICAN, NATIONAL AND FEDERAL LEAGUES.

(By Hugh S. Fullerton.)

The major league races are narrowing down.

To all practical probability only the Athletics and Boston are left in the American league struggle, only the Giants and Cubs in the National, and only Chicago and Baltimore in the Feds.

In each league a sensational spurt by the clubs standing third and fourth might overturn the dope, but in the remaining seventy games this hardly is a probability.

In the National league New York is showing lamentable weakness and if the Cubs possessed any real strength they would have a grand chance of winning. But the Cubs are not strong—the men who have carried them so close to the top are broken by the strain.

It looks as if the Giants should rally soon and pull away steadily, as their pitching department is fresher and the team as a whole more coherent and is playing better ball.

The Cubs have stolen fewer bases and sacrificed fewer times than any club in the league shows that they are following the O'Day idea of the old hit and run. The Giants do not seem as strong as they were last year by 10 per cent. Pitching tells the tale; Tesreau's return to fine form has saved the Giants, the wonderful work of O'Day's pitchers has prevented the entire collapse of the Cubs.

In the American league it is a different story. The Athletics are in just as good position as they usually are at this time of the year. The team is playing magnificent ball. Usually Mack does not get his reliable pitchers into good shape until Aug. 1. This year they were about ready on July 1 and have been coming fast. Mack is nursing Bender and Plank for the finish and has a lot of reserve power.

The struggle between Tinker's Feds and the Baltimore bunch is getting warmer. Tinker has been riding along on pitching and brilliant work on the bases. Baltimore is the better club, taken all around, but was a long time recovering from it slump. It is playing great ball now, but the pitching is weak at times.

THE CASE OF L. L. CANTELOU.

The case of L. L. Cantelou, Clarendon, Texas, is similar to that of many others who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says: "After trying a doctor for several months, and using different kinds of medicine for my wife who had been troubled with severe bowel complaint for several months, I bought a 25c bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After using the second bottle she was entirely cured." For sale by all dealers.—Adv.

AMATEURS AND SEMI-PROS.

The Perfection Biscuit company team will hold its weekly meeting Wednesday night at the home of Manager Meyer, 1248 East Washington street, to make arrangements for Sunday's game at Leo. After Sunday the schedule is open and games are desired with the best teams in this section. Write Manager L. R. Meyer, 1218 East Washington, or telephone 2585 black.

The Red Sox will hold a meeting Wednesday night at 8 o'clock at Lawton park.

The Dodgers will meet at the usual place and all players are requested to report at 7:30 o'clock.

Manager Dornick, of the Shamrocks, has booked a game for Sunday at Delphos, Ohio. The locals will leave over the Ohio Electric on the 11:05 car Sunday morning.

NOT SO STRANGE AFTER ALL.

You may think it strange that so many people are cured of stomach trouble by Chamberlain's Tablets. You would not, however, if you should give them a trial. They strengthen and invigorate the stomach and enable it to perform its functions naturally. Mrs. Rosie Rish, Wabash, Ind., writes: "Nothing did me the least good until I began using Chamberlain's Tablets. It is decidedly the best medicine for stomach trouble I have ever used." For sale by all dealers.—Adv.

VEAN GREGG HAS CHANCE OF LIFE

Did Not Like Cleveland and Ought to Work Fine at Boston.

Boston, Aug. 5.—Vean Gregg, famous Cleveland southpaw, is now a Red Sox through a recent deal, and many are happy as a consequence.

For more than quite a while Gregg has aspired to twirl for the Boston crew. Through most of the training season last spring Gregg worked out with the Red Sox, joining the Naps late in the spring and appearing in a Red Sox uniform. Gregg while training with the Boston players made many friends among them and told them all that he hoped some day to be among them as a regular. His wishes at last have been realized.

In spite of his great cunning as a portside twirler, Gregg has enjoyed the hearty disesteem of Cleveland fans for quite a while. All Cleveland knew that Gregg cared little for the team he worked for. It was very generally thought that he made little effort to give the Naps the best that was in him. Early in the season he complained of a sore wing, and his appearances in the box this year have been comparatively few and his work has been indifferent. Nor did the fans cheer him more earnestly for this.

Gregg, feeling the disfavor with which Cleveland fans regarded him, felt in turn no overmastering love for Cleveland fans. He often complained that the bugs of the Sixth city were the most ungenial and captious to be found. He affirmed that there was no pleasing them and that the sooner he was far away from them the happier he would be. And this feeling, of course, was common on both sides.

Gregg's dismal behavior in the box a few days before the trade was what determined it. Bill Carrigan, the Boston chief, must be tendered the gardenia for slipping over as neat a deal, from his angle, as has ever been negotiated. He secured Gregg at the cost of one young pitcher of some slight promise, another whose record is far less than brilliant and a second string catcher who will never rise above it. But the Naps, knowing that Gregg was of little use to them, fee' they have not suffered by the trade. In fact they, too, have prospered by it.

The Boston team, however, are the greatly benefited ones. Gregg, in congenial surroundings, will step in and pitch his head off, and Gregg in such a mood, is undoubtedly as good a southpaw as there is in the game today. The addition of Gregg to the Red Sox payroll means that Boston's chances for a pennant are greatly fattened. Many declare that the Red Sox are now prepared to make it warm and sultry for the Athletics in the pennant encounter. And Boston fans are cheering lustily.

THE TWENTY YEAR TEST.

"Some twenty years ago I used Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes Geo. W. Brock, publisher of the Enterprise, Aberdeen, Md. "I discovered that it was a quick and safe cure for diarrhoea. Since then no one can sell me anything said to be 'just as good.' During all these years I have used it and recommended it many times, and it has never disappointed anyone." For sale by all dealers.—Adv.

Men CURED to Stay Cured

By up-to-date methods, without pain, inconvenience or loss of time. Weakness or Lost Vitality, Blood Poison, Varicose Veins, Hydrocele, Kidney and Bladder Diseases, Piles, Fistula, Contracted Diseases and ailments of men.

For years I have treated MEN'S DISEASES ONLY. I can cure you if anyone can. Do not let money matters detain you. Come at once. COME TODAY.

Consultation and Examination Free.

WEAKNESS, LOST VITALITY.

My combined treatment for these troubles so common among those who have become weak and worn out, is remarkably good. No one believes how quickly it benefits until they have taken it. It overcomes weakness, nervousness, pain in back, lack of energy, ambition and strength—it's just the treatment I have found so effective in treating such cases. BE A MAN ONCE MORE.

BLOOD POISON, OLD SORES, LUPUS, EPITHELIA GROWTHS, and all skin diseases are permanently and forever cured by Dr. Moreland's Specific Blood-Cell Remedies. They act directly on the Blood Cells, eliminate the poison and restore the internal organs to their normal conditions. I am particularly anxious to hear from men who have been treated by other physicians without receiving any beneficial results or a permanent cure.

VARICOSE VEINS CURED.

I cure this affliction without pain or detention from business. Soreness, swelling and congestion of the dilated veins vanish quickly. Losses are checked. A healthy circulation of blood is re-etsablished, the atrophied parts are developed, and the old-time feeling of warmth, vigor and vitality speedily returns. Avoid dangerous operations. I can give you the quickest, safest and surest cure known to medical science.

CONTRACTED DISEASES

IN CONTRACTED DISEASES my patients are thoroughly cured in less time than any other less thorough forms of treatment require in producing doubtful results. I don't use strong, painful, injurious injections that do great harm. My method cures without pain; gives immediate benefits and a lasting cure.

KIDNEY AND BLADDER DISEASES QUICKLY CURED.

They are often caused by early excesses, alcoholic liquors and severe sickness, the usual symptoms being chilly and feverish spells, wornout feeling, puffiness under the eyes, drains, smarting, burning and swelling. My long study and extensive practice in treatink Kidney diseases practice in treating Kidney diseases curative stage. I determine the condition by analysis of urine, and the many severe kidney troubles I have cured, after they had been given up by other doctors, give me great confidence in my method.

A. G. KROCK IS INJURED

Well Known Pennsylvania Trainman in Accident at Ada Tuesday.

Conductor A. G. Krock, of the Pennsylvania, is temporarily out of service as a result of an accident at Ada, Ohio, at 9:20 o'clock yesterday morning. He was doing some shifting of cars on a siding at that place, when he was caught between two of them in such manner as to painfully sprain and bruise his back and cut and contuse his head. Mr. Krock, since the lull in business set in, several months ago, has been serving as flagman for Conductor Anderson on the Lima-Crestline local freight train. Fort Wayne is his home, however, and he resides on east Wayne street.

ONLY ONE CHANGE.

L. E. & Ft. W. Road Puts Up a Directorate.

George R. Evans was elected a director of the Lake Erie and Fort Wayne road at the meeting yesterday afternoon, succeeding the late A. E. Hoffman. The board in its entirety is as follows: E. F. Yarnelle, John T. Evans, W. J. Vesey, John W. Sale, Robert Millard, James McKay, W. T. Graeter, Louis Fox, B. Paul Mossman, George P. Evans and H. C. Rockhill. The officers of the railroad, which owns the spur track at the rolling mills, are: L. Fox, president; H. C. Rockhill, secretary; J. W. Sale, treasurer. The meeting was held in the office of Secretary H. C. Rockhill and it will be followed in a short time by another meeting, at which the officers will be elected. No changes are expected to be made in the roster.

MANY GOING VISITING.

According to the applications for transportation, members of the families of Pennsylvania employes have planned the following visits for the week-end: Mrs. William Kloepper and son to Cleveland; H. J. Malcom and daughter, Miss Arline, to Canton; Mrs. Alber Hettler to Pittsburg; the Misses Thelma and Violet Shookman to Warsaw; Mrs. R. E Neireiter to Warsaw; Mrs. J. E. Haines and daughter, Miss Vivian, to Chicago; the Misses Eileen and Madeline Bresnahan to Chicago; Mrs. H. L. Zollinger and son, Oscar, to Chicago; Miss A. Everding to Chicago; Misses Edna and Dorothy Daseler to Chicago; and Mrs. J. H. Likens and daughter, Miss Boneta, to Chicago.

A SAFETY FIRST INVENTION.

E. H. Moeller, clerk at the Nickel Plate offices, said yesterday that he had "just received a letter from a friend in Kansas who was in an automobile accident recently, who says he is working on a new speed indicator for automobiles in the shape of a music box. When the machine is running under 20 miles per hour the music box plays 'Home, Sweet Home,' and when the car exceeds that rate the box plays, 'Nearer My God to Thee.' Af figuring on placing an order for a number and will give them to some friends who have recently had me out riding."

SAYS BUSINESS IS DULL.

Claude C. Hill, of Chicago, one of the best known general traveling agents of the railroads of this country, was in the city yesterday, calling on local agents and other friends. Mr. Hill said that as a whole the business of this section was below normal and he attributes it to the European war, which has greatly retarded the movement of farm products for export. Mr. Hill represents the Soo lines.

BETTER TIMES ON THE MONON.

The Monon shops at Lafayette, which were operated only to 50 per cent of their capacity early in the summer, are now rapidly approaching normal conditions. Monday a number of the suspended men were recalled and the working hours were increased to fifty per week. The Lafayette Journal says the forces are to be gradually increased until they reach the standard which prevailed prior to the reduction last April.

WAS OLD RESIDENT OF ADAMS.

Tomorrow J. F. Kiess, shipping clerk of the Fort Wayne Electric works, and his wife will attend the funeral of Joseph E. Mann at Decatur. The deceased was the husband of Mr. Kiess' sister. He was 70 years old and one of the pioneer residents of Adams county. The funeral will be held at noon at the M. E. church in Decatur.

WITHDREW SOME FIREMEN.

Business on the Grand Rapids and Indiana road, which a short time ago took on a boom and necessitated the recall of some furloughed men, has dropped down again and three firemen were furloughed this morning. They were J. Vanderlaan, H. E. Medaris and T. E. English.

LOCOMOTIVE CRANE REPAIRED.

The locomotive crane of the Wabash, which was pitched down a twenty-foot embankment and badly damaged at Wolcottville two weeks ago, was turned out of the local shops today and sent to Wolcottville to go in service in the gravel pits.

WILL VISIT OLD HOME.

Frank A. Opatz, assistant foreman of the Pennsylvania blacksmith shop, will spend his two weeks' vacation at his boyhood home, Cumberland, Md. He will leave for that city tomorrow. Mrs. Opatz and their son will spend the time at Lake James.

ATTENDING CLERKS' MEETING.

Oscar Rohrbaugh chief clerk to Master Mechanic G. W. Smith, of the Wabash, is attending a meeting of the chief clerks at Springfield, Ill. He left for that city last night.

CALLED TO FATHER'S BEDSIDE.

C. N. Rodgers and A. G. Rodgers, Nickel Plate brakemen, were called to Broughton, Ohio, yesterday by news of the illness of their father, an old resident of that place.

INDUSTRIAL NOTES.

The coal hopper at the Pennsylvania power plant is being repaired.

Engineer Peter O'Hara, of the Pennsylvania, is sick and off duty.

Engineer W. A. Parvin, of the Pennsylvania, has gone east to spend a thirty days' leave of absence.

Clerk E. W. Koehl, of the Pennsylvania east car shops, will go to Indianapolis today for a short visit.

E. R. Saffen, clerk in the Pennsylvania boiler shops, will leave Sunday for Sturgis, Mich., to spend his vacation.

Division Storekeeper E. L. Ensel is in Peru today on business for the Wabash.

Machinist Ed Ely resumed work in the Pennsylvania shops this morning. He was taken sick last week.

E. B. DeVilbiss, of the Pennsylvania motive power department, has returned from a business trip to Pittsburg.

Henry Burlage, of the Pennsylvania planing mills, who has been sick for two weeks, is out and will be able to resume work soon.

Mrs. F. Smith, mother of Clerk R. C. Smith of the Pennsylvania, left last night for Van Wert, O., to visit relatives.

Ed Tombaugh and G. M. Stoll are new names on the Wabash pay rolls. The former was assigned to the machine shop and Mr. Stoll to the pipe shop.

Miss Freda Glissman, daughter of a Wabash shopman, will leave the latter part of the week for Niagara Falls and Buffalo.

The Wabash had seven passengers for Florida yesterday. The company also sold a number of homeseekers tickets to other points.

Mrs. Johanna Harper, of Chillicothe, O., a sister to Dennis, Jerre, Jack and Michael McCarthy; well known engineers, is here for a visit.

Machinist William F. O'Conner resumed work at the Pennsylvania machine shop this morning. He was sick two or three days.

Dennis McCarthy, retired Nickel Plate passenger engineer, is at Columbus, O., spending a few days with relatives and friends.

C. W. Rodenbeck, H. Schrimp and D. E. Curry are absent from the Pennsylvania machine shop today. The two first named are sick.

Michael Shea, special man at the Pennsylvania shops' mechanical department, is on duty again. He was off duty a day or two to welcome a baby daughter, who came to his home.

D. H. Majors, one of the old employes of the Wabash shops, went to Peru today to enter the hospital for a course of treatment. He has been sick and unable to work for three months.

Assistant Foreman R. W. Evans of the Pennsylvania blacksmith shop, has completed a two weeks' vacation, spent at Lake James. He resumed work this morning.

F. A. Raney reported for work at the Pennsylvania blacksmith shop this morning. He was off duty a few days on account of his steam hammer being out of repairs.

Miss Helen Medsker, of Woodland avenue, has taken a position in the office of S. F. Bowser & Company. The young lady is the daughter of James R. Medsker, the retired Pennsylvania shopman.

Within a week seven men were arrested and fined at Lake Manitou for using a trot line, fitted with small hooks. One of the victims was Conductor J. F. Oldham, of Peru, who was stuck in the sum of $19.50.

Charley Robinson resumed his duties in the office of the blacksmith department of the Pennsylvania this morning. He was at Huntington attending the funeral of Howard Thompson, a retired business man from Warren, Ind.

G. W. Schwartz, of St. Louis, Southwestern freight agent of the Vandalia, was in the city today and was escorted about the railway and shipping centers by H. M. Quicksell, Star Union Line agent.

Motive Power Supt. T. W. Demarest is in Pittsburg on business for the Pennsylvania. Chief Clerk W. L. Wilt and Chief Car Inspector O. J. Parks are looking after business for the company in Chicago.

J. Faye Szink continues to improve and it is believed he will be able to leave the hospital and go home the latter part of the week. He was struck on the head by a sledge hammer and badly hurt a wek ago.

L. E. Bittenger, who is off on an indefinite leave of absence on account of sickness, called at the Pennsylvania motive power offices this morning to see his office associates. He has commenced to improve, but will not be able to resume work for some time.

Friendship lodge, No. 70, International Association of Machinists, will be represented at the State Federation meeting in this city, September 29, 30 and October 1, by Cornelius Sullivan, Henry Kroenner, John Daley, L. D. Miller, A. T. Miller, William McCarty, E. T. Stewart and Clayton H. Johnson.

Mr. and Mrs. Frank Kohler, of Cleveland, are spending a week in the city with relatives and friends. Until a year ago Mr. Kohler was over and short clerk in the Nickel Plate freight office in this city, but he now holds a responsible position with Kuetemeyer & Company, wholesale hardware dealers, of Cleveland.

Engineer H. M. Turner, of the G. R & I. road, was summoned home yesterday, while making a trip over the line, by a message stating that his wife was very sick. Arriving home, Mr Turner found Mrs. Turner suffering severely from an attack of appendicitis and she was taken to a hospital. The family home is at 2135 Hanna street.

A member of the Nine Mile ball team asks The Sentinel to correct an error concerning the ball game at that place last Sunday between the shipping department of the Fort Wayne Electric works and Nine Mile's team. The score as published was 7 to 8 in favor of the shippers; it should have read 14 to 15 in favor of Nine Mile.

WILL GO TO DECATUR.

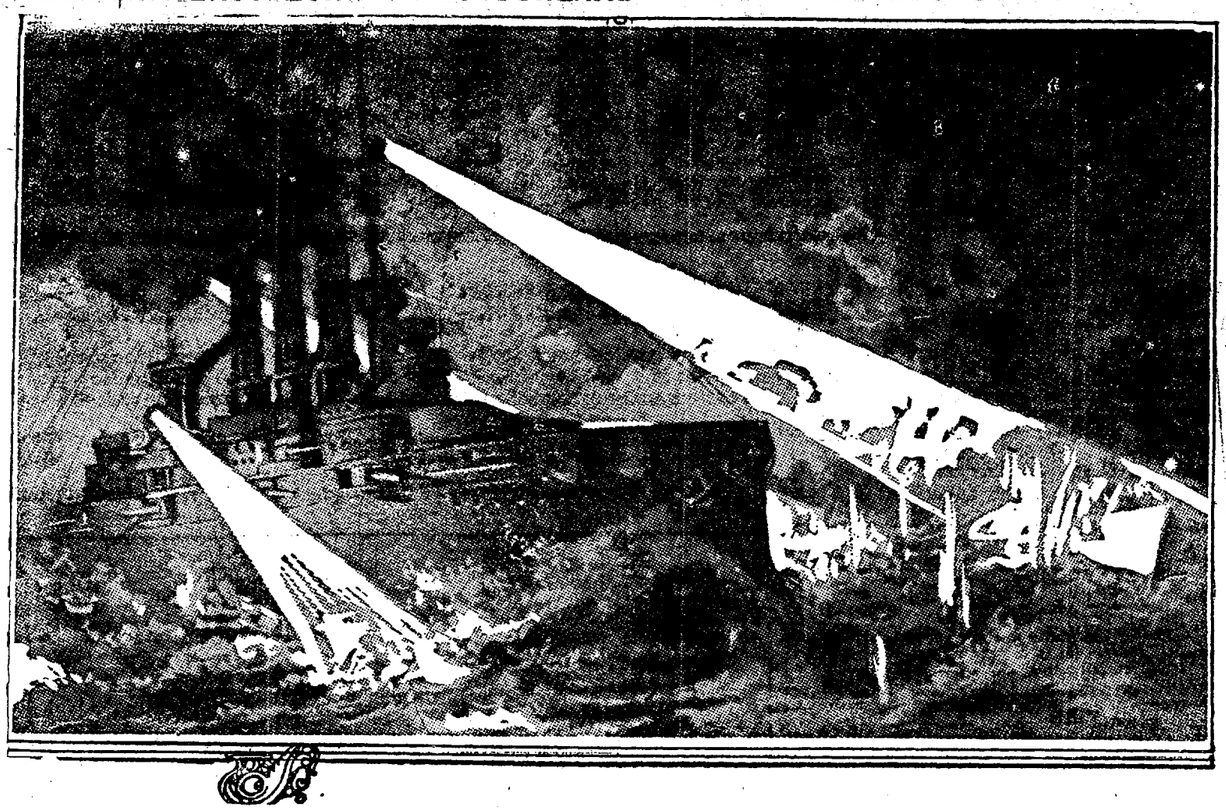
Wayne Dramatic Club Will Put on a Show at the Bosse Opera House.

Officers of the Wayne Dramatic club a local organization, announced Wednesday night that the club will go to Decatur next week, Thursday and Friday evenings, and stage a show at the Bosse opera house of that place. A six act vaudeville show is the attraction they offer.

The club is composed of some of the best amateur actors of the city and is sure to meet with success. A rehearsal will be held Wednesday evening of this week at St. Paul's school auditorium. The business managers will make a trip to Decatur Thursday to make preliminary arrangements and also put the tickets on sale.

We often have visitors go through our bakeshop who are agreeably surprised at the utmost cleanliness prevailing in every corner of our establishment as well as the great care and absolute sanitary methods employed and purity of materials used. This is proof sufficient that GEILER'S GOODS ARE GOOD. 5-t

GERMAN BATTLESHIP "DEUTSCHLAND" SIGHTS TORPEDO BOATS AT NIGHT



AN INTERNATIONAL SCRAP IN COURT

Irish Mother-in-Law of An Italian Occupied the Stage.

Clemento Dellerocco's Irish wife got it into her head some time ago that her husband, to whom she had been married two and one-half years, was untrue to her. She also entertained the belief, it seems, that he was not supporting her or her seventeen-months-old baby in proper manner, so she wrote a letter to her mother, Mrs. Clark, in Toledo. Mrs. Clark, with true mother-in-law instinct, rushed to Fort Wayne and immediately things started, and the semi-windup was staged Wednesday morning in the municipal court, where Dellerocco was brought on a charge of child neglect.

Witnesses testified that Dellerocco had always provided for his wife and child, had good credit with the family grocer, worked every day and bought sufficient clothing for his wife and child. Mrs. Dellerocco, who is to become the mother of another child, tearfully sobbed that her husband had made no preparation to clothe the newcomer. Then the girl's mother, Mrs. Clark, took the witness stand, and for a half hour staged one of the most beautifully Irish monologues that ever had its setting in the city court. Her testimony, however, was interrupted by sobs and personal argument with the attorney for defendant. Her story, however, failed to prove that Dellerocco had failed to provide for his child, and the case was continued indefinitely. The defendant said he intends to file suit for divorce from his wife, but is willing to support the child.

Drunks Are Fined.

Dick Brennan and Arthur McCann, charged with public intoxication, were fined each $5 and costs, and Jack O'Connor and John Van Allen, picked up Tuesday drunk and fighting, were each fined $1 and costs. Jack Perkins and John Jones on similar charges were let go. Frank Lunger and Henry Trautman, expressmen, charged with obstructing the streets with their wagons, appeared on continued cases and promised to stop their habit of parking their wagons in the business district. Judge Kerr told them that the next offense would bring a fine and jail sentence to each of them.

Stanley Shubinski, Adam Waska and George Adams were in court Wednesday morning to answer to a charge of disorderly conduct. They staged a fight in the east end last week in the rear yard of a Polish shoe shop and general store and the owner wanted them punished. All were let go after testimony in the Polish tongue had occupied the attention of the court for nearly an hour.

BEATEN AND ROBBED.

E. F. Brown, 1005 Columbia avenue, appeared at the police station early Wednesday morning with a bloody and badly mutilated face and said he had been knocked down and robbed of $5 near the alley between Columbia and Main streets. A search for his assailant was made but the fellow had made a getaway.

WHITE SOCKS MAY HAVE TO BE WORN

Knitting Mills of Country Cannot Get Dye from Germany.

People of the United States may be compelled eventually to wear white socks and stockings exclusively because of the European war, according to local men interested in the knitting industry.

White socks are now regarded as a fashionable article of apparel, but like most fashions in articles of clothing, if one is compelled to wear 'em, they usually go out of style.

Whether or not the compulsory wearing of white stockings becomes effective, depends almost wholly upon the question of whether or not the dye manufacturing companies of this country can keep pace with the demand, because it is impossible for knitting factories to obtain dye from Germany, its chief center of production.

Manufacturers of high-class hosiery in this country depend upon Germany for their supply of solid dye, and it is reported that only about enough German dye to supply the trade six weeks is obtainable. At the Wayne Knitting mills here it is said that there are three concerns in the east that supply dye for knit goods, and it is not likely that these plants can take care of the enormous demand that will follow the close of merchandise shipping between the United States and Germany.

It is said that the Wayne Knitting mills here purchased a large supply of dye only a short time ago, and have enough of the product on hand to operate with foreign made due for at least three months.

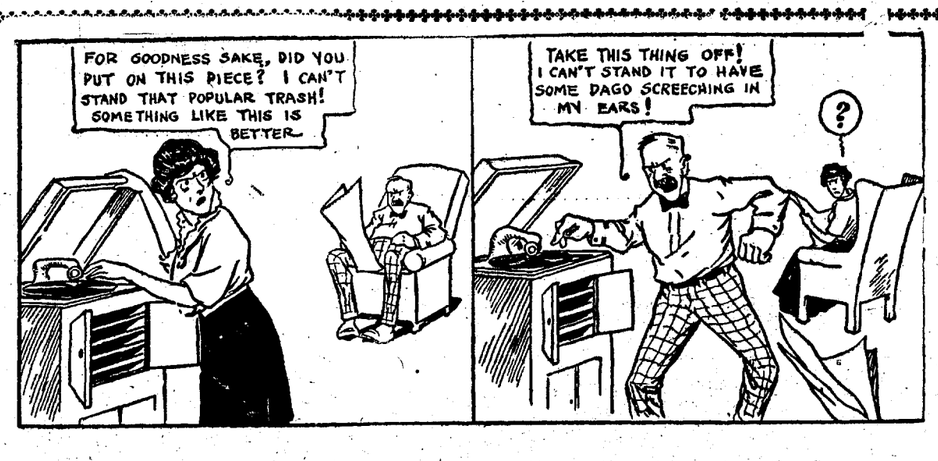
GIRL RULER OF THE GRAND DUCHY OF LUXEMBURG, WHO FACES GREAT CRISIS

MARIE LOUISE ADELHEID, GRAND DUCHESS OF LUXEMBURG.

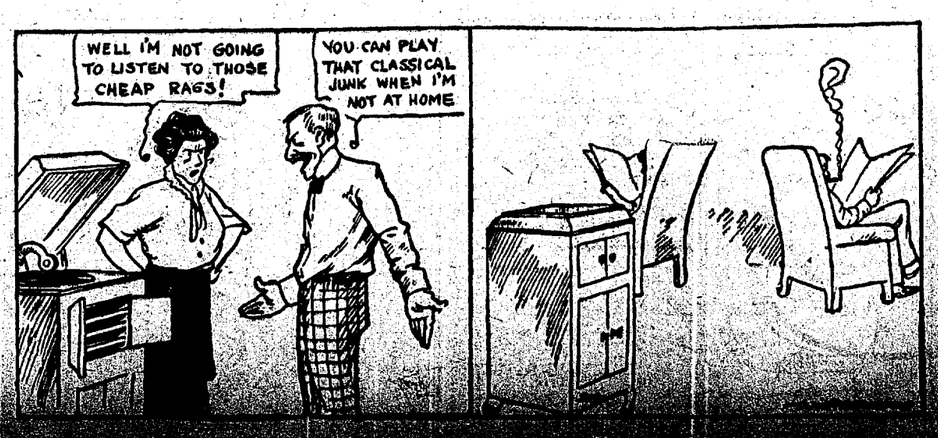
Just out of her teens, Grand Duchess Marie of Luxemburg faces a crisis in her career as ruler of the second smallest kingdom of the world, for the Germans have ignored the neutrality of Luxemburg and used that route to advance into France.

The small grand duchy lies in the direct line between Berlin and Paris, although not connected with the latter city by railroad. The fact that its fortifications were dismantled and there is no chance to offer any defence against an invasion makes it the logical point from which the Kaiser can pour his troops into France, and he has made the most of it.

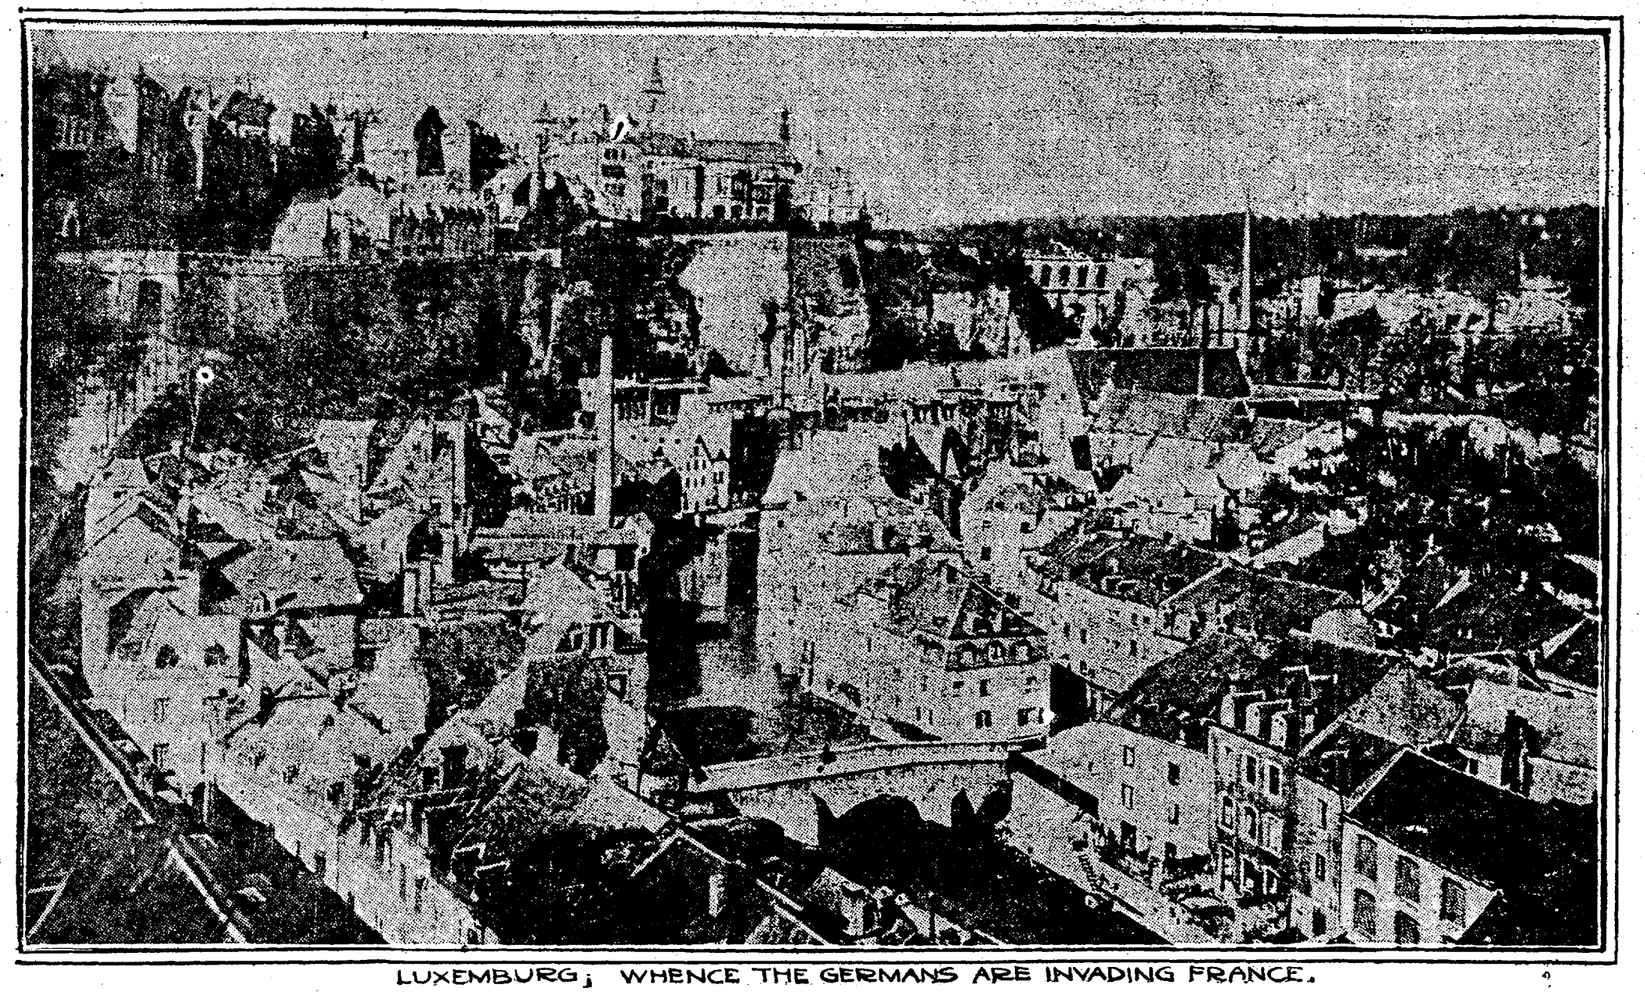
GUESS IF THEY ARE MARRIED!



FOR GOODNESS SAKE, DID YOU PUT ON THIS PIECE? I CAN'T STAND THAT POPULAR TRASH! SOMETHING LIKE THIS IS BETTER
TAKE THIS THING OFF! I CAN'T STAND IT TO HAVE SOME DAGO SCREECHING IN MY EARS!
?



STRATEGIC POINT SEIZED BY GERMANY IN FIRST MOVE OF HER ATTACK ON FRANCE



LUXEMBURG; WHENCE THE GERMANS ARE INVADING FRANCE.

Germany's first move toward the invasion of France was the seizure of the Luxemburg railway lines by German troops. The stations and bridges were taken over by soldiers. These steps were taken by the Germans to assure the rapid transportation of troops across the territory of the Grand Duchy of Luxemburg. The invasion of Luxemburg shows clearly that Germany had determined upon a course of action in which all the ordinary conventions of international conduct were to be swept aside. The neutrality of Luxemburg was guaranteed by the Treaty of London, signed in 1867. Possession of Luxemburg gives Germany opportunity to strike at France on her own border, or to move quickly toward Brussels. In seizing the Grand Duchy, therefore, Emperor William has improved his strategic position in that there is no bar to his movement toward France directly on the west or on England and France together, through Belgium on the northwest.

GERMANS TRY TO REPEAT EXPLOIT OF 1870

Invade France on Same Day of Same Month and at Same Points—Story of the Franco-Prussian War Retold.

Born in the blaze of battle forty-four years ago, two great nations, France and Germany, are today repeating with uncanny similarity even in date and site, the conflicts of the last great European war.

French cavalry officer in the new French uniform recently adopted.

tactics of their last war. But at that with a fierce fight between German and French troops at Saarbrueck—not eighty miles from Longwy, where the first Franco-German battle of this present and most frightful of European conflicts has just been waged, on the same day. August 2!

In 1870, just as today, there were three chief points where the big German armies crossed the French border. The Germans, in fact, are now repeating the tactics o ftheir last war. But at that time German victory followed German victory with terrible rapidity, and as a result came the formation of the German empire, with King William of Prussia as emperor. And the successive defeats of Napoleon, III. of France culminated in his capture and downfall, and the establishment of the French republic.

The two nations thus formed are today flying at each other's throats once more, with all the vengeful hostility engendered in that former conflict. To really understand the whole meaning of this bloody European crisis of 1914, it is necessary to call to mind the dramatic history of the struggle of 1870.

It was caused by Prince Bismarck's determination to place Prussia at the head of a united Germany, and by France's jealousy of her hereditary enemy's threatening growth. But hostilities were actually precipitated by a very trivial incident, just as in the present war.

The French ambassador, Benedetti, demanded of King William of Prussia that no prince of his line should ever accept the throne of Spain. The king refused to listen, and made public excerpts from Benedetti's demand. A few days later, July 19, 1870, France formally declared war.

Germany's "mailed fist" struck before France had half a chance to prepare herself. Germany had a fighting force of over 520,000 in the field at once. The French had confidently expected to be able to mobilize 500,000 men instantly, but found that only 250,000 were available for the military movements during August.

After the first conflict at Saarbrueck, on August 2, in which the French were victorious, there occurred a fierce attack on the German advance guard near Weissburg, in Alsace. The French troops retired with heavy loss. The German invasion progressed rapidly.

In battle after battle the French inflicted losses much heavier than their own upon the enemy, but were each time defeated. Finally, on September 2, the French emperor and all the army under his command was captured at the battle of Sedan. There was one army left to France, but it was bottled up in the fortified city of Metz, under the command of Marshal Bazaine, who, after a daring attempt at a sortie, was forced to capitulate on October 27.

German infantryman in dress uniform, gray-green color.

The German troops now had an open road to Paris, and they invested the capital at once. The Parisian had proclaimed a republic, after Napoleon's downfall at Sedan, and organized a government for national defense, of which Leon Gambetta, the great French statesman, was one of the chiefs.

Gambetta put aeronautics, which are playing so striking a part in the present strife, to the first successful use in war.

He escaped from beleaguered Paris in a balloon and attempted to raise more troops in the south of France. But this dramatic deed was vain, and by the last of January, 1871, Paris was at the point of starvation, and was forced to capitulate.

The amazing exactions of the victorious Germans in the huge indemnity they required, and their annexation of Alsace-Lorraine, have never been forgotten by France. The hates and fears and alliances which sprang up throughout Europe as a direct result of the Franco-Prussian war of 1870, are, together with the vengeful spirit of France, some of the most prominent causes in this terrific European conflagration of 1914.

ANTWERP NEWS.

GERMANY LOSES THREE SHIPS IN SEA FIGHT

French and British Cruisers Attack Kaiser's War Boats That Bombarded Algerian Port

Algiers, Via London, Aug. 5.—Authentic confirmation of the report of the destruction of the German cruiser Panther and of the capture of the German cruisers Goeben and Breslau reached here today.

LONDON GETS THE NEWS.

London, Aug. 5.—A dispatch to the Chronicle from Paris says that after bombarding the Algerian town of Bona, the German cruisers Goeben, Breslau and Panther were caught by British and French squadrons which had been awaiting them. The French warships captured the Goeben and Breslau and sunk the Panther.

PARIS CONFIRMS IT.

Paris, Aug. 5.—It is officially confirmed today that the German cruiser Breslau bombarded Bona, a fortified seatown in Algeria. The cruiser fired sixty shots to which the port batteries replied. Details of the fight are lacking. Later the Breslau sailed in the direction of Gibraltar and is supposed to have been captured by the British fleet, which is guarding the straits. It is reported from Calais that French torpedo boat destroyers captured two large German sailing ships.

ENTHUSIASM FOR BATTLE

Extraordinary Scenes in French Parliament on War Measures.

PRESIDENT MAKES FERVID ADDRESS

Germany Arraigned for Her Aggressions and Allies Are Praised.

Paris, Aug. 5.—Extraordinary enthusiasm was called forth in the French parliament last evening by the reading of an address to the French nation written by President Poincare.

"Our nation is in arms," said the president, "and trembling with eagerness to defend the land of our fathers.

"France is faithfully supported by her ally, Russia, she is upheld by the loyal friendship of England and already from all points of the civilized world go out to her expressions of sympathy and good will for she represents today once again before the universe, liberty, justice and reason.

Lift up your hearts! Long live France!"

Germany is Arraigned.

Afterward Premier Viviani recited a catalogue of alleged German aggressions which he said had gone on for 40 years. He declared France had borne them with remarkable equanimity in her deep attachment to peace. He continued: "Unless sacrifices, sterile compromises and other efforts were in vain since today while reverently promoting peace our allies have ben attacked by surprise.

"The liberties of Europe have been attacked and France and her allies and friends who are proud of them are also proud to be their defenders.

"We shall defend them because they alone are threatened. All the rest is only vain pretext."

Antoin Duboit speaker of the senate, read President Poincare's address and then Premier Viviani made a declaration similar to the one he had made in the chamber.

Sick Are Carried In.

Several sick senators were carried to their seats as they were unwilling to be absent from the historic session. Both houses adopted without dissension, the financial bills introduced by the government and others for the relief of families of soldiers, ratifying martial law and imposing heavy penalties on newspapers publishing false news. An amendment extending the moratorium to all the French colonies was passed unanimously. All the deputies rose to their feet in support of a bill to confer French nationality on natives of Alsace and Lorraine enlisting in the French army.

Assistance was given today by the American church to a number of destitute Americans.

Thirty Thousand There.

Elbert H. Gary, chairman of the committee for the assistance of Americans said he supposed there were over 30,000 Americans in Europe desirous of returning to America and about 7,500 in Paris of whom perhaps 1,500 were in desperate straits. The number of Americans who travel in Europe with limited means was astonishing, he said, but he thought the commission would be able to cope with the majority of the cases, provided aid were received from the state department. James Gordon Bennett, publisher of the New York Herald, was among those called upon to give up their automobiles and horses to the government. A large number of tourists from Switzerland, among them many Americans and delegates of the church peace union whose proposed conference at Constance on Aug. 2 was abandoned have arrived in Paris with tales of their experiences. They were met politely but at the point of the bayonet at the French frontier and asked to show their credentials. Later on at Besancon they were compelled to change trains at night during a rainstorm. They were put into freight cars used for the transportation of troop horses and had little to eat or drink. The French showed them every courtesy compatible with the exigencies of war. Inquiries were made by the delegates for Dr. Fred Lynch, who left for Constance last Friday but from whom no word had since been received. Mrs. Potter Palmer, Mrs. Carolin and others were among those who applied to join the French hospital service.

GERMANS ON FRENCH SOIL.

Paris, Via London, Aug. 5.—The French ministery of war today issued a communication that German cavalry and infantry were crossing the French frontier everywhere in reconnoitering parties. He adds:

"A squadron of German dragoons bore down on Villers-la-Monttagne in the department of Meurthe-et-Moselle, but was repulsed by French riflemen.

"A regiment of German cavalry advanced as far as Merfontaine in the same department but fell back before a body of French infantry.

"The French mobilization is proceeding with the greatest order. Most of the reservists already have joined.

"An excellent spirit prevails in Alsace Lorraine."

Santos Dumont, the famous aviator, offered his services today to the French government.

The one armed French general Paul Pau, who fought in the war of 1870, has been placed in command of one of the French armies.

SUIT TO SETTLE DISPUTED POINT

County Treasurer Sues Bank to Enforce a Sale of Bonds.

A friendly suit was instituted in the superior court today by Herman Beuter, treasurer of Allen county, against The German American National bank out of which it is proposed to obtain an Indiana supreme court ruling on the question of whether two townships are bound by the law that limits the bonded indebtedness of each to 4 per cent. of the tax value of its property.

In his complaint the treasurer sets out that following the establishment of the Rohrbach road on the line between Monroe and Madison townships a sale of bonds was duly advertised and that the German American National bank became the purchaser at a bid approximating $5,280.

He further states that the bank officials refused to take the bonds. This is true but the refusal is in no way a breach of faith as it was intended at the time of the sale to test the legality of bonding the townships jointly for the stone road that placed an indebtedness on them beyond the limit either is permitted to contract alone.

Unless it is shown that this can be done it will be a great many years before either can build any improved road as it will take a long time for the townships to cancel the debts that are now standing against them. County Attorney Hoffman filed the suit.

James Goodfellow was Wednesday appointed by Judge W. C. Ryan in the superior court receiver for the Norman Hendrickson saloon on Wells street in Bloomingdale. He gave bond for $4,000. Action was brought by Freese & Gale, and this is the saloon for which transfer of the license was sought on Monday of this week. Action was withheld by the county commissioners pending a settlement with the creditors.

Struck Her With Crutch.

Mary Ritter's chief complaint against William Ritter in a divorce action filed in the superior court Wednesday is that he struck her with a crutch. She says also that he struck her with other things, but the crutch blow is the one that brought about disruption. She makes a demand for $5,000 alimony. William Fruechtenicht filed the suit.

Admitted to the Bar.

Harry W. Muller was admitted to practice of law on the recommendation of a committee composed of Judge S. L. Morris, Harry G. Hogan and Charles B. Aldrich.

Marriage Licenses.

Robert H. Boord, 21, barber, and Florence G. Knox, 21.

Howard Bigelow, 34, clerk, and Mary G. R. Rhodes, 29.

Robert M. Boyle, 19, teamster, and Mary M. Williamson, 17.

CUP RACE IS OFF.

New York, Aug. 5—Sir Thomas Lipton's formal withdrawal from the international cup yacht race this fall, announcement of which came to New York early today, was received with no surprise in yachting circles. Sir Thomas had said before that he would not race in the event of England's going to war. The British government's declaration of war with Germany therefore automatically cancelled the proposed contests. In a short time the American cup defense candidates Vanitie and Resolute will go out of commission.

GETS LETTER FROM BRUDER

Local Jeweler in Germany is at Home of His Relatives.

LOCAL RESERVIST GOES TO CHICAGO

Fort Wayne Postal Officials Get War Orders from Washington.

A letter from August Bruder, the Fort Wayne jeweler who is detained in Germany, was received Wednesday morning by J. A. Calhoun, secretary of the company, and he was informed that Mr. Bruder is at Waldkirch at the home of relatives. The letter was dated July 23 and contained an outline of the route Mr. Bruder had expected to take en route home.

He intended to leave Baden-Baden for Waldkirch and stay there until today when he was to have left for Berlin for a two-day visit and then to Hamburg, leaving that city August 12 on the Vaterland for the United States. Mr. Calhoun expects another letter from Mr. Bruder within the next few days.

Ordered to Report.

Ernst Koch, waiter at the Baltes hotel, received a telegram Wednesday morning from the German consul at Chicago asking him to report at once and the young man will leave for Chicago at 2:20 Thursday morning. Koch is a member of the German army and is connected with the interior service. He has been in this country but eighteen months.

Others Hear From Friends.

A cablegram received Wednesday morning informed Mrs. Robert Millard that Mrs. N. D. Doughman is in Venice.

Officials of the Young Woman's Christian association have received no word from the former general secretary, Miss Cora Tinkham, who with Miss May Williams is in Europe, and they are anxiously awaiting some message that will assure them of their safety.

No word has been received by Kerby Jackson, of 223 Brackenridge street, from his daughter, Miss Grace E. Jackson, who is touring Europe with a party of Chicago people and the Misses Shryock, of this city. The last news from her was contained in a postal card mailed July 24 at Lindau on Lake Constance, Switzerland. The letter stated that the party was due in Rome today.

Stop Parcel Post.

Postmaster Robert B. Hanna received a message Wednesday morning from Postmaster General A. S. Burleson, stating that the postal administrations in France and Germany informed the department in the United States by cable, that parcel post service between those two countries and the United States is suspended until further notice is given. The order received here also states that the postmaster must decline to receive parcel post packages for Germany or France until further advised and that those mailed before the order was issued will be returned to the sender.

Limit Money Orders.

Another notice received is from the international money order office. It reads:

"To aid the return home of Americans now in Europe, all postmasters at international money order offices, until otherwise odvised, may issue money orders in their favor upon due application, limiting the amount to $100 for each person. No orders are to be made for more than that amount."

Returns to Germany.

Hans Mihan, employed at the Mossman-Yarnelle company's plant, left Fort Wayne Tuesday for Cincinnati for a conference with the German consul there preparatory to his departure for Germany. The Mihan family owns large estates in Germany, and Hans Mihan is still an attache of the Kaiser's army. He has one brother now in active service on the French frontier and another brother along the Russian border. His father is stationed in one of the inland barricks.

Word From Michel.

Two postcards from Charles J. Michel the Bloomingdale grocer, now detained in Germany, were received by his family here Tuesday evening. They were dated and mailed in Germany July 25, and stated that Mr. Michel was in the best of health and having a good time, and enjoying his stay in his native land.

At Isle of Wight.

Word was received in Fort Wayne Wednesday informing local relatives and friends that Mrs. C. S. Knight and daughter, Alice, and Dr. Allen Hamilton and family are at the Isle of Wight.

Many Fort Wayne people are also interested in the location of Mrs. Charles Haas, of Wabash, well known in this city.

GERMANY IS NOW SHUT IN

(Continued from Page 1.)

lish coast. Communication with England over these lines was still being maintained. No hope was held out, however, for any immediate restoration of communication with Germany over the direct lines.

Complete German Isolation.

The cutting of the German cable between Emden and the Azores virtually completes the isolation of Germany from communication with the outside world, except in so far as messages may be exchanged by wireless.

All direct communication with the United States is severed; hereafter all news of happenings in Germany will have to filter through hostile countries; Russia on the east, France on the west and England on the north.

All the submarine lines in the Mediterranean sea belong to the Eastern Telegraph company, a British concern, and any German news that did make its way to Southeastern Europe would have to pass the British censor.

transmitted over the lines of this company.

News of the cutting of the German lines between Germany and England may be expected at any moment. Already these lines are in the hands of British authorities where they land on British territory.

The only other possible outlet telegraphically, for Germany, is to the east but on this side she is hemmed in by Russia, with whom she is at war. All the land lines from Germany in every direction except to Austria-Hungary, already have been severed.

Must Be Relayed to England.

Any cable communication to the north, to Norway and Sweden, which may still be in operation, is comparatively valueless for the reason that news so transmitted, to reach the outside world, would have to be relayed to England.

The last direct Berlin message received by The Associated Press was between 12 and 1 o'clock last night. It was the official account of the British ambassador's formal announcement to the German foreign office of the declaration of war, and the ambassador's request for his passports.

Up to this time direct communication over the line that was severed today had been constant and quick although subject of course to censorship at Berlin.

The Atlantic Communication company, a German wireless organization, has a high power station at Saybille, Long Island, N. Y. This station has at times communicated successfully with Nauen, near Berlin. The company announced Sunday that it was closed for all private business, having been turned over to the German government.

C. Simon, of the Simon Sample Shoe shop, Shoaff building, has gone to Boston and other eastern cities to purchase fall stock.

Wealthy American in London Society

BEVERIDGE WILL OPEN CAMPAIGN

District Progressives to Hold Big Rally Here Thursday.

Progressives of Allen county and the Twelfth congressional district will officially open their campaign with what is scheduled to be a big rally and celebration in this city Thursday. Progressive delegations from each of the six counties of the district will reach the city early Thursday morning, many coming by automobile, for the purpose of participating in the automobile parade to be held at noon, as the opening feature of the rally.

Hon. Albert J. Beveridge, of Indianapolis and other speakers for the new party will reach the city at 11:45 o'clock Thursday morning, coming from Michigan City, where they speak this evening. The party will include besides Mr. Beveridge, State Chairman E. C. Toner, Oswald Ryan, of Anderson, and Paxton Hibbins, candidate for congress in the Seventh district. Jeanette Funk, of Chicago, another of the speakers, will arrive earlier Thursday morning and will occupy the place on the program, to have been filled by Miss Jane Addams. Bernard B. Shively will be in the city for only the evening meeting.

Both the afternoon and evening meeting will be held at the Majestic theater, and H. M. Widney, of St. Joe, progressive candidate for congress in this district, will address both sessions, delivering the keynote speeches of his campaign.

WOMAN'S DAY IS BIG DRAWING CARD

Big Crowds at Park for the Summer's Principal Feature.

So great were the crowds at the transfer corner shortly before noon, awaiting cars to take pleasure seekers to Robison park for the annual woman's day program, that at times the streets were nearly impassable and it was with difficulty that a sufficient number of cars was pressed into service to accommodate the patrons.

Robison park is filled with one of its biggest crowds of the season, and in connection with the regular features there is in session an old ladies' congress. Weather conditions are perfect for the day and at a late hour Wednesday afternoon Manager Williams reported that each event on the program was moving along with as much success and as rapidly as possible.

A program of many contests is being carried out and it is said that the hard times parade, one of the special features, promises to be one of the biggest and best events of its kind ever staged at the popular resort under the management of Mr. Williams. Judges in the contests are having a hard time to determine the winners, and it was believed that the entire list of contests would not be completed until evening.

OLD SETTLERS WILL MEET.

Two Counties to Boost Meeting Set for August 19.

Ridgeville, Ind., Aug. 5.—The twenty-eighth meeting of the old settlers of Randolph and Jay counties will be held at Ridgeville, August 19. This meeting has become an established affair that is looked forward to each year by thousands of people. Every year has witnessed a growth in interest and attendance, until the meeting has become the largest and best known old settlers' meeting in the state of Indiana. The average attendance has run from 25,000 to 30,000, and those having charge this year are confident that the present meeting will be greater than ever.

MERCHANT SHIPS HASTEN TO PORT

German Liners Have Put in at New York and Philadelphia.

New York, Aug. 5.—Another German liner whose whereabouts has been veiled, the Kronprinz Wilhelm II, of the North German Lloyd line, arrived safely in port at half past four this morning. The usual wireless signals announcing her approach to port, given at Cape Race or Sable Island, were lacking about the time they should have come and as the Kronprinz Wilhelm was due in port yesterday some apprehension was felt regarding the steamer. With her arrival, it was learned that the wireless was purposely omitted because of the war situation and the steamer made her way to port as secretly as possible. The Kronprinz Wilhelm II is from Bremen. South Hampton and Cherbourg with about 250 passengers, mail and a valuable cargo. She left Cherbourg Wednesday night, July 29.

Nothing has been heard of the German liner Kronprinz Wilhelm since the steamer slipped out of New York harbor Monday. The agents of the liner said that so far as they knew the steamer was bound for Bremen under orders received from Germany.

The 6,000 tons of coal taken along which is 2,000 more than the steamer usually carries, is to use in an emergency, it was explained as the steamer may have to make a dash for a neutral port.

The French steamer Venezia, in port today from Marseilles, Naples and Palermo, reported that yesterday she overheard both German and British cruisers talking with the wireless station at Sayville, L. I. The text of the messages was not obtainable. The Venezia steamed ten miles south of her usual course in order to avoid capture by any German warships. Her operator was warned not to send any wireless messages.

The Uranium line steamer Uranium arrived today from Rotterdam via Halifax.

The Hamburg-American liner, President Lincoln, from Hamburg and Southampton, arrived today. When she discharges her passengers and cargo she will probably join the big fleet of steamers already interned in port here.

The French liner La Lorraine, bearing more than 700 French reservists, left her pier for France shortly before noon today.

The British freight steamer Etonian, which left New York yesterday for Antwerp, put back today when about sixty miles east of Sandy Hook. She received word last night of the declaration of war between England and Germany and returned to port rather than risk capture.

The captain reported that about 9:30 o'clock last night he sighted what he supposed was a war vessel. He could not make out the vessel's identity in the darkness.

OLYMPIC BRINGS TREASURE.

New York, Aug. 5.—The steamship Olympic, which reached her dock today brought millions of dollars worth of American securities from London which were dispatched for delivery on sales made in the days of the great liquidation last week. The value of Europe's consignments expected on the Olympic and other steamships was estimated in conservative quarters at $25,000,000, although the total sales made by cable in the vast outpouring of stocks had been figured at $50,000,000 at least. A considerable part of the securities sold was held in this city by bankers and brokers for foreign account and many of the stocks and bonds have already gone to the buyers. Because of financial arrangements already made, the over-sea bonds and shares will be absorbed without difficulty.

GERMAN LINER MAKES PORT.

Philadelphia, Aug. 5.—The North German Lloyd liner, Brandenburg, docked here today after running for the past two days under forced draught and without lights. The Prinz Oskar, of the Hamburg-American line, also arrived today. Both ships were a day ahead of their schedule.

The Brandenburg sailed from Bremen on July 23, with 380 passengers for Philadelphia and 385 for Galveston. The Prinz Oskar sailed from Hamburg on July 22 with 360 passengers.

It is said by the steamship companies that both liners will remain in this port indefinitely.

There are now twenty-three foreign ships held up at port and thirty more are due within the next sixty days. No ships have left this port since last Sunday and insurance rates are so high that they are practically prohibitive.

DROPS APPEAL ON DECISION.

Union City Company Not to Fight Commission's Ruling.

Winchester, Ind., Aug. 5.—The suit of the Union Heat, Light and Power company against the public service commission of Indiana was dismissed from the circuit court docket and the costs of the proceedings were taxed against the plaintiff. The suit was an appeal from a decision by the commission when it lowered the Union City gas rate from $1 to 56 cents a thousand cubic feet. It is understood the suit was dismissed by the plaintiff after a compromise had been reached.

The suit, it is said, was filed to have a test case against the commission, it being the first action of its kind.

PRODUCT OF BRAINS AND DETERMINATION, FLORENCE HACKETT REACHES TOP.

Florence Hackett is another instance of what talent, backed by brains and determination, will accomplish.

Two and a half years ago she was assigned by the Lubin management to Arthur Johnson's company. At first she supplied "atmosphere," played minor character parts and was always in readiness to undertake what a more important player would decline.

Then "second" parts were regularly assigned to her, and gradually the motion picture public came to associate her with Johnson's photo-plays. At last she was given her first character lead, and shortly afterward she scored a series of successes in widely different roles in two reel productions.

Today Florence Hackett parts are written for the actress. Let it be said that they demand emotional strength and the ability to efface the player's personality. She can play either a self-centered society girl or a grief-crazed fishwife.

Miss Hackett's hobby is the study of clothes—and the wearing of beautiful ones. She has original and entertaining theories regarding the science of dress.

FIRST LADY OF LAND VERY ILL

Condition of Mrs. Wilson is Giving Her Friends Anxiety.

Washington, Aug. 5.—President Wilson has been at the bedside of Mrs. Wilson almost constantly for several days and her protracted illness of several months is causing worry in official circles. It was while sitting beside his wife, his constant helpmate and adviser, that the president wrote his message to the European crowned heads appealing to them to stay their conflict and discuss peace. Only those in closest touch with the president have known of the severe strain under which he has been during the last fortnight. Not only the press of domestic legislation and appointments, but the burden of direction of the relief of Americans abroad and the precautions for preservation of stable financial conditions at home have fallen upon him.

No announcements have been made about Mrs. Wilson's illness and persons at the white house were disposed to believed that she had slightly improved today, but her condition is nevertheless causing considerable concern. She first took sick last March and it is understood has been suffering from a complication of nervous ailments.

LUSITANIA GOES OUT FOR A RACE

Fast Cunard Liner Leaves New York in a Run for Home Base.

New York, Aug. 5.—In the face of possible capture by German cruisers in the waters just outside the harbor, the Cunard liner Lusitania passed out to sea at 1:55 this morning on what promises to be a record-breaking trip to Liverpool.

The German cruisers known to be only a short distance off the coast are the Dresden, Garlsrhue and Strassburg. Two French cruisers, said to be the Conde and the Descartes, are also reported to be in the vicinity of the outbound trans-Atlantic lane.

While hoping to escape capture by the German cruisers by her speed, it was said the Lusitania's captain had the assurance of British naval authorities that he would be met off Fire Island by the British cruisers Essex and Lancaster and convoyed by them as far as New Foundland, where, it was reported, other British naval vessels would accompany the liner to the Irish coast.

Prepared for Speed.

Captain Dow before sailing said that his vessel was in fine trim and that he expected to make twenty-five knots an hour all the way across.

The Lusitania slipped out to sea with her masthead and side lights showing, her 200 passengers having been notified that lights in staterooms might be blanketed when the vessel passed Ambrose channel. In the passageway oil lamps replaced the usual electric lights.

Among the ninety-three first cabin passengers were P. T. Hollingsworth, member of the American chamber of commerce in France; G. Menier, the owner of the Isle of Anticosti in the Gulf of St. Lawrence; Lieut. C. E. Lockhart, R. N., who sailed under orders to return to duty; J. J. Cawthra, of Toronto; Jaquin Bonilla, consul general from Honduras to England, and a large number of newspaper correspondents bound for the scene of war.

OBJECTING TO STABLE.

Board Opposes Construction of Livery Barn Near School.

Terre Haute, Ind., Aug. 5.—The city school board instructed Ora D. Davis, attorney for the board, to ask the state board of health and the state superintendent of instruction in regard to the advisability of taking an appeal from the decision of Judge J. E. Cox, of the superior court, who held that the building of a livery stable within five hundred feet of a city school is not a violation of the section of the statutes which prohibits insanitary conditions within that distance and names stables as one of the insanitary conditions. Judge Cox held it was not proved that the stable would be a menace to the health of the school children.

The school is on the edge of the segregated red light district, and for several years there as been agitation in favor of enforcement of the law by which the school children might not be constantly within sight of immoral surroundings. No legal step was taken to reach the desired result. It was contended in behalf of the man who is to build the stable that he is removing worse conditions by clearing a site for his stable.

SCHOOL KIDS SHOW SNAKES, CATS, DOGS AND SILK WORMS IN NATURE EXHIBIT.

HAZEL FRYE EXHIBITING TWO OF THE "DOMESTIC SPECIMENS" AT PUBLIC SCHOOL NATURE SHOW.

Los Angeles, Aug. 5.—With a sure-enough menagerie in the front yard and with the rooms of the building lined with exhibits and specimens, the virtues of which were proclaimed by youthful "ballyhoos," the second annual nature study exhibition was held in the Grand avenue school here recently.

Thirty-seven different schools of the city were represented in the show and each had a separate exhibit. Everything conceivable that was "natural" and could possibly be transported was brought to the exhibition by the pupils. There were turtles and horned toads and every now and then a feminine shriek proclaimed the fact that a snake had come into view.

One of the features of the display was the collection of reptiles collected by Carl Snyder, of the Logan street school. This youthful naturalist does his nature study at first hand. Without weapons of any kind he goes into the mountains and foothills and captures whatever snakes he runs across, using his bare hands. His exhibit included king, gopher, blue racer and water snakes, as well as horned toads and Gila monsters.

Much attention was attracted to the displays of animal industries of commercial value. The Gates street school with an exposition of the silk industry, and West Vernon with an exhibit of bees were the chief contenders for the prize in this division.

Dr. Charles Lincoln Edwards, head of the nature study department of the public schools, was in charge of the exhibit.

ONLY TWO ACTORS IN VERA CRUZ, AND THEY'RE MAKING A MILLION.

This is the pair that's getting the money in Vera Cruz. Alegrias and Enhart have the show business all to themselves. All others have left.

Vera Cruz, Aug. 5.—There is only one place in Vera Cruz to go to in the evening—El Teatro Olimpia.

When you get there, there is only one act to see—unless you count moving pictures.

And this for the reason that there are only two actors—Alegrias y Enhart.

Finally, there are two actors in Vera Cruz, and two only, because Alegrias y Enhart are in and can't get out, while all the other actors in the world are out and couldn't get in if they wanted to.

Since leaving France to tour Mexico, Alegrias y Enhart have had tumultuous but profitable experiences. Wherever they have gone, war has followed.

Boom! boom! went the cannon. Rattlety-bang! went the musketry—at Monterey, Mexico City, Torreon.

"Oh, dear!" says Alegrias, the juggler, yawning and crawling under the bed, "they're at it again!"

"Will they never give us peace?" inquires Enhart, the tumbling comedian, crawling after his team-mate.

But war pays. If the federals repulse the attacking constitutionalists, they celebrate by going to "el teatro." If the constitutionalists are victorious, they similarly take in the show.

Enhart kept two comedy uniforms at hand—a tropical and a [illegible] and now provoking khaki suit, a parody on the kind that American soldiers wear.

As soon as the firing dies at the end of a battle Alegrias y Enhart crawl from under their bed and show themselves in the street. They are promptly arrested.

"But," they explain, "we are the actors!"

That puts another face on the matter. Will the senors pardon? It would do to arrest the actors, because there would be no show.

The American soldiers, sailors and marines never get tired of Alegrias y Enhart, who are really clever. Indeed they demand the wrestling of Enhart wrestling with an overcoat, which finally gets [illegible] the comedian [illegible]

A Sure Cure **MEN** A Small Fee

My method of treating Blood Diseases, Nervous Decline, Urinary Obstructions, Varicocele, Piles, Kidney, Bladder and all Disease of Men is unequaled and recommended by the many I have freed of these diseases. No incurable cases accepted.

914 For Blood Disease

Professor Ehrlich's IMPROVED SALVARSAN (or 606), the POSITIVE REMEDY for BLOOD DISEASE. If you have inflammation of the mucous membrane of the mouth and throat, eruptions on any part of the body, aching of the bones, spots and all discolorations of the skin, which signify serious blood infection, let me give you this FAMOUS TREATMENT. Results are marvelous, all symptoms vanish, immediately as if by magic. Under this system of treatment it is utterly impossible for poison of specific nature to remain in the blood and purity and health are the results. Few, if any, of these cases are hopeless—what is needed is the right treatment. I have seen and treated hundreds of these cases. What I have done for others I surely can do for you.

Nervous Decline or debility of men means DEBILITY of the nerves and nerve centers or general debility of the whole nervous system. No man can be strong if his nervous system is impaired because the nerves control the blood and when the proper circulation in any part ceases disease is bound to result. My thorough training has given me great advantage in treating pelvic disorders from which nearly all nervous disorders and debilities originate. Because I have thorough knowledge of the seat and cause of the disease, which is always necessary to insure success in treating any afflictions. My thorough course of treatment immediately stops nervousness, relieves headache, and by adding flesh and muscle the patient is restored to health and strength and robus vitality. Be a Manly Man.

Varicoces is simply veins filled with curdled or stagnant blood occurring in any part of the body. Every man afflicted with Varicocele if long standing knows that it has blighted his life and that he has made a great mistake in not having himself treated. My method removes the Varicose condition so that the circulation is resumed; the nervous system is restored by the administration of a tonic and a complete restoration is certain in every case.

Special Diseases itching, burning, scalding, painful passages of water. Strong injections, strong remedies seldom benefit—they cause obstructions of the Urinary Tract.

My treatment stops every symptom and cures in a few days. Its scientific—it is the only sure way to be benefited. I can restore you so quickly and easily that you will be surprised. I will give you just the result and treatment you are looking for at the lowest possible cost.

WILL BEAR MILLIONS TO RELIEVE AMERICANS

United States Cruiser Tennessee Will Sail Thursday for Europe With an Enormous Treasure

Washington, Aug. 5.—Carrying millions in gold for the relief of Americans helplessly stranded by the upheaval in Europe, the armored cruiser Tennessee will start from New York across the Atlantic Thursday. It will distribute its cargo at the principal ports in Europe for the use of banks and United States diplomatic agencies in replenishing the purses of Americans who suddenly have found their letters of credit useless or their funds exhausted.

In the wake of the Tennessee will be a fleet of coastwise vessels of other neutral nations as soon as they can be mobilized to bring the American tourists home. It was estimated today that there were at least 100,000 United States citizens, many of whom wish to return home.

The Tennessee's gold cargo will consist of the fortunes that banks and express companies will send to meet the demands of their patrons together with the government's emergency appropriation. Congress has already appropriated $250,000 and both senate and house today were to act on President Wilson's request that an additional appropriation of $2,500,000 be made.

While the Tennessee is steaming across the Atlantic, government officials will begin their energies to solve the transportation problem.

The first canvass showed there were six American liners each with a passenger capacity of 1,000, and thirty transports and coastwise ships capable of carrying about 7,000 persons. It has been suggested that if the stranded Americans who would be unable to get accommodations on the first or second cruises of these vessels made urgent representations for transportation home then all available ships of neutral nations might have to be chartered.

On the Tennessee will sail Assistant Secretary of War Breckinridge and several officials of the treasury and the army. They will have charge of the disbursement of funds and arrange transportation facilities.

It was announced at the navy department today that the sailing of the armored cruiser Tennessee for Europe with gold for the relief of Americans, had been postponed until tomorrow morning in order to complete all of the necessary arrangements. She had been scheduled to sail this evening.

The North Carolina will carry additional gold probably to Mediterranean ports leaving the Tennessee free to supply needs in the north.

More Money Appropriated.

A bill appropriating $2,500,000 for which President Wilson asked in a special message was brought into the house for passage under suspended rules and exclusion of all other business. It contained authority for the use of army and navy facilities and chartering of ships. Secretaries Bryan and McAdoo told the appropriation committee it was the plan to first use neutral lines, then charter ships and use army and navy transports as last resort.

The house promptly passed the $2,500,000 appropriation and [illegible] minutes the senate passed it also and it went to the white house.

BESIEGED BY AMERICANS.

Copenhagen, Aug. 5.—The American legation here was practically in a state of siege today. Nearly 1,000 American citizens have reached this city from Hamburg whence they had intended sailing for America on the Imperator and other liners. Most of them left their baggage behind them in Germany.

Some of the Americans will endeavor to reach America by way of England, while others will sail on the Danish liner United States.

BUY SHIP TO COME HOME IN.

London, Aug. 5.—A cyndicate of stranded Americans headed by Grant Hugh Browne, of New York, combining business with philanthropy have purchased the British steamer Viking for the repatriation of their countrymen at the price of $500 for each berth. The syndicate today obtained the permission of the British government for the vessel to sail on Monday from Liverpool on its first trip. It is understood the Viking will fly the Stars and Stripes. She is to make as many trips as possible.

Among the 240 cabin passengers and the 1,000 Americans going in the steerage on board the Philadelphia sailing today are many wealthy persons. Enormous premiums were offered for tickets. One speculator offered Charles Aldrich and family of Cleveland, Ohio, $1,000 for their room or $500 if they allowed him to travel with them. Martin Vogel, United States sub treasurer at New York, with his bride, were also among the passengers. They said they were in Berlin five days ago and "the Germans were parading the streets as though celebrating victory." Later on they passed through Paris where they said "the contrast was marvelous. The atmosphere was quiet, but tense."

John A. Wilson, a cousin of the president, and Wm. H. Porter, who is connected with J. P. Morgan & Co., were also on board.

LOOKING FOR AVAILABLE SHIPS.

Washington, Aug. 5.—Secretary Garrison was scanning the Pacific coast today for ships to bring American refugees out of Europe. If available vessels can be found there they will be brought through the Panama canal. Inquiry also was made for available ships on the great lakes. Mr. Garrison said no attempt would be made to start passenger vessels to Europe until it has been determined just what the needs of Americans were. If neutral commercial liners continue to run, they may be employed.

PUT UP $5,000,000, GOLD.

New York, Aug. 5.—J. P. Morgan & Co. are understood to have obtained from the Bank of France on the credit of their French branch, Morgan, Harjes & Co., $5,000,000 in gold to be used [illegible] abroad who lack funds on account of the war. It was said that more gold would be forthcoming in the same manner if necessary.

That J. P. Morgan & Co. had stepped in to relieve the situation became known after a meeting of bankers who have been arranging to send gold to Europe on the cruiser Tennessee. This gold will, it is understood, be sent abroad on the Tennessee as contemplated, but will go direct to London consigned to the committee of Americans which has been appointed to take charge of relief measures there for their fellow countrymen.

It was stated that as soon as the Tennessee sailed with her treasure arrangements would be made in London whereby Americans would be able to obtain gold from English banks at once, the latter to be reimbursed upon the arrival of the Tennessee. Part of the gold from the bank of France, will, it is said, be turned over to the American Express company for cashing American travelers' checks and letters of credit.

Secretary Garrison announced after a conference with the president that his present plan for getting Americans out of the war zone was to have the nations involved designate a port from which they can be removed or to get permission to have them taken to Italy, Spain or some other neutral country where the United States could call for them. Mr. Garrison said that he had no doubt foreign governments would make such agreements.

Mr. Garrison has located thirty-nine available ocean going vessels sailing under the American flag. He is arranging to send food to American colonies in the war zone.

MUNCIE TO GET BIG SCHOOL.

Boston, Aug. 5.—The International Stewards association, which opened its annual convention here yesterday, will build an institution for the training of hotel employes at Muncie, Ind., at a cost of $500,000. The school will be under the direction of the state normal school. It will be unique among educational institutions in this country.

WILL WATCH THE WAR.

West Point, Aug. 5.—Major James A. Ryan and Captains Julian R. Lindsay, Herman Glade and Frank R. Wilcox, on duty at the United States military academy here, have been appointed as military observers in Europe. They left West Point today for New York where they will board the cruiser Tennessee.

FRENCH LINER SAILS FOR HOME

Despite Danger of German Warships She Carries 1,000 Reservists.

New York, Aug. 5.—With bands blaring the Marseillaise and a tumult of cheering afloat and ashore, the French liner Lorraine set sail today for Havre, probably the last for some time of departing liners to fly the French flag. In cabins and steerage she carried nearly 1,000 passengers, most of them French reservists bound for Paris.

She was the only ship to leave port today on a trans-Atlantic voyage with the exception of the Cunarder Lusitania, which slipped past quarantine with darkened lights during the early hours of the morning.

All the other sailings of the French line were cancelled today. All sailings of the Fabre line whose vessels ply between New York and Mediterranean ports likewise have been cancelled with the single exception of the Santana, which sailed last Saturday, returned to New York by wireless orders and will sail again next Saturday unless there is a change in present plans. Several vessels reached New York from European ports today, among them being the President Lincoln from Hamburg and the Kaiser Wilhelm II from Bremen. Their passengers told stirring tales of the fears of merchant ships at sea.

Sail in the Face of Danger.

La Lorraine and the Lusitania sailed in the face of danger of capture by hostile war craft, German cruisers having been reported off the American coast, but with their officers apparently confident that English and French warvessels could and would keep open a trans-Atlantic lane for their merchant ships.

Reports were that the Lusitania was to be convoyed by a British cruiser. French line officials said the Lorraine would have no convoy.

Nevertheless, La Lorraine delayed her sailing two hours beyond the schedule so that her captain might hold a last minute conference with the captain of the Olympic, which reached New York last night. It was reported that the Olympic came into the harbor under the guns of the British cruiser Essex and that the Essex would await the Lusitania off Sandyhook. "Aren't you afraid of being captured?" some one asked Captain Murras, of LaLorraine, a minute before sailing.

"I should worry," replied the captain smiling and shrugging his shoulders.

Vaterland to Sail.

Rumors that the great Hamburg-American liner Vaterland, now in port, was being made ready for sailing as a porvision transport were given credence today when an additional guard was placed around her dock and information as to possible plans for the [illegible] ported that not only the Vaterland but ships of other German lines berthed here were being secretly provisioned and coaled for the same purpose.

FATE OF MEXICO CITY IN DOUBT

Big Squad of Federal Generals Debate and Get Nowhere.

Mexico City, Aug. 5.—The fate of the capital remained in doubt today. The 112 generals of the federal army constituting the council of war had not decided whether to fight or evacuate the city.

The generals were in conference until a late hour last night and failing to determine their policy, separated to meet again this afternoon. President Carbajal will call a business meeting of business men to ascertain their feelings in the matter. He will tell them that Gen. Carranza has demanded unconditional surrender of the capital. Railroad telegraph operators report fighting between advance guards of the federals and rebels at Teoloyuca, twenty miles south of the city. The positions of the two forces were unchanged early today.

One of the generals who was present at the war council later said: "President Carbajal learned that the federal peace proposals had been rejected by Gen. Carranza and that the capital would be taken by assault if possible.

"It was the unanimous sentiment of the generals present last night that in case of joint action by constitutionalists and Americans as had been reported, the federals should evacuate Mexico City and retreating southward establish the present government in a city yet to be selected thus preserving the honor of the army. In case the capital was assaulted by constitutionalists alone, the federals are resolved to resist and employ the force of 40,000 men now available."

VILLA AND CARRANZA OUT.

El Paso, Texas, Aug. 5.—The failure of Gen. Carranza, chief of the constitutionalists and the peace delegates of Provisional President Carbajal to agree on terms of transferring the national government into constitutionalist hands will result in an open breach between Gen. Villa and Carranza, according to even the most optimistic opinions of persons who reached here from the south today.

It was said that Gen. Angeles, Villa's artillery chief, is re-organizing the army into proportionate units of infantry, cavalry and artillery. This is the first time that any perfect organization of constitutionalist troops along strictly modern lines had been attempted.

Four men, according to the arrivals, have been appointed by Villa to solve the land problem of northern Mexico. It is proposed to divide all the lands [illegible] the [illegible]

WALL STREET IS SETTLING DOWN

Cultivating Patience for a Long Wait Through the War.

New York, Aug. 5.—With the spread of hostilities abroad Wall street has settled down to a waiting attitude, convinced that the resumption of normal conditions lies in the indefinite future. It is virtually certain that no attempt to re-open the stock exchange will be made while the London exchange remains closed. The stress of the financial situation led the directors of the American Tobacco company today to declare their regular quarterly dividend of per cent payable in script instead of cash. The script is due one year from Sept. 1 and bears interest at 6 per cent. payable semi-annually. The directors announced they would need ready cash for marketing crops. American securities valued at $15,000,000 to $25,000,000 most of which were sold for foreign account in this market last week were brought in by the steamship Olympic today. Much of this stock was borrowed here pending delivery and in order to round out such transactions returned. Lenders of these stocks may find it a difficult matter to effect the exchange unless the banks offer assistance.

A bankers' conference was held here at which further arrangements were made for the shipment of gold to aid American tourists abroad. It is probable the amount may exceed $8,000,000, as outside bankers have asked to participate in behalf of their clients abroad.

More applications for emergency currency were received at the sub-treasury. Another large shipment of currency is expected from Washington tomorrow bringing the total up to about $75,000,000. At the clearing house business was proceeding as usual, though in smaller volume. A large part but not all of the balances was paid in certificates, and it was said that sales of more stocks and bonds on prifate terms were consummated at prices invariably above last Thursday's close. The small inquiry was for the mere active issues, including Harriman, Great Northern prf., St. Paul and U. S. steel. Railroad companies reported a further piling up of freight for foreign ports at this end other near by coastwise centers. Shippers are contemplating a petition to President Wilson asking for special legislation by congress in order that ships may be obtained for carrying all food stuffs to Europe.

CHICAGO GRAIN AND PRODUCE.

Chicago, Aug. 2.—Although weakness seized the wheat market as the first result here of England's declaration of war prices were not long in making a complete recovery, and then showing a rise all around. Depression at the outset in Chicago was due to fear that the export situation in wheat for the time being would be made worse, not bettered, by England's entraance into active hostilities The opening, which was ¼c to 2c lower, was followed by moderate further declines, and then by an upward swing that carried prices ⅛c to ⅞c above last night.

The close was strong, 1¼c to 2c net higher.

Failure of expected rains made the corn market strong. After starting ⅛c off to ½c up, and ascending a little further, the market sagged below last night's level, but then climbed decidedly higher than before.

The close was strong, 1⅞c to 3¼c above last night.

Oats developed independent strength on account of offerings being scanty. The market held firm throughout regardless of the action of other grain.

Falling off in hog receipts brought about an advance in provisions. Sellers were not numerous but there was no difficulty in buying lard.

FIRST CONCRETE ON BIG HIGHWAY

More Than 400 Feet Down on the New Haven Improved Road.

More than 400 feet of concrete has been laid on the New Haven road, which is Allen county's first contribution to the proposed Lincoln highway and such progress has been made that there is every assurance that the work will have been completed by the time limit set for Nov. 1 of this year.

The Brooks Construction company is pushing the undertaking rapidly and in addition to the concrete about three miles of the road bed has been completed ready for the topping.

Good weather is all that is needed for the rapid completion of the task and the company is working under a full head of steam in anticipation of probable rain and shorter days in the latter part of September and during the entire month of October.

Giving It Another Paring.

For a short time today Mayor W. J. Hosey and Controller W. C. Baade considered the budgets submitted by the various city departments for running expenses and improvements next year and took under advisement a number of expenses that they will be compelled to lop off.

They do not desire to appropriate all of the money that is anticipated in taxes as there is always danger of emergency calls for money that must be raised and for that reason they want to leave a balance in the general fund. This can be appropriated to the departments later if it is not needed for other purposes.

Decide Monument Matter.

At a meeting called for the assembly room of the court house on Saturday night of this week the disposition of the money in the monument fund, amounting to about $14,000, will probably be decided upon. This fund has been raised under a tax levy assessed during twenty years and there is in the hands of the Lawton Home Monument association the sum of $802.

Whether this money shall be devoted to the erection of a monument to Gen. Anthony Wayne or to Gen. Henry W. Lawton is a question that will come up at the meeting for discussion.

Notes of the City Hall.

Dr. J. H. Gilpin, secretary of the board of health, has under advisement the suggestion from Dr. J. N. Hurty, of the state board, that Fort Wayne hold a public health day and that floats demonstrating disease prevention methods be made part of a parade. October 2 is named as the tentative date, but plans have not been determined upon.

At its meeting Tuesday night the city council committee on finance recommended the payment to Henry Becker $900 as salary due him while he acted as secretary to the municipal lighting department. It was also decided to recommend an appropriation of $3,000 for repairs to steamers used by fire companies Nos. 4, 5 and 6.

No typhoid was reported to the health department during the month of July as against two cases of the disease in the same month a year ago. The contagion record was: Diphtheria, 14; scarlet fever, 6, and smallpox, 2. In July, 1913, there were sixteen cases of diphtheria and one case of scarlet fever.

LOCAL FORECASTS.

For Fort Wayne and vicinity: Partly cloudy, with possibly local showers late tonight or Thursday.
For Indiana: Unsettled late tonight and on Thursday, with probably local showers.
For Ohio: Fair tonight; Thursday unsettled with probably local showers.
For Lower Michigan: Unsettled late tonight and on Thursday, with probably local showers. Somewhat cooler Thursday in north and west portion.

WEATHER CONDITIONS.

While temperatures yesterday ranged from 55 to 95 degrees over the states from the Rockies to the Mississippi, no excessive temperatures were reported from any section of the country. In the extreme northwest cooler weather is general, and over the central and eastern states moderate temperatures prevail.

Rains continued over the south Atlantic and gulf coast districts, and some scattered showers occurred over the plains states.

The showery condition of the western districts will probably spread eastward and local showers are possible for this section by Thursday morning or Thursday night, with but slight changes in temperature.

FOOD QUESTION BIG IN BRITAIN

People Given Assurance That There Will Be No Famine.

London, Aug. 5.—The authorities are taking all possible steps to allay public anxiety in regard to food supplies and to prevent unjustifiable attempts to artificially raise prices. The home office today issued an official statement to the effect that in addition to the four months' supply of wheat actually in the country or being harvested there were large consignments of wheat now on the way here, much of which was already near British shores. There was no conceivable circumstances, it was said, in which a wheat famine could arise and accordingly fear of a scarcity was groundless. The situation regarding meat was *not* less satisfactory. "Normal killings of home stock supply 60 per cent. of our annual consumption," reads the statement, "and we are not necessarily dependent upon foreign imports for the balance of our supplies as in case of emergency it could be provided by slaughtering a larger proportion of our own stock.

"This contingency cannot arise in the present circumstances. There is now an exceptionally large supply of foreign meat in cold storage and heavy consignments are on the way to our shores. Therefore no justification exists for any rise in the prices of bread or meat."

The circular concludes with the assurance that arrangements have been made with a view to controlling prices so far as possible.

KNEW WHEN TO ASK.

"Are you reading the anti-trust legislation now, pa?"

"Yes, my son."

"Well, then let me have the base ball page—I know you're through with that now."

WILLIAMS QUITS IN DISGUST.

Washington, Aug. 5.—Senator John Sharp Williams resigned today as a member of the foreign relations committee because, he declared, the committee had hesitated to support the administration's policy as to medation and because of its "equally disgusting attitude" regarding the purchase of ships to carry cotton and other goods abroad.

HOW FRENCH AVIATOR DESTROYED GERMAN DIRIGIBLE

In the above illustration is shown how a French aviator destroyed a German Zeppelin while she was manoeuvring over French territory. The aviator in his monoplane went clear through the envelope of the airship, which immediately collapsed and her twenty-five occupants were dashed to death. The monoplane was also wrecked and the aviator killed.

WEALTHY FARMER ENDS OWN LIFE

Frederick Hubner Makes Doubly Sure to Kill Himself.

With his form dangling from a rope attached to an overhead gas pipe in the basement and with a large hole torn in his side near the region of his heart, the lifeless body of Frederick Huebner, aged fifty-five years, a retired farmer, was found by his wife when she returned to her home, 615 Huffman street late Tuesday afternoon when she returned from a visit to the country.

FREDERICK HUBNER.

Despondency because of having left his farm to reside in the city is believed to have led the man to take his own life. The suicide had been carefully planned. Hubner evidently placed his head in the rope noose and placed in front of him a double-barreled shot gun, intent upon making doubly sure of snuffing out his own life. From the position in which the gun was found, it is believed that Hubner pulled the trigger with his foot. The contents of one barrel was emptied into his body just below the heart and it is thought that death was instantaneous and the lifeless body fell backward and was supported by the rope.

Although she was in a state of near collapse after finding her husband's body Mrs. Hubner succeeded in notifying the police and Coroner E. H. Kruse was summoned. The body was removed to the Klaehn & Melching morgue.

The unfortunate man formerly resided near Preble on a farm in Adams county seven miles east of Bluffton. He was wealthy and owned considerable city real estate. Only last autumn he returned from an extended trip abroad. Surviving besides the widow he leaves the following children: Minnie, Sadie, Lizzie, Mary, Frank, Edward and Fred Hubner, jr.

Private funeral services Friday morning at 8:30 o'clock from the residence. The remains will be taken to Bluffton

to Honduras, where services will be held Friday afternoon at 1 o'clock from St. Luke's Reformed church.

ENGLAND SEES A FAMINE.

Economy Is Necessary and Simple Meals the Rule.

London, Aug. 5.—England is preparing for a possible famine by economy in money, food and fuel. The Carlton club committee strikes the keynote with the decision to serve only simple meals and to advance food prices slightly.

Among the rules published in the morning papers to make economy a "family game," are to save the vegetable salts from the saucepan, to use nutritious potato skins and to make brown flour from wheat chaff.

Britons are asked to live on a standard dish of a little meat stewed with many vegetables. Children and those over 40 years must use a one-course meal. Cheese and nuts are to take the place of butter. Pickled peas and scrap dishes are recommended.

All the papers declare there is no panic. Trade routes are open, and the country is well supplied. However, England may be cut off from the east and imports of bacon, sugar, poultry and dairy products may be stopped.

There are prospects of a paper famine and most journals already are beginning to cut down the size of their issues.

SAYS ASIA IS BIG U. S. EXPORT FIELD

Eastern Traveler Tells of Needs of American Buyers.

New York, Aug. 5.—After traveling for two years and two months, in which time he has covered about 140,000 miles in India, Burmah, Ceylon, the Federated Malay states, Dutch Indies, Siam, North and South China, Eastern Siberia, Korea, the Hawaiian Islands and other lands, S. Raleigh Kirkness, vice president of Muller, McLean & Co., Inc., of No. 11 Broadway, was welcomed recently by the management of the Holland house, where he has made his home when in this city for several years.

To Mr. Kirkness, Asia is the great field for American exports. He declared that the field had merely been scratched and that there was a great demand for all American goods. But Mr. Kirkness said that during prosperous times in the United Staes the American neglects the export trade, placing the United States in difficulties with the clients of the far east. However, he added, with the opening of the Panama canal, the facilties for trading with the far east will be considerably facilitated.

"I want to say a word for the United States consuls in the different places I went to," said Mr. Kirkness, who is an Englishman. "They are far in advance of our Englishmen. Our business is in the Asiatic field and it has increased by leaps and bounds. We sell everything that America makes, everything that we can sell. I have found that the persons in the Asiatic countries are keen and eager to buy American made goods.

"In a friendly way I would like to say that America is making a great mistake in debarring the importation of Chinese labor in the Philippines. It is ridiculous to see the Filipinos getting so much money that they work only two days a week, with the result that there's a scarcity of labor. Few persons have an idea of the area of the Philippine Islands. America is getting good interest out of the investment in the Philippines."

Concerning China, Mr. Kirkness feels the possibilities there are greater than in any other country in the east. There is, he said, a decided preference in favor of the United States, Germany and England over Japan in trading with China between the far east countries on the Yangtse river.

One church in an Oklahoma town advertised free lemonade at its Sunday service. A rival church of the same town is resolved not to be outdone, and is advertising free buttermilk.

German naturalists are interested in the fact that the wild rabbits of that country seem to be changing their habits, among other things building their nests above ground instead of in burrows.

I have high-class investments in local Bonds and local Stocks. C. F. Pfeiffer, Shoaff Bldg.

RUMORS OF NAVAL BATTLES

HOSTILE FLEETS BELIEVED GRAPPLING

Dover, Eng., Aug. 5.—The German steamer, Franz Horn, from Curacao, July 11, for Stettin, on entering port here this afternoon, reported that firing was audible in many directions but could give no definite information.

MAY BE SEA FIGHT OFF MAINE COAST.

Portland, Maine, Aug. 5.—The firing of heavy guns off the Maine coast, was heard early today. Eight or ten shots within two minutes were heard shortly before 7 o'clock by the keeper of the Portland observatory.

The sound seemed to come from a point 25 or 30 miles southeast of Portland, and probably in the vicinity of Seguin island.

London, Aug. 5.—Although five of the great European powers—Austria, England, France, Germany and Russia—are at war and millions of men on land and sea are under arms and ready to strike, developments of prime importance were few today.

The cutting of the German telegraph and telephone connections and the severance of the German trans-Atlantic cable virtually cut Germany off from communication with other countries. Reports from France, Belgium, Holland and Russia, however, showed that Germany's armies were steadily moving forward east and west, and that her advanced posts were in contact with the opposing Russian and French armies.

In England preparations were rapidly completed for naval activities after the declaration of war last night, but the authorities would not permit any leakage of news as to military or naval movements.

German Ships Seized.

Several German steamships in British waters, including the Belgia with 73 German reservists and a quantity of foodstuffs on board were declared prizes of war. The Maria Leonhardt, in the Thames, suffered a similar fate.

The British government today commandeered the horses belonging to express companies and big department stores, thus causing almost a suspension of business.

On the coast of the North Sea, where it had been erroneously reported that a naval battle was in progress last night the British government has taken over all schools and other public buildings for conversion into hospitals in readiness to receive the wounded after the expected important naval encounter between the German and British fleets.

Volunteers Called For.

Volunteers were requested for the British army and this was taken as an indication that an expeditionary force was to be sent out but no authoritative information on this point was obtainable. In France the minister of war declared the mobilization to have proceeded satisfactorily and everything to be in readiness with General Joffre at the frontier.

As the Black Sea has been tightly closed by Turkey's shutting the Dardanelles and Bosphorus in order to maintain her neutrality, the Russian fleet there had no difficulty in making captive many German and Austrian vessels. Austria and Servia appear to have stopped their activities, or at least to have put a strict censorship on the news of any important events, as no dispatches of importance reached the British capital from those two countries.

The French fleet in the Mediterranean is reported to have captured or destroyed three German cruisers but the dispatches are conflicting.

Methodical Plans of Campaign.

The plans of campaign of the various nations at war are being developed with methodical deliberation and military authorities here are of opinion that the alleged fighting on the Russo-German and Franco-German frontiers has consisted of nothing but skirmishes between reconnoitering bodies of troops. They point out that it will take at least another week for the main armies of Germany, France and Russia to get into position for the decisive struggle. It is known now, however, that severe fighting is in progress in Belgium between the Belgians and the Germans and it has been reported that 80,000 Germans have been repulsed near Liege, although the Belgian war minister only permits himself to say in his official reports that the Belgians are successfully meeting the German invaders. Little credence is placed in authoritative quarters here in the alleged "authentic information" from Algiers in regard to the sinking or capture of German warships in the Mediterranean.

MANY GERMANS YET IN PARIS.

Paris, Aug. 5.—It is believed that several thousands of Germans and Austrians are still in Paris. There were more than 80,000 on the police registers before war broke out and it is thought impossible that all left the city. No fewer

GERMANY IS NOW SHUT IN

Cables Are Cut and What is Going on There is a War Mystery.

BRITISH SEVER SUBMARINE LINE

Only News That Can Get Out Must Trickle Through Hostile Lands.

New York, Aug. 5.—Direct cable communication with Germany was stopped today.

The German Atlantic cable lines from New York to Emden, via the Azores, were cut about 1:40 a. m. at some point east of the Azores, possibly by British warships.

The Commercial Cable company, which operates the American end of this line, made the announcement of the cutting today and refused to accept messages for Germany. It was denied that the lines had been cut by British warships on this side of the Atlantic. The cable was working, according to announcement as far as the Azores. Charles P. Adams, second vice president of the Commercial Cable company, said there was no trouble with the regular Commercial Cable company's lines, which run from New York to Nova Scotia and thence to points on the Eng-

War News In Flashes

Brussels, Aug. 5.—The government states that the German troops continue their march and were today in the neighborhod of Floron, near Liege. They were out of range of the forts and evidently wishing to reach the French department of Mense by following the course of the river Meuse.

Paris, Aug. 5.—It is reported from Mont Beliard, in the department of Doubs, that the Germans have violated the neutrality of Switzerland.

St. Petersburg, Aug. 5.—A German fleet of nineteen ships was sighted yesterday near the east coast of the Baltic sea, between Memel and Liban. Russian warships in the Black sea have captured many German merchantmen.

St. Petersburg, Aug. 5.—Russian troops have established contact with the enemy along the greater part of the Russo-German frontier in northeastern Prussia. The Germans are reported to have fallen back and to be burning villages over an enormous stretch of the country which they had invaded.

London, Aug. 5.—The rumor that a naval engagement had taken place off Clomarty, Scotland, was set at rest today by an official denial that there had been a battle in that vicinity.

Paris, Aug. 5.—An official announcement today says that seventeen Alsatians, while endeavoring to cross into France, were captured by the Germans and summarily shot.

London, Aug. 5.—Detectives, during a raid on houses occupied by Germans, in London, in one place discovered a large number of bombs and rifles. Several arrests were made.

MOB ATTACKS IN ST. PETERSBURG

German Embassy Destroyed by Incensed Crowd of Russians.

Washington, Aug. 5.—The German embassy in St. Petersburg, has been destroyed by a mob, inflamed by a report that the Russian embassy in Berlin had been attacked. One German employe was killed.

The state department does not credit the report of an attack on the Russian embassy in Berlin. Its information comes from St. Petersburg in diplomatic dispatches.

SENATOR STONE RENOMINATED.

St. Louis, Aug. 5.—Returns today show that Senator William J. Stone was renominated on the democratic ticket by an overwhelming majority at the direct primary yesterday. Thomas J. Akins, of St. Louis, seems to have beaten Pollite Elvins, of Elvins, Mo., for the republican nomination. Arthur N. Seger had no opposition on the progressive ballot.

TWO GERMAN ARMY CORPS NEAR LIEGE

Belgian Nation Overrun With Kaiser's Troops and Resistance is Being Made to Invasion

GERMAN INVASION OF HOLLAND BEGUN

BELGIANS RESIST INVADER.

Brussels, Via London, Aug. 5.—The Belgian minister of war, in an official statement, today said:

"The Belgians are successfully combatting the German invasion.

"The Belgian losses are trifling compared with those of the Germans.

Brussels, Aug. 5.—The Belgium official Gazette announces today that the entire 7th and 10th German army corps have invaded the Belgian province of Liege and have reached the vicinity of Herve, Pepinster and Remounchamps. The German artillery bombarded some small forts in their advance.

TOWN TAKEN AND BURNED.

Liege, Belgium, Aug. 5.—The capture of the frontier Belgian town of Vise was effected by German troops after an engagement lasting several hours. It is stated that the victors set fire to the town, killing those of the population who resisted them.

The town Argentau is also in flames. One hundred thousand Germans are reported to be marching on Liege.

GERMAN INVASION OF HOLLAND.

London, Aug. 5.—The Germans have invaded Dutch territory at Tilburg.

It is reported that German troops met with resistance after crossing the river Meuse, at Eysden, Belgium.

The prompt destruction of bridges by the Belgian troops checked the advance of the Germans.

Great Britain, Preparing to Strike at Germany, Will Put Half a Billion More in the War Chest

GERMANY ACCUSED OF TRYING TO BRIBE

Washington, Aug. 5.—Diplomatic dispatches indicate Sweden will join Great Britain, France and Russia if she finds herself unable to remain neutral.

London, Aug. 5.—Great Britain having last night declared war against Germany, Premier Asquith today announced that the British government would ask for another credit of $500,000,000 tomorrow. It was officially stated that Viscount Morley and John Burns had resigned from the cabinet.

Tried to Start Panic.

The Pall Mall Gazette today makes public reports current in the city to the effect that the heavy selling orders from Germany during the past week or two was really a deliberate attempt to smash the London market and cause a scare to the financial and commercial world so as to keep Great Britain out of the war. The newspaper says it hears the sum of $10,000,000 was expended or had been arranged to be expended for this object with the cognizance of the German government.

Kaiser's Sinister Motive.

The Times this morning says that the foreign secretary, Sir Edward Grey, is expected to make in parliament today a statement even more grave than that made yesterday. It adds that it is probable that diplomatic papers will throw an unexpected light on Germany's motives, which, it is supposed, are aimed at acquiring French colonies and that as the price of British neutrality Germany was prepared to give guarantee that she would not annex any portion of France in the event of a French defeat.

London, Aug. 5.—The Gazette, the official newspaper, today published the notification of the state of war existing between Germany and England as well as an order in council signed by the king relating to the merchant vessels of the country with which the British empire is at war. The order specifies as contraband arms of all kinds, clothing and harness of a military character and animals suitable for war purposes.

Articles specified as conditional contraband are food stuffs, fuel, harness, telescopes and field glasses.

THE DECLARATION OF WAR.

London, Aug. 5.—Great Britain declared war on Germany last night.

WILSON TENDERS THE NATION'S BEST AID

President Notifies Warring Powers That United States Will be Pleased to Act as Peace Mediator

UNDER AUTHORITY OF THE HAGUE PACT

BULLETIN.

Washington, Aug. 5.—Mr. Bryan presented the president's offer in writing to Dr. Dumba, the Austrian ambassador, and secretaries from the British, German and Russian embassies and the Belgian minister. An effort will be made to transmit it to Berlin by wireless.

Later the mediation proposal was delivered to the French charge and the secretary of the Netherlands legation, completing the list.

Washington, Aug. 5.—President Wilson has offered his good wishes to all the European powers involved in the war.

The president has sent the following message to Emperor William, Emperor Nicholas, Emperor Francis Joseph, President Poincare and King George:

"As official head of one of the powers signatory to The Hague convention, I feel it to be my privilege and my duty under article three of that convention to say to you in a spirit of most earnest friendship that I should welcome an opportunity to act in the interest of European peace either now or any other time that might be thought more suitable, as an occasion to serve you and all concerned in a way that would afford me lasting cause for gratitude and happiness.

(Signed) "WOODROW WILSON."

The proffer of good offices was forwarded by Secretary Bryan to the American embassies in the nations involved and through them transmitted to the governments.

It was said at the white house that no intimations had been received that such an offer would be favorably received. President Wilson took the position that the European war was so stupendous and that its effect on the entire world was liable to be so lasting that the United States as one of the few large neutral powers could not do otherwise than at least offer to be the means of bringing about peace.

The proffer of good offices was not sent to the governments of Servia and Montenegro because those countries are not parties to The Hague convention.

Secretary Bryan has called a conference of representatives of all the European powers for late today when it is believed messages will be delivered supplementary to those of President Wilson, urging an acceptance of the tender of good offices.

Most of the diplomats are away at summer embassies, but are all expected back soon. Mr. Bryan sent out his invitation, however, as some are in Washington and others are expected to return in response to the call.

England and France Willing.

From informal inquiries which American diplomats have been making of their own initiative for several days it appeared probable to officials here that England and France might accept the tender of good offices. An acceptance by Great Britain, it is presumed, would mean similar action by her allies, Russia and France.

All eyes here are turned on Berlin, where, it is believed, the decision on mediation really lies. Ambassador Gerard has been active since hostilities began in his efforts to suggest some way for a pacific settlement and the general trend of opinion in white house circles was one of optimism.

Another basis for hope was the fact that inasmuch as the United States is in no way a party to the European dispute, a rejection of her tender of good offices would be contrary to the spirit of The Hague convention which specifically suggests that "in case of serious disagreement or conflict, the signatory powers agree to have recourse, as far as circumstances allow, to the good offices or mediation of one or more friendly powers."

Why Acceptance is Easy.

A hope that the president's offer might be accepted was prevalent in official circles, because it is not necessary for any of the warring powers to change the present military status if they accept it. Article 7 of The Hague convention provides:

"The acceptance of mediation cannot unless there be an agreement to the contrary, have the effect of interrupting, delaying or hindering mobilization or other measures of preparation for war.

"If it takes place after the commencement of hostilities, the military operations in progress are not interrupted in the absence of an agreement to the contrary."

JAPAN'S ATTITUDE STATED.

Tokio, Aug. 5.—The Japanese premier, Count Okuma, in an interview today expressed his regret that the United States had not been able to mediate in the European conflict, which, if it continues, he said, means the destruction of western civilization. Japan, he continued, would have been happy to join the United States in mediation, but her possible participation in the war as an ally of Great Britain made her an interested party.

The premier said that Japan, if she were compelled reluctantly to intervene, would protect the British colonies, but under no circumstances would she send a fleet or an army to Europe.

REPORT BRYAN'S TREATIES.

Washington, Aug. 5.—As an influence for peace in such a time of war in Europe the senate foreign relations committee today ordered favorably reported Secretary Bryan's twenty peace treaties with foreign nations urged for ratification by President Wilson before congress adjourns.

The committee, however, struck out a provision that pending investigation of difficulties contracting nations should agree not to increase their military or naval program unless danger from a third power should compel it.

LATE WAR BULLETINS.

Washington, Aug. 5.—Another neutrality proclamation including Great Britain and Germany, not included in yesterday's proclamation, was prepared for issue today.

Washington, Aug. 5.—Arrangements are being made to return the $10,000,000 gold aboard the liner Kronprinzessin Cecelie at Bar Harbor to the consigner, bankers in New York, by revenue cutters.

Constantinople, Aug. 5.—The Dardanelles and the Bosphorus were closed today in order to preserve the neutrality of Turkey.

Stockholm, Aug. 5.—The German ambassador to Russia with his staff arrived here yesterday from St. Petersburg on a steamer flying the American flag. They proceeded to Berlin.

Berlin, Aug. 5.—An embargo was today laid on Russian balance at the great banks in Germany. These funds are considered by Germany as property belonging to a hostile force.

Copenhagen, Aug. 5.—A German torpedo boat destroyer was sunk today near Gedser light ship off South Gedser by the explosion of one of her boilers. Thirty men were drowned. A few of the crew were saved and taken aboard the lightship.

London, Aug. 5.—Chancellor of the Exchequer Lloyd George announced in the house of commons today that the Bank of England rate was to be reduced to six per cent either tomorrow or Friday. The government he said had not yet decided to suspend specie payments.

London, Aug. 5.—Reginald McKenna, the home secretary, announced today that 21 spies had been arrested in the British Isles during the last 24 hours chiefly in important naval centers.

The home secretary introduced a bill in the house of commons to restrain the movements of undesirable aliens with the object of facilitating the removal of spies. The measure was immediately given a second reading.

London, Aug. 5.—Earl Beauchamp was appointed to succeed Viscount Morley as president of the council today and Walter Runciman to take the place of John Burns as president of the local government board.

New York, Aug. 5.—Messages destined to Austria-Hungary or Germany may no longer be sent over the Western Union cables. J. G. Willover, manager in the United States of the cable system, announced today that he had received such instructions from the English military censors.

Paris, Aug. 5.—The French customs and telegraph offices at Homecourt and Joeuf in Meurth-et-Moselle have been sacked by German infantry, according to dispatches received here. At Morfontaine, a German officer was taken prisoner when the French infantry repulsed a party of German cavalry.

Quebec, Aug. 5.—The newspapers of Canada were today given instructions not to publish any information regarding the steps taken by the military authorities for the defense of Quebec or any other port in Canada.

BULLETIN.

Tokio, Aug. 5.—Considerable activity among the vessels of the Japanese navy followed the announcement of the declaration of war between Germany and Great Britain.

The light houses along the Siberian coast have been extinguished.

A number of German, Austrian and French reserve officers sailed today on board the Korea for San Francisco.

BULLETIN.

London, Aug. 5.—It was officially announced tonight that the British cruiser Amphion has sunk the Hamburg-American line steamer Koenigin Luiz, which had been fitted out for mine-laying.

Summary of Day's War News

A dispatch from Algiers, through London, said authentic confirmation of the the destruction or capture of three German cruisers by the French fleet in the Mediterranean had been received there.

Reports of a naval engagement off the Scottish coast were declared untrue by the British government.

The German cable was cut today between Europe and the Azores.

Preparations of the British navy were completed today and it was announced the government would acquire foreign warships under construction in Great Britain.

King George called for volunteers for the army.

German troops are reported to have entered Dutch and Swiss territory.

The German ambassador had not left London today.

The Brtish public showed some anxiety about food supplies, which brought reassuring statements from the government. A scheme of control is to be introduced to regulate prices.

Russian warships have captured a number of German merchant vessels in the Black sea, which is now isolated owning to the closing of the Dardanelles and Bosphorus by Turkey.

Russian troops today were in contact with the German army all along the whole Russo-German border, while French and Germans touched on the French frontier.

London detectives arrested a number of Germans who are alleged to have been in possession of rifles and bombs.

The French authorities announced that 17 Alsatians, desirous of reaching France from Germany, were shot by Germans.

The Belgian government announces the advance through Belgium of the 7th and 10th German army corps.

The German fleet in the Far East is said to have sailed from Tsing-Tau.

An embargo was placed by Germany on Russian funds in German banks.

The Japanese premier declares that no Japanese fleet or army will be sent to Europe, but great activity in the Japanse navy was noticed after the declaration of war between Germany and England.

President Wilson offered the warring powers his good offices as a peacemaker.

world had been waiting came before the expiration of the time limit set by Great Britain in her ultimatum to Germany demanding a satisfactory reply on the subject of Belgian neutrality.

Germany's reply was the summary rejection of the request that Belgian neutrality should be respected.

State of War Exists.

The British ambassador at Berlin thereupon received his passports and the British government notified Germany that a state of war existed between the two countries.

The British foreign office has issued the following statement:

"Owing to the summary rejection by the German government of the request made by his Britanic majesty's government that the neutrality of Belgium should be respected, his majesty's ambassador at Berlin has received his passports, and his majesty's government has declared to the German government that a state of war exists between Great Britain and Germany from 11 o'clock p. m., Aug. 4."

KAISER'S ENVOY STILL THERE.

London, Eng., Aug. 5. The German ambassador to England is not expected to leave before tomorrow. It was reported today that a British cruiser might be placed at his disposal to insure his safe passage across the channel. He visited Viscount Haldane at his private residence this morning.

GEORGE PATS HIS ADMIRAL.

London, Aug. 5.—King George sent the following message to Admiral Jellicoe, who has been made commander of the British fleets:

"At this grave moment in our national history, I send you and through you to the officers and men of the fleets of which you have assumed command assurance of my confidence, that under your direction they will revive and renew the glories of the royal navy and prove once again the sure shield of Britain and her empire in the hour of trial."

THE DEATHS.

LIEFER.

Mrs. Clara Liefer, aged forty-five years, died at 4 o'clock Tuesday afternoon at St. Joseph's hospital where she had been a patient since last Friday suffering from cancer and other complications. She is survived by a son and daughter at Gary, Ind., and her father and several sisters at Massillon, O. The remains were shipped to Massillon Wednesday for funeral services and burial.

RIDLEY.

Anthony Ridley, aged thirty-five years, died at a local hospital Tuesday afternoon from apoplexy.

Mr. Ridley had been an inmate at the hospital where he died for the past year. He was engaged in the show business for some time and was a musician and minstrel man. While in the Philippine Islands several months ago he contracted an attack of malaria fever and never completely recovered from its effects.

WILL ISSUE PROCLAMATION.

Mexico City, Aug. 5.—Geen. Dominguez, the personal representative of Gen Carranza, said today that he would issue a proclamation to the people of the capital promising in the name of the constitutionalists that all their guarantees would be preserved during the period while the government was being transferred from the federals to the constitutionalists.

WHEAT TUMBLES AS WAR BULGES

England's Entrance Into Conflict Signalized by a Slump.

Chicago, Aug. 5.—England's actual entrance into the war was signalized today by a drop of prices in wheat. Opening prices were 1-1 to 1 5-8 under last night, with the market tending downward.

Within a few minutes the break had widened to two cents a bushel and was still in progress. The trade seemed to take the position that for the time being the effect of British action was to diminish the chance of an immediate export demand. Buyers who yesterday anticipated quick action in the way of foreign shipments, were unloading today.

The most definite advices regarding the export outlook were received by George Blanchard, Chicago representative of the North American Export Grain association. He had a cablegram from Liverpool that the British government's plan to guarantee war risks on ocean shipments of wheat was being held in abeyance owing to the difficulty of fixing the cost for receivers account. The cablegram added that a substitute plan was expected to be adopted before tomorrow.

APPOINTMENTS ARE FAVORED.

Washington, Aug. 5.—Confirmation of Paul M. Warburg, of New York, and Frederic A. Delano, of Chicago, to complete the federal reserve board, was recommended today by the senate banking committee.

than 42 Germans of both sexes have been arrested as spies since last Saturday.

Germans began to crowd today in the American consulate general here which has been charged with their interests during the hostilities. The arrangement with the French government with Consul General Thackara is to give each of them a certificate of identification which must be presented to the police commissary of the district in which the person is domiciled. In exchange the commissary gives him an authorization to depart by train to some town where he must remain until the war is over.

Most of the Germans are destitute and the members of the consular staff have provided many of them with money from their own pockets as no public fund is available for the purpose. One wealthy German family expelled from its flat may have to walk the streets until the day appointed by the authorities for its departure for the west of France.

The French authorities have arranged for the departure of two trains to Boulogne and two to Dieppe for the transportation of passengers desiring to cross the channel. Arrangements also have been made for connecting steamers to meet the trains and carry the passengers to Folkestone, New Haven and Southampton. A large number of Americans have applied for tickets.

EIGHT CRUISERS OFF THIS COAST

New York, Aug. 5.—Eight cruisers—three German, three British and two French—are hovering somewhere off this coast. For days incoming steamships have reported news of fragmentary wireless indicating that these vessels were in American waters, but no skipper was able to fix their position. The firing heard off the coast of Maine today may have marked the first engagement between either the German and English or the German and French ships. The British cruisers known to be in American waters are the Berwink, Essex and Lancaster. The German cruisers are the Dresden, Strassburg and Karlsruhe. The French cruisers are the Conde and Descartes.

These vessels have been primarily concerned of late in attempts to intercept merchant vessels of the enemy and several big liners, notably the Kronprinzessin Cecelia, which put into Bar Harbor, Maine, yesterday after abandoning her trip to Europe, have had narrow escapes. Captain Polack, of the Cecelia, believed that at one time she was in imminent danger of capture by one of the French vessels.

SOCIALIST IN CABINET.

Brussels, Aug. 5.—Premier Broqueville announced in parliament today that Emile Vandervelde, the great socialist leader, who was one of the chiefs in the general political strike and is regarded as one of the most able of the opponents of the clerical ministry, had joined the cabinet, being appointed minister of state.

The premier also stated that all men trained in the past fifteen years had been called to the colors. He read the Belgian reply to the last German note which informed this government that if Belgium raised difficulties against the passage of German troops through Belgium the necessary force would be used by Germany to accomplish her end.

BRITAIN BUYS BATTLESHIPS.

London, Aug. 5.—The British government will pass in the neighborhood of $25,000,000 for the two Turkish battleships being constructed in English yards and which has been taken over. One of them has been named Agincourt, and is completed. The other Osman I, and which will be known in the British navy as the Erin, is nearly completed. They are first class battleships.

ANTI-GERMAN RIOTS.

Antwerp, Aug. 5.—Serious anti-German rioting occurred here today. An angry mob sacked the German cafes and restaurants and tore the escutcheon from the door of the German consulate. The police being unable to check the disorders, the Belgian military governor placed the city under martial law and ordered the expulsion of all German residents.

RUSSIAN AIRSHIP WRECKED.

Vienna, Aug. 5.—According to the Neue Frie Presse a Russian aeroplane, carrying a pilot and two Russian officers was sighted on the Russo-German frontier near Lemberg, an important military station of Austria-Hungary and was fired on by Austrians. The machine crashed to the ground and the two officers were killed.

TO ACT FOR BRITAIN IN BERLIN.

Washington, Aug. 5.—Colville Barclay, charge d'affeires of the British embassy today asked that the United States take over British diplomatic interests in Berlin. Secretary Bryan instructed Ambassador Gerard to do so. Official notice that a state of war exists between Great Britain and Germany was communicated by the charge on receipt of a telegram from the British foreign office. English naval reserves will immediately proceed to England, without further notice.

TWO GERMAN ARMY CORPS NEAR LIEGE

man army corps, the 10th army corps at Eysden, the 7th army corps, 40,000 strong at Verviers, and the 6th army corps in another locality not named. The 10th German army corps is operating along the northern line and finding unexpected resistace, moved further northward invading Dutch territory at Tillburg and crossing the Meuse at Eysden. An army of 100,000 Germans was marching today on Liege where a general attack is expected tomorrow. A German officer, taken prisoner by the Belgians, said he was amazed at the resistance offered to the German advance. The Germans had been given to understand at Berlin that they would not be opposed in Belgium.

A German military aviator was killed today.

FORTS FIRE ON THE GERMANS.

Brussels, Aug. 5.—The Belgian ministry of war announces that the fortifications of Liege and the vicinity, are firing vigorously at the German troops.

German troops have crossed the Belgian frontier at three points—at Dalhem, 7 miles north of Liege, and at Franceorchamps and Stavelot, both about 25 miles to the southeast of Liege. A fight is believed to be in progress between the Belgians and Germans for the possession of Flecon, six miles from Liege.

WAR PREPARATIONS IN FAR EAST

Shanghai, Aug. 5.—Guns were mounted today on the German Lloyd steamship Prince Eitel Friedrich at Tsing-Tau.

The far eastern squadron of the German fleet accompanied by a number of merchantmen left Tsing-Tau today and it was reported that the warships were proceeding northward.

Large numbers of Chinese coolies have been forced to work under armed guards on the defenses of Tsing-Tau.

WANT CABINET CHANGES MADE.

London, Aug. 5.—Some of the morning papers express irritation because of the delay in the rearrangement of the cabinet posts. The delay is interpreted as indicating a divergence of opinion as to whether an expeditionary force should be sent to the assistance of France.

It is understood that Premier Asquith will relinquish the duties of secretary of state for war, but it is still unknown whether Viscount Haldane, who is assisting at the war office, or Field Marshal Lord Kitchener will succeed him. The resignations of Viscount Morley, secretary of state for India, and John Burns, president of the local government board, have not yet been accepted or officially announced.

WOULD FOLLOW THE CAMPAIGN.

Paris, Aug. 5.—Myron T. Herrick, United States ambassador in Paris, has cabled to the war department in Washington for permission for Major Spencer Crosby, Major Morton J. Henry, Captain Frank Parker, Captain Francis H. Pope, Lieutenant B. B. Somervell and four other graduates of Westpoint, all of whom are on leave to accompany the French army as military observers. These officers assisted the ambassador in handling the crowds of Americans who had come to the embassy to get passports or identification papers.

The ambassador has requested the French government to extend the time limit for the issue of special permits of residence to Americans living in Paris, or who desire to remain here. The government had granted only till tonight to foreigners desiring to obtain permits. Mrs. Anna Wilson Howe, of Philadelphia, sister of President Wilson, took her place in the line at the embassy yesterday waiting for a passport.

Oscar Underwood, jr., was among those who assisted American residents, using his private automobile to bring in children and others who had been separated from their parents and friends.

PICKS UP GERMAN MESSAGE.

New York, Aug. 5.—The powerful wireless station at Sayville, Long Island, has been in continuous communication with German war vessels off the American coast for the past few days. A great many messages have been sent in code to the cruiser Dresden and other German warships during this time, according to the manager of the Atlantic Communications company which controls the wireless plant. No messages to French or English vessels have been sent, he added, these for the most part going by way of Cape Cod. Information as to the source of messages to the German vessels was refused, but it was said that they had come from many places, among them being the cable offices in this city. The manager said that his firm was an American one. Most of the employes are natives of Germany.

TO KEEP FOOD PRICES DOWN.

Vienna, Aug. 5.—The Austria-Hungarian government today took drastic measures to protect the public against dealers charging exorbitant prices for food. A decree was issued calling on producers, warehouse men and dealers to inform the local authorities as to the stocks in their possession. Any attempt to keep secret the extent of stocks or raise prices is to be punished by imprisonment varying from one month to one year. The church authorities have decided to permit the performance of marriages without the usual publication of bans. Hundreds of couples are taking advantage of these regulations.

A BILLION NOW AVAILABLE.

Washington, Aug. 5. More than a billion dollars was made available today for additional circulation to prevent any financial stringency growing out of the European war under the bill amending the bank law to which President Wilson had placed his signature. The new act extends issues of currency to 125 per cent. of capital and surplus of banks and trust companies in the federal reserve system.

GERMAN CONSULATE ATTACKED.

Vancouver, B. C., Aug. 5.—The big black eagle above the door of the German consulate was torn from its supports today by a crowd which threatened the consulate with destruction.

The C. O. F. Baseball Club will hold their social at St. Andrew's School hall, instead of 2416 New Haven avenue.

SCARCITY CAUSE OF HIGH PRICES

Noted Packer Says Texas Cattle Output Has Decreased.

Detroit, Mich., Aug. 5. "Texas, which produced more cattle than any other two states in the union, is now producing 10 per cent fewer cattle than it did five years ago.

"It would take ten years, with careful conservation of the heifer calves throughout the country, to get the herds back to where they were five years ago. And this would not allow for the increase in population which the United States will have during the next ten years.

"If we could get enough Argentine cattle it would reduce the price of dressed cattle and have an effect on the price of dressed beef in the United States. But Argentina is three million head of cattle short of what she had four years ago, due to disease and bad seasons."

This is the answer of H. E. Finney, general manager in Texas and Argentina for Armour & Co., to the reason for higher prices for beef.

Mr. Finney sees no hope for a reduction in the price of beef.

"Texas, because of the cutting up of the large ranches, is turning out more finished cattle and fewer stockers, and the size of the herds is decreased.

"Importation of Argentine cattle is an undoubted help, but there are not enough cattle coming in from that country to reduce prices. Before the passage of the Wilson tariff most Argentine beef was shipped to Europe. Removal of duty here and the disturbed industrial conditions in England, which have lessened the demand there for Argentine beef, have increased importations to this country.

"When normal conditions are restored abroad and the demand for beef picks up there will be less importation of Argentine cattle, unless the price here is better than over the water. The Argentine crop out at this year's good. Paraguay and Australia also are beginning to export cattle to the United States and will be considered factors.

"There's another thing that affects the price of cattle. It takes from four to seven acres to graze a steer. Land prices are constantly increasing in the United States. At $250 an acre you can get an idea of the cost of raising a steer."

REFUSES TO KISS PHOTOGRAPH.

Man Is Knifed When He Declines to Salute Wilson's Picture.

Yonkers, N. Y., Aug. 5. Frank Jahn was challenged by George Warda, a fellow Syrian, to show his fidelity to his adopted country by kissing a picture of Woodrow Wilson. Warda did it himself, and when Jahn refused to follow his example a fight ensued, in which Warda's finger was sliced nearly off with a knife.

ONE KISS A YEAR NOT ENOUGH.

Wife Says She Is Entitled to Divorce on That Account.

Atlanta, Ga., Aug. 5. When a husband kisses his wife only once a year, and this continues for three years, it is cause for divorce in Georgia, according to Mrs. Nellie Thomas, a popular young woman, who has entered divorce proceedings against N. S. Thomas. Mrs. Thomas says her husband has been cold to her for some time and has told her he did not love her.

THE SENTINEL'S DAILY SCRIPTURE READING.

John 2:1-12.

1 And the third day there was a marriage in Cana of Galilee; and the mother of Jesus was there:

2 And both Jesus was called, and his disciples, to the marriage.

3 And when they wanted wine, the mother of Jesus saith unto him, They have no wine.

4 Jesus saith unto her, Woman, what have I to do with thee? mine hour is not yet come.

5 His mother saith unto the servants, Whatsoever he saith unto you, do it.

6 And there were set there six waterpots of stone, after the manner of the purifying of the Jews, containing two or three firkins apiece.

7 Jesus saith unto them, Fill the waterpots with water. And they filled them up to the brim.

8 And he saith unto them, Draw out now, and bear unto the governor of the feast. And they bare it.

9 When the ruler of the feast had tasted the water that was made wine, and knew not whence it was, (but the servants which drew the water knew,) the governor of the feast called the bridegroom,

10 And saith unto him, Every man at the beginning doth set forth good wine; and when men have well drunk, then that which is worse: but thou hast kept the good wine until now.

11 This beginning of miracles did Jesus in Cana of Galilee, and manifested forth his gloty; and his disciples believed on him.

12 After this he went down to Capernaum, he and his mother, and his brethren, and his disciples; and they continued there not many days.

All Europe Now Set for War

Great Britain's declaration of war against Germany adds nothing to the magnitude of the prospect. It merely gives a positive definiteness to what was a fact that lacked only formality. That Britain would be embroiled in this war was a conclusion foregone from the moment the break came between Germany and Russia. There is no very happy prospect that any country of Europe will escape being drawn into the conflict sooner or later. Italy has declared her neutrality, asserting that the conventions of the dreibund do not oblige her to draw the sword under the circumstances that have involved her allies—Germany and Austria. She will be sucked into the maelstrom of strife, without doubt, and already is enforcing preliminary steps for mobilization of her armies. It is a conflict that necessarily will involve all of Europe, and as it now appears nothing less than a direct intervention of providence can avert a war that must prove the most calamitous the world has ever known. Such mighty armies have never swept the land, such prodigious navies have never secured the seas as will in this war. The spectacle of the greater part of the civilized world in armed strife will be vast and awe-inspiring. Its material effects will stir different emotions when they have fully struck the world. This war will be felt everywhere for generations.

Military aviation and aerial combat are two of the fattest little facts that ever developed for the aid and behoof of the war romancer. He can fill the midnight heavens with "airy navies grappling in the upper blue," develop all sorts of sensations, victories and disasters and write his dizzy head off about the happenings and there is no great chance of his being proved a liar. Hand to hand fighting by legions of foot, the thunderous shock of spurred squadrons of horse, the deafening roar of booming cannon, the mighty struggle of dreadnaubts on the swelling deep offer some rather elegant opportunities for the play of martial fancies, but these are trifles and perhaps nothings. There must be some basis of fact for the appearance of these in war stories. The operation of the diligent imagination dealing with military aviation needs no such vulgar accessory as an intervention of facts or even an assumption of truth. It's quite the finest little piece of business yet introduced into the war game.

In something better than two thousand words President Wilson has proclaimed the neutrality of the United States in the hostile issues of European politics and defines what American citizens and foreign subjects on American soil, as well as the rights, privileges, immunities and obligations of the merchant marine, privateers and warships of belligerents may do within our borders, under our sovereignty and upon our waters and roadsteads. Fail not to peruse, ponder and heed—in short, stop, look, listen and don't get yourself mixed up in any international affair at this time. It's no easy matter to keep out of a general shindy, but "oceans braid between us roll," and it is not going to be so doggone hard to be an innocent and perfectly peaceable and safe bystander in this conflict of the powers.

Mexico seems to resent being backed entirely and without notice off the war stage. Carranza and his constitutionalists are preparing to march upon the provisional government of the republic and shoot things to pieces in the capital. A peaceable transition from the provisional hands to the constitutional hands had been arranged and your fatigued Uncle Samuel was beginning to breathe easy out of a pardonable chestiness that he fairly well had done a good thing. Now comes this. It's provoking.

The man on the war lookout can see things in the European conflict as readily as he used to see 'em from the Mole St. Nicholas in the Spanish America tiff and later from Chefu, when Russ and Jap were at it. The North German Lloyd prize liner, Kronprinzessin Cecelie was veraciously reported Sunday night to have been run down and captured with her $11,000,000 of treasure by four British cruisers. Monday she was known to have put in at two or three ddifferent German ports, no matter where. Tuesday morning she heaves anchor at Bar Harbor, Maine. Of this last report there need be no skeptical misgivings. If the Kronprinzessin Ceelie interests you in any fashion you can go to sleep on the telegraphed story of her heading about when almost in sight of home and making a hasty skedaddle back to American shores.

"Come, let us reason together," saith the prophet. But the war-mad nations have no mind to hearken to Isaiah or any other. A reasoning together would have put this wicked war far from the ken of those now waging it. War has few reasons, but it musters legions of pretexts and no end of excuses. However, when this conflict shall have been brought to its bloody conclusion there will be a few millions of the survivors here and there in the prostrated nations that are waging the battle, who will ask, "Why is a king anyway?" That will help some and a deal, maybe.

The American tourist in Europe at this time can hear the air filled with "Wacht am Rhein," "Marsellaise," and "God Save the King," but these national airs blend into one sad and unavailing composite that sounds much like "Home Sweet Home."

For the present the dreibund is only a zweibund, but perhaps Italy will come in or be dragged in to the aid of her ally who watches the Rhine.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

BEST ORGANIZED MILITARY BODY IN THE WORLD IS GERMAN ARMY.

Every Able-Bodied Man Has to Be a Soldier in Peace or War—Cogs in Mighty Machine Explained.

(By an Ex-Officer in the German Army.)

The German army of today is the most efficient fighting organization that the world has ever seen. It has served as a model for the armies of most other countries. The Austrian, Japanese, Chinese, Turkish armies have been organized on methods copied from the German system.

On January 1 of the year in which he attains his twentieth birthday, every male German must report to the military authorities of his district. If he is not excused because of some physical defect he must serve two years, if in the infantry; three years, if in the cavalry or artillery. For his services he receives a pittance for pocket-money.

After his term in the standing army, he is transferred to the first reserves for a period of five years. During this period he is required to go through military training with his regiment a month or two each year.

Now he is passed into the "Landwehr," where he remains another five years. Here he is called out for drill at any time desired by the military authorities. From the first class of the "Landwehr" the German soldier is passed into the second class, where he stays until he is 39. Then he goes into the "Landsturm," or final line of reserves, which is called for service only in case of extreme national necessity. After six years his military service comes to an end.

The standing army consists of 600,000 men. Nearly half of this number pass out every year and are replaced by an equal number of fresh recruits. The first reserve consists approximately of 1,500,000 men, and the "Landwehr" consists of 2,200,000 men. The "landsturm" brings up the total to over 6,000,000.

The unit of organization in the infantry is the "section" consisting of twenty men under the command of a corporal. Two sections for a "semi-detachment," or forty men under the command of a sergeant. Two semi-detachments form a "detachment" of eighty men under the command of a lieutenant. Three detachments form a company of 240 men under a captain. Four companies make a battalion of 960 men under a major. Three battalions form a regiment under a colonel; and two regiments form a brigade under the command of a major general. The army corps, which is the largest military unit, consists of two or three divisions.

All details of the mobilization of the army have been worked out with such precision that 6,000,000 soldiers can be mustered and prepared for active service without delay or confusion or misunderstanding. Not only are the men themselves carefully instructed regarding their duty in case of war, but all the military materials required for a modern campaign are stored and classified ready for use at any moment.

A uniform for every soldier is ready to be put on at the word of command. Six million pairs of boots, six million caps, six million tunics, six million belts and so forth are all stored in the vast military arsenals in such perfect order that they can be handed out to each individual with exactness and every man will be clothed according to his height and measurements. Six million modern rifles are ready, with immense quantities of ammunition.

All the plans for concentration at any given point have been worked out. Immediately after a declaration of war, the imperial government could take possession of all the railways. The military authorities know exactly what rolling stock would be required to concentrate any number of troops at any given spot. All the railway cars in use in Germany for the conveyance of freight have been numbered and measured.

The intellectual power which guides and controls these forces is the general staff. The general staff is nominally a body of officers whose exceptional talents entitle them to be regarded as military experts. Chief of the General Staff Von Moltke is really the commander-in-chief of all the forces, although the kaiser would nominally hold this position in the event of war.

Quick, Safe Way to Remove Hairs

(Toilet Talks.)

Keep a little delatone powder on your dressing table and when ugly, hairy growths appear, make a paste with a little of the powder and some water, apply and let remain on the hairy surface for 2 or 3 minutes, then rub off, wash the skin and the hairs have vanished. This treatment is quite harmless and rarely more than one application is required, but to avoid disappointment care should be used to buy the real delatone.

SEVEN CARS WERE NEEDED.

Trolley Party of Associated Christian Workers Attended by 287 People.

Seven cars were needed Tuesday evening for the 287 people who attended the trolley party given by the Associated Christian Workers under the auspices of the social committee of the association. The procession, headed by Electra and a trailer also lighted, left the interurban station at 8:15, from where it went to Robison park. Upon the return the cars took the open air party to Foster park.

At the southside park a social time was enjoyed by all and refreshments added to the pleasure of the occasion. At 10:30 the cars took the entire party back to the interurban station, from where most of the young people departed for their homes reporting having had a good time.

The grand success of the entire affair is due to the work of Emil Koenig, chairman of the social committee, under whose direction the entire affair was carried out. The officers report that it was one of the best social affairs ever given by the society.

The Dehm Idea of Service

Service is the mainspring of a business. When a service ceases, the wheels stop and business soon comes to a standstill.

That is why we continually give so much emphasis to the service this store offers. We regard service as a most important factor in our business success. We feel that had we given our patrons a bungling, inefficient service, we would not have made the success we have.

As one of the big restaurants says: "We serve you right!"

Final Clearance of Trimmed Hats

Prices have been further and finally reduced on nearly one hundred Trimmed Hats, including the finest.

Values were never greater—because we have never had such a great variety—we have never made greater efforts than in our summer exhibit. But the display must be changed soon — hence the greater reductions.

Fine Panamas, $3, $4 and $5 values — choice $1.50 — less than one-half wholesale price and none have been in our store more than five days. Smart shapes.

Trimmed Hats tomorrow your choice of any black, white or wanted color at 25c to $1.95; others at 50c, 95c and $1.50—all white, all black; very special values.

At no other store, to our knowledge, is so varied or extensive a range of models to be obtained.

A new lot of White Felt Hats — soft, flexible, light weight, 75c. White Corduroy Hats, pretty sailor shapes, 75c. White Linen Hats, close-fitting kind, 50c.

Black Velvet Hats with white hemp brims, clever late blocks with deep lustrous black velvet, sold for as much as $2.50, tomorrow get them at $1.50. Fine Satin Hats, new fall shapes, small and large shapes in all black and white, also sells regularly at $2.50, for tomorrow, here only $1.50.

Finest Display Fall Fashions for wholesale trade. We extend an invitation to all milliners.

MRS. A. D. BURLESON.

Mrs. Albert S. Burleson is one cabinet member's wife who does not shine in reflected glory.

The postmaster general is distinguished among statesmen, but his wife has won in the literary world.

The production of her clever comedy, "His Secretary," in Washington last winter, with Preston Gibson as sponsor, gave Mrs. Burleson a place among recognized writers and called attention to the fact that she had already written "The Vive Mexico," "Her Hour" and "The Deluge" and several other plays that had been successfully produced.

"I began writing long before I assumed the responsibilities of a family," says Mrs. Burleson, "but I gladly laid aside my pen to rock the cradle, and I had little hope of ever taking it up again. But now the children are grown, my eldest daughter has a baby of her own, and my ambition to write is even greater than it was when I was a young girl, and so, having no more cradles to rock, I am giving most of my time to writing."

The Burleson's are this season occupying a huge old house in the old-fashioned residence section of Washington. Here they entertain a great deal. Mrs. Burleson's drawing room is always thronged on her days at home. Two young daughters—Jacy and Sydney—add to the popularity of the postmaster general and Mrs. Burleson. The two Burleson girls are so similar in size and appearance that they are wittily known as "the postage stamps" in cabinet circles.

The Aid society of the Simpson M. E. church will hold an ice cream social in the church parlors Thursday evening.

BEVERLY BAYNE DISPELS BEAUTY BELIEFS "PERSONALITY BEATS LOTIONS," SHE SAYS.

Beverly Bayne says: "It is harder to make the lips give expression to a lie than the tongue."

(By Idah McGlone Gibson.)

"Pantomime and personality will make you attractive even if you never use a freckle lotion," says Beverly Bayne. "And nothing shows so much of a woman't personnlity as her mouth."

The mouth plays an even greater part in facial loveliness than the eyes. I have never yet seen a woman with a lovely mouth who was not called beautiful.

Beverly Bayne says: "You would think that in moving pictures the mouth—as you can not hear words spoken—would not be very important, but the next time you go to the movies watch the mouths of the actors. You can read the story most by their expressions, even if you are not a life reader and can not tell what they are saying."

Beverly Bayne shows that the smiling girl is the girl who has a beautiful mouth.

I have always said: "Let me see a woman's mouth after she is forty and I can tell you almost as much of her life and character as the palmist could from her hands."

Probably right here little Miss Ugly Mouth will say with a pout: "Well, what are you going to do about it?"

You can change the shape of your mouth easier than any other feature of your face.

There is no reason why any one should not have a pretty mouth. If your teeth are bad a visit or two at the dentist will remedy that. Then comes the shape of the lips. Go to the glass and look at your mouth carefully. If you are a discontented sort of a woman you will find it drops at the corners; that there are lines from these corners down to the sides of your chin.

As you grow older the parenthesis lines from your nose to the corners of the mouth will appear.

I know a woman who had all these signs of pessimism and discontent and changed them absolutely after she was 35 years old. At 40 she is considered much better looking than ever before in her life.

How did she do it?

Simply by banishing the hard thoughts, the sad thoughts, the unhappy thoughts from her mind. She never closes her mouth in the determined, ugly fashion which she used to do habitually.

She smiles to herself and at herself if she finds no one to smile with and nothing to smile at.

When she goes to sleep at night she does so with a smile.

"Don't get in the habt of keeping your mouth open," says Beverly Bayne, "even if you think your teeth are your most attractive feature."

A sudden smile and a flash of gleaming pearls are much more allluring than if you are showing them all the time. If your lips are too full, then you can learn to close your mouth a little tightly, but even when you do this don't forget to smile.

ically hurt while assisting in threshing in the neighborhood. He was in a wagon playfully scuffling with another boy, when, in some manner he was thrown from the wagon. He fell to the ground striking on the right side, and received, it is feared, internal injuries, as he threw up blood following the accident. A physician was called to attend him, but it is yet too early to fully determine the extent of the injuries he received.

CONFERRING ON LINE ROAD.

Albion, Aug. 5.—One of the most quiet meetings experienced by the board of county commissioners during their present incumbency is now being held, and only a few routine matters will be disposed of at this term of court. Among the most important matters being attended to is the disposition of the stone road extening from Allen county and bordering on Swan township, this county. The road is ten miles long. Commissioners Albert Black and J. D. Batt and Auditor C. H. Brown of Allen county, are conferring with the Noble county officials in an effort to make all adjustments.

FOUR HORSES DIE IN FIRE.

Plymouth, Ind., Aug. 5.—Fire destroyed the barn and contents belonging to Gus Sickmiller, residing in Walnut township, near the edge of Center township, nine miles from Plymouth and four and a half miles from Bourbon, near the Jones Grant farm. The loss included the barn, 60x50, four good horses, large silo, 25 tons of hay, cow-shed, good wagon, manure spreader, sets of harness, grains and a large quantity of straw that had just been stacked from the threshing.

TRAMP KILLED BY CARS.

Elkhart, Ind., Aug. 5.—Charles E. Lonner, aged about 30, a native of Sweden, and a structural iron worker out of a job, but on his way to Cleveland in search of work, was thrown beneath the wheels of a Lake Shore freight train he attempted to board at the Canary street crossing last midnight, and his limbs and lower body were crushed and mangled. He died of the injuries a few hours later at the General hospital.

GYPSY TRIALS AUGUST 17.

Warsaw, Aug. 5. At a conference held before Judge Bowser, of the Kosciusko circuit court here it was agreed to start the five gypsy trials Monday, Aug. 17th, instead of waiting until the regular fall term of court is convened Monday, Sept. 7th, as was originally planned. This action was taken upon the urgent demand of the entire population of Warsaw where the Mendes gypsy band is now encamped.

INURED UNDER WAGON.

Delphos, O., Aug. 5.—When a team of horses became frightened when he was adjusting a line on one of them, Peter Wagner, a farmer, was seriously injured. Two wheels of the wagon loaded with corn, passed over his chest, and two ribs were fractured and a severe scalp wound received. Two sons, riding with him, were uninjured.

DOG BY PARCELS POST.

Kendallville, Ind., Aug. 5.—Linus Kimmel, of this city, received a full blooded Scotch collie from northern Michigan, the canine coming through the mails by parcels post. Tige had a nice ride, nevertheless, and arrived safe and sound, and is now enjoying all the freedom any member of the canine family deserves.

VAN WERT WOMAN DIES.

NEWS OF FORT WAYNE'S NEIGHBORS

BRIDE OF SCAPEGRACE ILL.

Young Mrs. Steve Thimlar Taken to Home of Parents in Bluffton.

Bluffton, Ind., Aug. 5.—Mrs. Nellie Thimlar, the girl-bride of Steven Thimlar, former Bluffton tango teacher, with whom she eloped to Michigan and was married, was brought from Fort Wayne Monday evening to the home of her parents, Mr. and Mrs. Dowe Grove, west of Bluffton, where she will be tenderly cared for during sickness, from which she has been suffering for about two weeks and which threatens to become serious.

Information furnished is to the effect that the young wife, formerly Miss Nellie Grove, an employe of the United Telephone company until the time of her marriage, has broken away from her husband for a final separation, after a married experience of three months. That brief married experience has been one of mistreatment for her almost from the first, according to the statements made by Mrs. Thimlar to relatives and friends. Learning that she was sick and in need the parents made arrangements to have her brought home from Fort Wayne, with the statement from her that if brought to her old home here she would have nothing more to do with the husband who has failed to provide the happy home and comforts with visions of which he beguiled her into the romantic marriage, against the wishes of her parents.

THE LOST PRINCESS.

One of the Big Events of the Season Tonight.

Winona Lake, Ind., Aug. 5.—The Winona people are looking forward to the spectacular play, the children's operetta, which is to be staged this evening. Mrs. Hortense R. Reynolds, who is director of the play, has enlisted one hundred and seventy-five of the children and young people of the park in this presentation, and it will be an occasion of great interest. George Ashley Browster, of Des Moines, Iowa, who took the part of Jack Goose a few years ago, and whose musical and dramatic ability is well known here, has been engaged for the same part again this year. Mrs. Helen Cutler Dickey delineates the character of Bo Peep, afterward the Princess. Other principal parts are represented by Edna Goff, Katherine Carmichael, Claire Hatfield, James Heaton, W. H. Collison, Foster Jones, Lillian Trusler and Homer Secrist.

New features have been added to the play this season, and it is being looked forward to with great expectation. It is one of the entertainments that always please everybody.

BOYS START BIG FIRE.

Portland, Ind., Aug. 5.—Two little boys, guests at the home of County Commissioner Caleb P. Davis, seven miles east of this city in Noble township, while playing with matches near a straw stack on the farm started a fire in the straw that later communicated to the barn and other buildings on the farm and resulted in a loss of several thousand dollars with only partial insurance. Mr. Davis was in the city at the time meeting with the board of commissioners. The boys, after discovering that the straw was on fire, attempted to smother the flames by throwing more straw over the fire.

WARSAW PASTOR RESIGNS.

Warsaw, Ind., Aug. 5.—Rev. A. A. Fletcher, who has been pasor of the Warsaw Baptist church for slightly over a year, has resigned. His resignation was accepted to take effect September 1. Rev. Fletcher expressed his intention of resigning about three months ago, but was asked to reconsider. Rev. Fletcher has announced no plans for the future, however, he will probably remain in this city for some time. Since he came here he has made many friends.

FORT WAYNE HAS LOST ITS FIGHT

Playing Listless Ball and Men Are Not Showing Spirit.

(Special to The Sentinel.)

Dayton, O., Aug. 5.—Harry Martin dragged into Dayton Wednesday the only Billiken troupe of ball players that has ever enlisted under the Chauncey Varnell standard and lost all its fight and ginger before the last game of the season had been played.

Fort Wayne has played losing ball here under Jack Hendricks, Jimmy Burke, Jimmy Casey and Frank Shaughnessy but every team has been keyed up to high speed and has given battle whether it won or not, but the club of this season is in a hopeless rut and in need of a good bracing.

The manager keeps on the coaching lines and does what he can to infuse combativeness but he is beating a forlorn hope, and in addition to it I resent the men are showing a lack of courage that is at strange variance with the conduct of Billiken players of former years.

The average baseball fan is willing to overlook fielding errors if the men who are charged with them come back strong and keep trying, but they go to pieces the player who is downed by hard luck, and this is one of the chief faults held against Fort Wayne.

For several weeks the men rallied and fought but a long stretch of defeats at home has taken all of the fight out of them and the loss of the first game here seemed a foregone conclusion when the band entered the field of battle. Tommy Atkins was not hit hard and suffered heavily from bad plays on the part of his pards, while Bruce Noel had everything behind him that a pitcher needs to win games.

The first and only run listed by Fort Wayne was tabbed in the opening round when Smith beat out an infield hit, took second on a pass to Mclnerney and third on Holderman's hoist. Noel kicked on with a wild pitch that got off a tally and sent a runner to third, but the Vet southpaw tightened up at this stage and retired Bratch and Brain without further damage.

A pair in the closing half of the round sent the home guard to the front and it was never overtaken. Martin and DeHaven were accepted when Frankie Nesbo fumbled Clemens' offering. This was followed by a safe rap of Everett by Spencer and a short fly off Meister's bat that fell safe just over the infield and netted one two markers.

Three in the fifth were added to the collection gathered by the Vets. With two men on, McLaffert's throw to get Noel at second was late and DeHaven hit, scoring Hobbs. Noel took third and romped in after Clemens' fly had been caught. DeHaven stole second and tallied on Spencer's two-play crack.

With two gone in the next inning, Hobbs was passed a second time, and when Bratch fell down on Noel's single to right he reached home. The final run was made in the eighth when Sykes drove to center and Smith hit the ball set by him. He threw badly in returning the ball after he had recovered it and the runner got home.

Young was slated for duty in the game scheduled for today, with Cramer booked for the final fray on Thursday, after which the club will move over to Springfield to play three games with their only rivals for tail-end honors.

EXPECT A BIG LIST.

Entries for Tennis Events Close on Friday Night.

Promoters of the tennis tournament to be played on the Nebraska courts under direction of the West End Athletic club, will close the entry list Friday night of this week and all indications point to a successful and interesting list of events. Most of the best tennis players of the city have already entered and Secretary Fred Warren is anxious to obtain as many more as can be arranged for in order to give the sport an interest that is in keeping with its popularity here.

BATTLE OLD AGE IN SPORT WORLD

Some Old Ones Are Still Stars in the Field of Athletics.

New York, Aug. 5.—Age is a mighty formidable foe, but there are a few fellows in the different branches of sport who seem to be able to stand up under its wallops and come back for more.

Honus Wagner, of Pittsburg, began playing ball [illegible] finished. Something like ten years ago the general public began counting out Honus, but the [illegible] of time. Once or twice illness or injury may have made the [illegible] a bit groggy, but he always carried enough reserve force to do an effective comeback and now, in this year 1914, Honus is some Honus, gray haired, wrinkled and possibly speckled and exhibiting more the disposition of old age, is undoubtedly among those present in the Pirates' lineup.

Johnny Ball, of England, began golfing when the game was young. Johnny is over fifty now, an age where it is said that a man's bones get stiff and where his muscles become useless. But Johnny is playing as good a game of golf today as he used to in his youth.

Bill Larned, the net star, first shone [illegible] to attract many years ago. Yet there are few men in America or England today who are superior to him, although he is supposed to be long past that period of life when a man is in his athletic prime.

Christy Mathewson began pitching for the Giants thirty or fourteen years ago. Back in 1905 the fans began to figure that Matty was slipping. In their opinion Matty was due to be shunted off to the minors long before the 1914 season rolled around. Yet, here we are in 1914, six years after the time when Matty was first looked upon as a has-been, and Matty is pitching the best ball in either league with the possible exception of one Edward Plank.

And Plank is another of those persons who defy age. Edward began his baseball career so long ago that the fans cannot recall the exact date. Five or six years ago Plank was regarded as "done." Editorials began to find their way in print. Eddie was a mighty good pitcher in his day "but time exacts his toll and Plank soon must take the road that all others have followed." Plank did not. Plank, evidently vexed at the obituaries which he considered premature, began pitching the best ball of his career, and he's still doing it. It wouldn't be surprising if he leads the American league at the end of the present season by a wider margin than ever was scored by a pitcher in that organization.

STRAIN IS TELLING ON PLAYERS IN THE FINAL LAP IN RACES FOR FLAGS

PLAYERS WHO LEAD THE PACK IN THE AMERICAN, NATIONAL AND FEDERAL LEAGUES.

(By Hugh S. Fullerton.)

The major league races are narrowing down.

To all practical probability only the Athletics and Boston are left in the American league struggle, only the Giants and Cubs in the National, and only Chicago and Baltimore in the Feds.

In each league a sensational spurt by the clubs standing third and fourth might overturn the dope, but in the remaining seventy games this hardly is a probability.

In the National league New York is showing lamentable weakness and if the Cubs possessed any real strength the would have a grand chance of winning. But the Cubs are not strong—the men who have carried them so close to the top are broken by the strain.

It looks as if the Giants should rally soon and pull away steadily, as their pitching department is fresher and the team as a whole more coherent and is playing better ball.

The Cubs have stolen fewer bases and sacrificed fewer times than any club in the league shows that they are following the O'Day idea of the old hit and run. The Giants do not seem as strong as they were last year by 10 per cent. Pitching tells the tale; Tesreau's return to the form has saved the Giants, the wonderful work of O'Day's pitchers has prevented the entire collapse of the Cubs.

In the American league it is a different story. The Athletics are in just as good position as they usually are at this time of the year. The team is playing magnificent ball. Usually Mack does not get his reliable pitchers into good shape until Aug. 1. This year they were about ready on July 1 and have been coming fast. Mack is nursing Bender and Plank for the finish and has a wealth of reserve power.

The struggle between Tinker's Feds and the Baltimore bunch is getting warmer. Tinker has been riding along on pitching and brilliant work on the bases. Baltimore is the better club, taken all around, but was a long time recovering from it slump. It is playing great ball now, but the pitching is weak at times.

VEAN GREGG HAS CHANCE OF LIFE

Did Not Like Cleveland and Ought to Work Fine at Boston.

Boston, Aug. 5.—Vean Gregg, famous Cleveland southpaw, is now a Red Sox through a recent deal, and many are happy as a consequence.

For more than quite a while Gregg has aspired to twirl for the Boston crew. Through most of the training season last spring Gregg worked out with the Red Sox, joining the Naps late in the spring and appearing in a Red Sox uniform. Gregg while training with the Boston players made many friends among them and told them all that he hoped some day to be among them as a regular. His wishes at last have been realized.

In spite of his great cunning as a portside twirler, Gregg has enjoyed the hearty disesteem of Cleveland fans for quite a while. All Cleveland knew that Gregg cared little for the team he worked for. It was very generally thought that he made little effort to give the Naps the best that was in him. Early in the season he complained of a sore wing, and his appearances in the box this year have been comparatively few and his work has been indifferent. Nor did the fans cheer him more earnestly for this.

Gregg, feeling the disfavor with which Cleveland fans regarded him, felt in turn no overmastering love for Cleveland fans. He often complained that the bugs of the Sixth city were the most ungenial and captious to be found. He affirmed that there was no pleasing them and that the sooner he was far away from them the happier he would be. And this feeling, of course, was common on both sides.

Gregg's dismal behavior in the box a few days before the trade was what determined it. Bill Carrigan, the Boston chief, must be tendered the gardenia for slipping over as neat a deal, from his angle, as has ever been negotiated. He secured Gregg at the cost of one young pitcher of some slight promise, another whose record is far less than brilliant and a second string catcher who will never rise above it. But the Naps, knowing that Gregg was of little use to them, feel they have not suffered by the trade. In fact they, too, have prospered by it.

The Boston team, however, are the greatly benefited ones. Gregg, in congenial surroundings, will step in and pitch his head off, and Gregg in such a mood, is undoubtedly as good a southpaw as there is in the game today. The addition of Gregg to the Red Sox payroll means that Boston's chances for a pennant are greatly fattened. Many declare that the Red Sox are now prepared to make it warm and sultry for the Athletics in the pennant encounter. And Boston fans are cheering lustily.

THE TWENTY YEAR TEST.

During all these years I have used it and recommended it many times, and it has never disappointed anyone." For sale by all dealers.—Adv.

THE CASE OF L. L. CANTELOU.

The case of L. L. Cantelou, Clarendon, Texas, is similar to that of many others who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says: "After trying a doctor for several months, and using different kinds of medicine for my wife who had been troubled with severe bowel complaint for several months, I bought a 25c bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After using the second bottle she was entirely cured." For sale by all dealers.—Adv.

Manager Dornick, of the Shamrocks, has booked a game for Sunday at Delphos, Ohio. The locals will leave over the Ohio Electric on the 11:05 car Sunday morning.

NOT SO STRANGE AFTER ALL.

You may think it strange that so many people are cured of stomach trouble by Chamberlain's Tablets. You would not, however, if you should give them a trial. They strengthen and invigorate the stomach and enable it to perform its functions naturally. Mrs. Rosie Rish, Wabash, Ind., writes: "Nothing did me the least good until I began using Chamberlain's Tablets. It is decidedly the best medicine for stomach trouble I have ever used." For sale by all dealers.—Adv.

Men CURED to Stay Cured

By up-to-date methods, without pain, inconvenience or loss of time. Weakness or Lost Vitality, Blood Poison, Varicose Veins, Hydrocele, Kidney and Bladder Diseases, Piles, Fistula, Contracted Diseases and ailments of men.

For years I have treated MEN'S DISEASES ONLY. I can cure you if anyone can. Do not let money matters detain you. Come at once. COME TODAY.

Consultation and Examination Free.

WEAKNESS, LOST VITALITY.

My combined treatment for these troubles so common among those who have become weak and worn out, is remarkably good. No one believes how quickly it benefits until they have taken it. It overcomes weakness, nervousness, pain in back, lack of energy, ambition and strength—it's just the treatment I have found so effective in treating such cases. BE A MAN ONCE MORE.

BLOOD POISON, OLD SORES, LUPUS, EPITHELIA GROWTHS, and all skin diseases are permanently and forever cured by Dr. Moreland's Specific Blood-Cell Remedies. They act directly on the Blood Cells, eliminate the poison and restore the internal organs to their normal conditions. I am particularly anxious to hear from men who have been treated by other physicians without receiving any beneficial results or a permanent cure.

VARICOSE VEINS CURED.

I cure this affliction without pain or detention from business. Soreness, swelling and congestion of the dilated veins vanish quickly. Losses are checked. A healthy circulation of blood is re-established, the atrophied parts are developed, and the old-time feeling of warmth, vigor and vitality speedily returns. Avoid dangerous operations. I can give you the quickest, safest and surest cure known to medical science.

CONTRACTED DISEASES

IN CONTRACTED DISEASES my patients are thoroughly cured in less time than any other less thorough forms of treatment require in producing doubtful results. I don't use strong, painful, injurious injections that do great harm. My method cures without pain; gives immediate benefits and a lasting cure.

KIDNEY AND BLADDER DISEASES QUICKLY CURED.

They are often caused by early excesses, alcoholic liquors and severe sickness, the usual symptoms being chilly and feverish spells, wornout feeling, puffiness under the eyes, drains, smarting, burning and swelling. My long study and extensive practice in treating Kidney diseases practice in treating Kidney diseases curative steps. I determine the condition by analysis of urine, and the many severe kidney troubles I have cured, after they had been given up by other doctors, give me great confidence in my method.

SHOP AND RAILROAD NEWS

A. G. KROCK IS INJURED

Well Known Pennsylvania Trainman in Accident at Ada Tuesday.

Conductor A. G. Krock, of the Pennsylvania, is temporarily out of service as a result of an accident at Ada, Ohio, at 9:20 o'clock yesterday morning. He was doing some shifting of cars on a siding at that place, when he was caught between two of them in such manner as to painfully sprain and bruise his back and cut and contuse his head. Mr. Krock, since the lull in business set in, several months ago, has been serving as flagman for Conductor Anderson on the Lima-Crestline local freight train. Fort Wayne is his home, however, and he resides on east Wayne street.

ONLY ONE CHANGE.

L. E. & Ft. W. Road Puts Up a Directorate.

George R. Evans was elected a director of the Lake Erie and Fort Wayne road at the meeting yesterday afternoon, succeeding the late A. E. Hoffman. The board in its entirety is as follows: E. F. Yarnelle, John T. Evans, W. J. Vesey, John W. Sale, Robert Millard, James McKay, W. T. Graeter, Louis Fox, B. Paul Mossman, George P. Evans and H. C. Rockhill. The officers of the railroad, which owns the spur track at the rolling mills, are: L. Fox, president; H. C. Rockhill, secretary; J. W. Sale, treasurer. The meeting was held in the office of Secretary H. C. Rockhill and it will be followed in a short time by another meeting, at which the officers will be elected. No changes are expected to be made in the roster.

MANY GOING VISITING.

According to the applications for transportation, members of the families of Pennsylvania employes have planned the following visits for the week-end: Mrs. William Kloepper and son to Cleveland; H. J. Malcom and daughter, Miss Arline, to Canton; Mrs. Alber Hettler to Pittsburg; the Misses Thelma and Violet Shookman to Warsaw; Mrs. R. E Neireiter to Warsaw; Mrs. J. E. Haines and daughter, Miss Vivian, to Chicago; the Misses Eileen and Madeline Bresnahan to Chicago; Mrs. H. L. Zollinger and son, Oscar, to Chicago; Miss A. Everding to Chicago; Misses Edna and Dorothy Daseler to Chicago; and Mrs. J. H. Likens and daughter, Miss Boneta, to Chicago.

A SAFETY FIRST INVENTION.

E. H. Moeller, clerk at the Nickel Plate offices, said yesterday that he had "just received a letter from a friend in Kansas who was in an automobile accident recently, who says he is working on a new speed indicator for automobiles in the shape of a music box. When the machine is running under 20 miles per hour the music box plays 'Home, Sweet Home,' and when the car exceeds that rate the box plays 'Nearer My God to Thee.' Af figuring on placing an order for a number and will give them to some friends who have recently had me out riding."

SAYS BUSINESS IS DULL.

Claude C. Hill, of Chicago, one of the best known general traveling agents of the railroads of this country, was in the city yesterday, calling on local agents and other friends. Mr. Hill said that as a whole the business of this section was below normal and he attributes it to the European war, which has greatly retarded the movement of farm products for export. Mr. Hill represents the Soo lines.

BETTER TIMES ON THE MONON.

The Monon shops at Lafayette, which were operated only to 50 per cent of their capacity early in the summer, are now rapidly approaching normal conditions. Monday a number of the suspended men were recalled and the working hours were increased to fifty per week. The Lafayette Journal says the forces are to be gradually increased until they reach the standard which prevailed prior to the reduction last April.

WAS OLD RESIDENT OF ADAMS.

Tomorrow J. F. Kiess, shipping clerk of the Fort Wayne Electric works, and his wife will attend the funeral of Joseph E. Mann at Decatur. The deceased was the husband of Mr. Kiess' sister. He was 70 years old and one of the pioneer residents of Adams county. The funeral will be held at noon at the M. E. church in Decatur.

WITHDREW SOME FIREMEN.

Business on the Grand Rapids and Indiana road, which a short time ago took on a boom and necessitated the recall of some furloughed men, has dropped down again and three firemen were furloughed this morning. They were J. Vanderlaan, H. E. Medaris and T. E. English.

LOCOMOTIVE CRANE REPAIRED.

The locomotive crane of the Wabash, which was pitched down a twenty-foot embankment and badly damaged at Wolcottville two weeks ago, was turned out of the local shops today and sent to Wolcottville to go in service in the gravel pits.

WILL VISIT OLD HOME.

Frank A. Opatz, assistant foreman of the Pennsylvania blacksmith shop, will spend his two weeks' vacation at his boyhood home, Cumberland, Md. He will leave for that city tomorrow. Mrs. Opatz and their son will spend the time at Lake James.

ATTENDING CLERKS' MEETING.

Oscar Rohrbaugh chief clerk to Master Mechanic G. W. Smith, of the Wabash, is attending a meeting of the chief clerks at Springfield, Ill. He left for that city last night.

CALLED TO FATHER'S BEDSIDE.

C. N. Rodgers and A. G. Rodgers, Nickel Plate brakemen, were called to Broughton, Ohio, yesterday by news of the illness of their father, an old resident of that place.

INDUSTRIAL NOTES.

The coal hopper at the Pennsylvania power plant is being repaired.

Engineer Peter O'Hara, of the Pennsylvania, is sick and off duty.

Engineer W. A. Parvin, of the Pennsylvania, has gone east to spend a thirty days' leave of absence.

Clerk E. W. Kochl, of the Pennsylvania east car shops, will go to Indianapolis today for a short visit.

E. R. Saffen, clerk in the Pennsylvania boiler shops, will leave Sunday for Sturgis, Mich., to spend his vacation.

Division Storekeeper E. L. Ensel is in Peru today on business for the Wabash.

Machinist Ed Ely resumed work in the Pennsylvania shops this morning. He was taken sick last week.

E. B. DeVilbiss, of the Pennsylvania motive power department, has returned from a business trip to Pittsburg.

Henry Burlage, of the Pennsylvania planing mills, who has been sick for two weeks, is out and will be able to resume work soon.

Mrs. F. Smith, mother of Clerk R. C. Smith of the Pennsylvania, left last night for Van Wert, O., to visit relatives.

Ed Tombaugh and G. M. Stoll are new names on the Wabash pay rolls. The former was assigned to the machine shop and Mr. Stoll to the pipe shop.

Miss Freda Glissman, daughter of a Wabash shopman, will leave the latter part of the week for Niagara Falls and Buffalo.

The Wabash had seven passengers for Florida yesterday. The company also sold a number of homeseekers tickets to other points.

Mrs. Johanna Harper, of Chillicothe, O., a sister to Dennis, Jerre, Jack and Michael McCarthy, well known engineers, is here for a visit.

Machinist William F. O'Conner resumed work at the Pennsylvania machine shop this morning. He was sick two or three days.

Dennis McCarthy, retired Nickel Plate passenger engineer, is at Columbus, O., spending a few days with relatives and friends.

C. W. Rodenbeck, H. Schrimp and D. E. Curry are absent from the Pennsylvania machine shop today. The two first named are sick.

Michael Shea, special man at the Pennsylvania shops' mechanical department, is on duty again. He was off duty a day or two to welcome a baby daughter, who came to his home.

D. H. Majors, one of the old employes of the Wabash shops, went to Peru today to enter the hospital for a course of treatment. He has been sick and unable to work for three months.

Assistant Foreman R. W. Evans of the Pennsylvania blacksmith shop, has completed a two weeks' vacation, spent at Lake James. He resumed work this morning.

F. A. Raney reported for work at the Pennsylvania blacksmith shop this morning. He was off duty a few days on account of his steam hammer being out of repairs.

Miss Helen Medsker, of Woodland avenue, has taken a position in the office of S. F. Bowser & Company. The young lady is the daughter of James R. Medsker, the retired Pennsylvania showman.

Within a week seven men were arrested and fined at Lake Manitou for using a trot line, fitted with small hooks. One of the victims was Conductor S. F. Oldham, of Peru, who was stuck in the sum of $19.50.

Charley Robinson resumed his duties in the office of the blacksmith department of the Pennsylvania this morning. He was at Huntington attending the funeral of Howard Thompson, a retired business man from Warren, Ind.

G. W. Schwartz, of St. Louis, Southwestern freight agent of the Vandalia, was in the city today and was escorted about the railway and shipping centers by H. M. Quicksell, Star Union Line agent.

Motive Power Supt. T. W. Demarest is in Pittsburg on business for the Pennsylvania. Chief Clerk W. L. Wilt and Chief Car Inspector O. J. Parks are looking after business for the company in Chicago.

J. Faye Szink continues to improve and it is believed he will be able to leave the hospital and go home the latter part of the week. He was struck on the head by a sledge hammer and badly hurt a wek ago.

L. E. Bittenger, who is off on an indefinite leave of absence on account of sickness, called at the Pennsylvania motive power offices this morning to see his office associates. He has commenced to improve, but will not be able to clothe the newcomer. Then the girl's mother, Mrs. Clark, took the witness stand, and for a half hour staged one of the most beautifully Irish monologues that ever had its setting in the city court. Her testimony, however, was interrupted by sobs and personal argument with the attorney for defendant. Her story, however, failed to prove that Dellerocco had failed to provide for his child, and the case was continued indefinitely. The defendant said he intends to file suit for divorce from his wife, but is willing to support the child.

Drunks Are Fined.

Dick Brennan and Arthur McCann, charged with public intoxication, were fined each $5 and costs, and Jack O'Connor and John Van Allen, picked up Tuesday drunk and fighting, were each fined $1 and costs. Jack Perkins and John Jones on similar charges were let go. Frank Langer and Henry Trautman, expressmen, charged with obstructing the streets with their wagons, appeared on continued cases and promised to stop their habit of parking their wagons in the business district. Judge Kerr told them that the next offense would bring a fine and jail sentence to each of them.

Stanley Shulinski, Adam Waska and George Adams were in court Wednesday morning to answer to a charge of disorderly conduct. They staged a fight in the east end last week in the rear yard of a Polish shoe shop and general store and the owner wanted them punished. All were let go after testimony in the Polish tongue had occupied the attention of the court for nearly an hour.

BEATEN AND ROBBED.

E. F. Brown, 1005 Columbia avenue, appeared at the police station early Wednesday morning with a bloody and badly mutilated face and said he had been knocked down and robbed of $5 near the alley between Columbia and Main streets. A search for his assailant was made but the fellow had made a getaway.

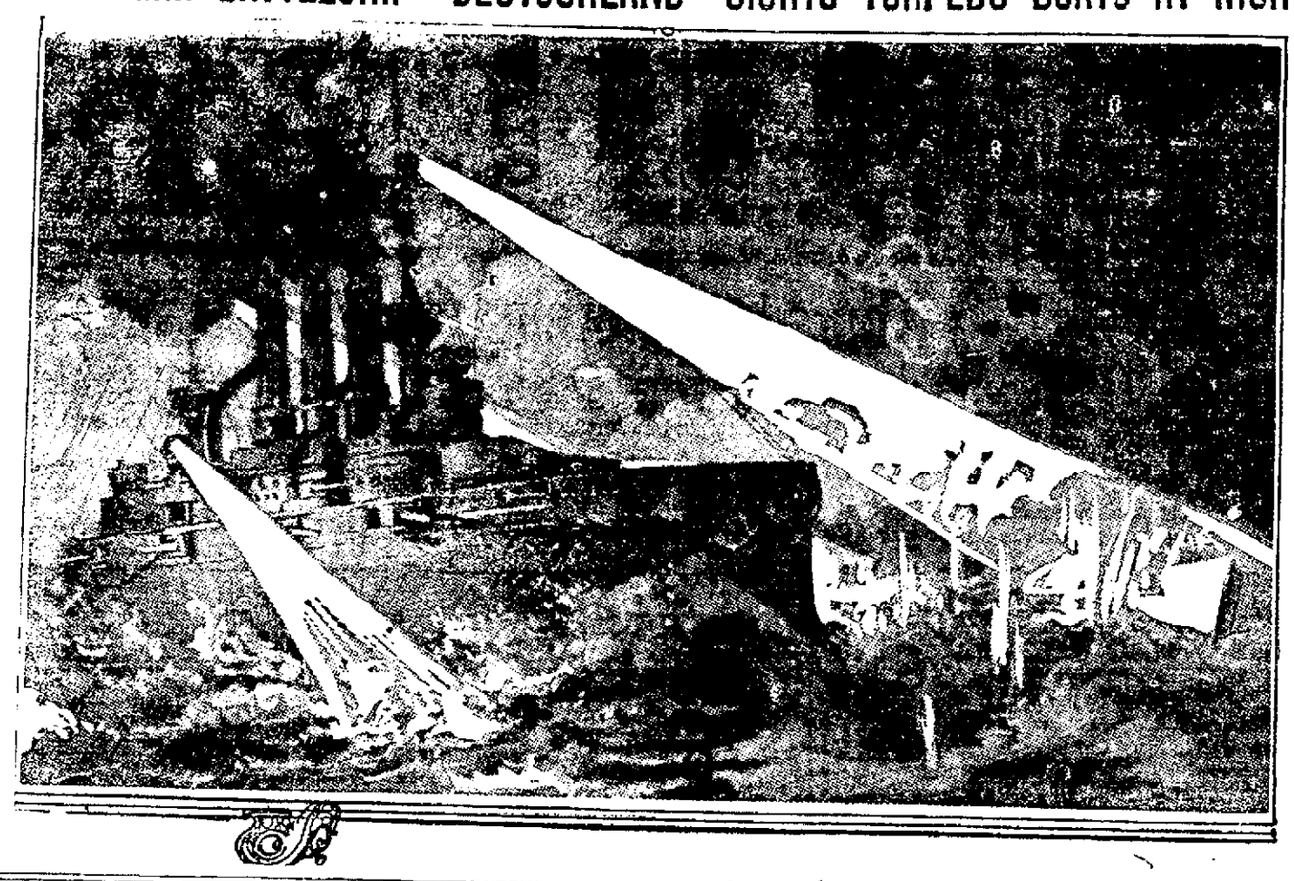
GERMAN BATTLESHIP "DEUTSCHLAND" SIGHTS TORPEDO BOATS AT NIGHT



AN INTERNATIONAL SCRAP IN COURT

Irish Mother-in-Law of An Italian Occupied the Stage.

Clemento Dellerocco's Irish wife got it into her head some time ago that her husband, to whom she had been married two and one-half years, was untrue to her. She also entertained the belief, it seems, that he was not supporting her or her seventeen-months-old baby in proper manner, so she wrote a letter to her mother, Mrs. Clark, in Toledo. Mrs. Clark, with true mother-in-law instinct, rushed to Fort Wayne and immediately things started, and the semi-windup was staged Wednesday morning in the municipal court, where Dellerocco was brought on a charge of child neglect.

Witnesses testified that Dellerocco had always provided for his wife and child, had good credit with the family grocer, worked every day and bought sufficient clothing for his wife and child. Mrs. Dellerocco, who is to become the mother of another child, tearfully sobbed that her husband had made no preparation to clothe the newcomer. Then the girl's mother, Mrs. Clark, took the witness stand, and for a half hour staged one of the most beautifully Irish monologues that ever had its setting in the city court. Her testimony, however, was interrupted by sobs and personal argument with the attorney for defendant. Her story, however, failed to prove that Dellerocco had failed to provide for his child, and the case was continued indefinitely. The defendant said he intends to file suit for divorce from his wife, but is willing to support the child.

WHITE SOCKS MAY HAVE TO BE WORN

Knitting Mills of Country Cannot Get Dye from Germany.

People of the United States may be compelled eventually to wear white socks and stockings exclusively because of the European war, according to local men interested in the knitting industry.

White socks are now regarded as a fashionable article of apparel, but like most fashions in articles of clothing, if one is compelled to wear 'em, they usually go out of style.

Whether or not the compulsory wearing of white stockings becomes effective, depends almost wholly upon the question of whether or not the dye manufacturing companies of this country can keep pace with the demand, because it is impossible for knitting factories to obtain dye from Germany, its chief center of production.

Manufacturers of high-class hosiery in this country depend upon Germany for their supply of solid dye, and it is reported that only about enough German dye to supply the trade six weeks is obtainable. At the Wayne Knitting mills here it is said that there are three concerns in the east that supply dye for knit goods, and it is not likely that these plants can take care of the enormous demand that will follow the close of merchandise shipping between the United States and Germany.

It is said that the Wayne Knitting mills here purchased a large supply of dye only a short time ago, and have enough of the product on hand to operate with foreign made dye for at least three months.

GIRL RULER OF THE GRAND DUCHY OF LUXEMBURG, WHO FACES GREAT CRISIS

MARIE LOUISE ADELHEID, GRAND DUCHESS OF LUXEMBURG.

Just out of her teens, Grand Duchess Marie of Luxemburg faces a crisis in her career as ruler of the second smallest kingdom of the world, for the Germans have ignored the neutrality of Luxemburg and used that route to advance into France.

The small grand duchy lies in the direct line between Berlin and Paris, although not connected with the latter city by railroad. The fact that its fortifications were dismantled and there is no chance to offer any defence against an invasion makes it the logical point from which the Kaiser can pour his troops into France, and he has made the most of it.

WILL GO TO DECATUR.

Wayne Dramatic Club Will Put on a Show at the Bosse Opera House.

Officers of the Wayne Dramatic club a local organization, announced Wednesday night that the club will go to Decatur next week, Thursday and Friday evenings, and stage a show at the Bosse opera house of that place. A six act vaudeville show is the attraction they offer.

The club is composed of some of the best amateur actors of the city and is sure to meet with success. A rehearsal will be held Wednesday evening of this week at St. Paul's school auditorium. The business managers will make a trip to Decatur Thursday to make preliminary arrangements and also put the tickets on sale.

We often have visitors go through our bakeshop who are agreeably surprised at the utmost cleanliness prevailing in every corner of our establishment as well as the great care and absolute sanitary methods employed and purity of materials used. STRATEGIC POINT SEIZED BY GERMANY IN FIRST MOVE OF HER ATTACK ON FRANCE

LUXEMBURG; WHENCE THE GERMANS ARE INVADING FRANCE.

Germany's first move toward the invasion of France was the seizure of the Luxemburg railway lines by German troops. The stations and bridges were taken over by soldiers. These steps were taken by the Germans to assure the rapid transportation of troops across the territory of the Grand Duchy of Luxemburg. The invasion of Luxemburg shows clearly that Germany had determined upon a course of action in which all the ordinary conventions of international conduct were to be swept aside. The neutrality of Luxemburg was guaranteed by the Treaty of London, signed in 1867. Possession of Luxemburg gives Germany opportunity to strike at France on her own border, or to move quickly toward Brussels. In seizing the Grand Duchy, therefore, Emperor William has improved his strategic position in that there is no bar to his movement toward France directly on the west or on England and France together, through Belgium on the northwest.

GERMANS TRY TO REPEAT EXPLOIT OF 1870

Invade France on Same Day of Same Month and at Same Points—Story of the Franco-Prussian War Retold.

Born in the blaze of battle forty four years ago, two great nations, France and Germany, are today repeating with uncanny similarity even in date and site,

French cavalry officer in the new French uniform recently adopted.

the conflicts of the last great European war.

tactics of their last war. But at that with a fierce fight between German and French troops at Saarbrueck not eighty miles from Longwy, where the first Franco-German battle of this present and most frightful of European conflict has just been waged, on the same day August 2!

In 1870, just as today, there were three chief points where the big German armies crossed the French border. The Germans, in fact, are now repeating the tactics of their last war. But at that time German victory followed German victory with terrible rapidity, and as a result came the formation of the German empire, with King William of Prussia as emperor. And the successive defeats of Napoleon III. of France culminated in his capture and downfall, and the establishment of the French republic.

The two nations thus formed are today flying at each other's throats once more, with all the vengeful hostility engendered in that former conflict. To really understand the whole meaning of this bloody European crisis of 1914, it is necessary to call to mind the dramatic history of the struggle of 1870.

It was caused by Prince Bismarck's determination to place Prussia at the head of a united Germany, and by France's jealousy of her hereditary enemy's threatening growth. But hostilities were actually precipitated by a very trivial incident, just as in the present war.

The French ambassador, Benedetti, demanded of King William of Prussia that no prince of his line should ever accept the throne of Spain. The king refused to listen, and made public excerpts from Benedetti's demand. A few days later, July 19, 1870, France formally declared war.

Germany's "mailed fist" struck before France had half a chance to prepare herself. Germany had a fighting force of over 520,000 in the field at once. The French had confidently expected to be able to mobilize 500,000 men instantly, but found that only 250,000 were available for the military movements during August.

After the first conflict at Saarbrueck, on August 2, in which the French were victorious, there occurred a fierce attack on the German advance guard near Weissburg, in Alsace. The French troops retired with heavy loss. The German invasion progressed rapidly.

In battle after battle the French inflicted losses much heavier than their own upon the enemy, but were each time

German infantryman in dress uniform, gray-green color.

defeated. Finally, on September 2, the French emperor and all the army under his command was captured at the battle of Sedan. There was one army left to France, but it was bottled up in the fortified city of Metz, under the command of Marshal Bazaine, who, after a daring attempt at a sortie, was forced to capitulate on October 27.

The German troops now had an open road to Paris, and they invested the capital at once. The Parisian had proclaimed a republic, after Napoleon's downfall at Sedan, and organized a government for national defense, of which Leon Gambetta, the great French statesman, was one of the chiefs.

Gambetta put aeronautics, which are playing so striking a part in the present strife, to the first successful use in war.

He escaped from besieged Paris in a balloon and attempted to raise more troops in the south of France. But this dramatic deed was vain, and by the last of January, 1871, Paris was at the point of starvation, and was forced to capitulate.

The amazing exactions of the victorious Germans in the huge indemnity they exacted, and their annexation of Alsace-Lorraine, have never been forgotten by France. The hates and fears and alliances which sprang up throughout Europe as a direct result of the Franco-Prussian war of 1870, are, together with the vengeful spirit of France, some of the most prominent causes in this terrific European conflagration of 1914.

GERMANY LOSES THREE SHIPS IN SEA FIGHT

French and British Cruisers Attack Kaiser's War Boats That Bombarded Algerian Port

Algiers, Via London, Aug. 5.—Authentic confirmation of the report of the destruction of the German cruiser Panther and of the capture of the German cruisers Goeben and Breslau reached here today.

LONDON GETS THE NEWS.

London, Aug. 5.—A dispatch to the Chronicle from Paris says that after bombarding the Algerian town of Bona, the German cruisers Goeben, Breslau and Panther were caught by British and French squadrons which had been awaiting them. The French warships captured the Goeben and Breslau and sunk the Panther.

PARIS CONFIRMS IT.

Paris, Aug. 5.—It is officially confirmed today that the German cruiser Breslau bombarded Bona, a fortified seatown in Algeria. The cruiser fired sixty shots to which the port batteries replied. Details of the fight are lacking. Later the Breslau sailed in the direction of Gibraltar and is supposed to have been captured by the British fleet, which is guarding the straits. It is reported from Calais that French torpedo boat destroyers captured two large German sailing ships.

ENTHUSIASM FOR BATTLE

Extraordinary Scenes in French Parliament on War Measures.

PRESIDENT MAKES FERVID ADDRESS

Germany Arraigned for Her Aggressions and Allies Are Praised.

Paris, Aug. 5.—Extraordinary enthusiasm was called forth in the French parliament last evening by the reading of an address to the French nation written by President Poincare.

"Our nation is in arms," said the president, "and trembling with eagerness to defend the land of our fathers.

"France is faithfully supported by her ally, Russia, she is upheld by the loyal friendship of England and already from all points of the civilized world go out to her expressions of sympathy and good will for she represents today once again before the universe, liberty, justice and reason.

Lift up your hearts! Long live France!"

Germany is Arraigned.

Afterward Premier Viviani recited a catalogue of alleged German aggressions which he said had gone on for 40 years. He declared France had borne them with remarkable equanimity in her deep attachment to peace. He continued: "Unless sacrifices, sterile compromises and other efforts were in vain since today while reverently promoting peace our allies have ben attacked by surprise.

"The liberties of Europe have been attacked and France and her allies and friends who are proud of them are also proud to be their defenders.

"We shall defend them because they alone are threatened. All the rest is only vain pretext."

Antoin Dubois speaker of the senate, read President Poincare's address and then Premier Viviani made a declaration similar to the one he had made in the chamber.

Sick Are Carried In.

Several sick senators were carried to their seats as they were unwilling to be absent from the historic session. Both houses adopted without dissension, the financial bills introduced by the government and others for the relief of families of soldiers, ratifying martial law and imposing heavy penalties on newspapers publishing false news. An amendment extending the moratorium to all the French colonies was passed unanimously. All the deputies rose to their feet in support of a bill to confer French nationality on natives of Alsace and Lorraine enlisting in the French army.

Assistance was given today by the American church to a number of destitute Americans.

Thirty Thousand There.

Elbert H. Gary, chairman of the committee for the assistance of Americans said he supposed there were over 30,000 Americans in Europe desirous of returning to America and about 7,500 in Paris of whom perhaps 1,500 were in desperate straits. The number of Americans who travel in Europe with limited means was astonishing, he said, but he thought the commission would be able to cope with the majority of the cases, provided aid were received from the state department. James Gordon Bennett, publisher of the New York Herald, was among those called upon to give up their automobiles and horses to the government. A large number of tourists from Switzerland, among them many Americans and delegates of the church peace union whose proposed conference at Constance on Aug. 2 was abandoned have arrived in Paris with tales of their experiences. They were met politely but at the point of the bayonet at the French frontier and asked to show their credentials. Later on at Besancon they were compelled to change trains at night during a rainstorm. They were put into freight cars used for the transportation of troop horses and had little to eat or drink. The French showed them every courtesy compatible with the exigencies of war. Inquiries were made by the delegates for Dr. Fred Lynch, who left for Constance last Friday but from whom no word had since been received.

Mrs. Potter Palmer, Mrs. Carolin and others were among those who applied to join the French hospital service.

GERMANS ON FRENCH SOIL.

Paris, Via London, Aug. 5. The French ministery of war today issued a communication that German cavalry and infantry were crossing the French frontier everywhere in reconnoitering parties. He adds:

"A squadron of German dragoons bore down on Villers la Montagne in the department of Meurthe et Moselle, but was repulsed by French riflemen.

"A regiment of German cavalry advanced as far as Morfontaine in the same department but fell back before a body of French infantry.

"The French mobilization is proceeding with the greatest order. Most of the reservists already have joined.

"An excellent spirit prevails in Alsace Lorraine."

Santos Dumont, the famous aviator, offered his services today to the French government.

The one armed French general Paul Pau, who fought in the war of 1870, has been placed in command of one of the French armies.

SUIT TO SETTLE DISPUTED POINT

County Treasurer Sues Bank to Enforce a Sale of Bonds.

A friendly suit was instituted in the superior court today by Herman Bonter, treasurer of Allen county, against The German American National bank out of which it is proposed to obtain an Indiana supreme court ruling on the question of whether two townships are bound by the law that limits the bonded indebtedness of each to 4 per cent. of the tax value of its property.

In his complaint the treasurer sets out that following the establishment of the Rohrbach road on the line between Monroe and Madison townships a sale of bonds was duly advertised and that the German American National bank became the purchaser at a bid approximating $5,289.

He further states that the bank officials refused to take the bonds. This is true but the refusal is in no way a breach of faith as it was intended at the time of the sale to test the legality of bonding the townships jointly for the stone road that placed an indebtedness on them beyond the limit either is permitted to contract alone.

Unless it is shown that this can be done it will be a great many years before either can build any improved road as it will take a long time for the townships to cancel the debts that are now standing against them. County Attorney Hoffman filed the suit.

James Goodfellow was Wednesday appointed by Judge W. C. Ryan in the superior court receiver for the Norman Hendrickson saloon on Wells street in Bloomingdale. He gave bond for $4,000. Action was brought by Freese & Gale, and this is the saloon for which transfer of the license was sought on Monday of this week. Action was withheld by the county commissioners pending a settlement with the creditors.

Struck Her With Crutch.

Mary Ritter's chief complaint against William Ritter in a divorce action filed in the superior court Wednesday is that he struck her with a crutch. She says also that he struck her with other things, but the crutch blow is the one that brought about disruption. She makes a demand for $5,000 alimony. William Fruechtenicht filed the suit.

Admitted to the Bar.

Harry W. Muller was admitted to practice of law on the recommendation of a committee composed of Judge S. L. Morris, Harry G. Hogan and Charles B. Aldrich.

Marriage Licenses.

Robert H. Board, 21, barber, and Florence G. Knox, 21.

Howard Bigelow, 34, clerk, and Mary G. R. Rhodes, 29.

Robert M. Boyle, 19, teamster, and Mary M. Williamson, 17.

CUP RACE IS OFF.

New York, Aug. 5—Sir Thomas Lipton's formal withdrawal from the international cup yacht race this fall, announcement of which came to New York early today, was received with no surprise in yachting circles. Sir Thomas had said before that he would not race in the event of England's going to war. The British government's declaration of war with Germany therefore automatically cancelled the proposed contests. In a short time the American cup defense candidates Vanitie and Resolute will go out of commission.

GETS LETTER FROM BRUDER

Local Jeweler in Germany is at Home of His Relatives.

LOCAL RESERVIST GOES TO CHICAGO

Fort Wayne Postal Officials Get War Orders from Washington.

A letter from August Bruder, the Fort Wayne jeweler who is detained in Germany, was received Wednesday morning by J. A. Calhoun, secretary of the company, and he was informed that Mr. Bruder is at Waldkirch at the home of relatives. The letter was dated July 23 and contained an outline of the route Mr. Bruder had expected to take en route home.

He intended to leave Baden-Baden for Waldkirch and stay there until today when he was to have left for Berlin for a two-day visit and then to Hamburg, leaving that city August 12 on the Vaterland for the United States. Mr. Calhoun expects another letter from Mr. Bruder within the next few days.

Ordered to Report.

Ernst Koch, waiter at the Baltes hotel, received a telegram Wednesday morning from the German consul at Chicago asking him to report at once and the young man will leave for Chicago at 2:20 Thursday morning. Koch is a member of the German army and is connected with the interior service. He has been in this country but eighteen months.

Others Hear From Friends.

A cablegram received Wednesday morning informed Mrs. Robert Millard that Mrs. N. D. Doughman is in Venice.

Officials of the Young Woman's Christian association have received no word from the former general secretary, Miss Cora Finkham, who with Miss May Williams is in Europe, and they are anxiously awaiting some message that will assure them of their safety.

No word has been received by Kerby Jackson, of 223 Brackenridge street, from his daughter, Miss Grace E. Jackson, who is touring Europe with a party of Chicago people and the Misses Shryock, of this city. The last news from her was contained in a postal card mailed July 24 at Lindau on Lake Constance, Switzerland. The letter stated that the party was due in Rome today.

Stop Parcel Post.

Postmaster Robert B. Hanna received a message Wednesday morning from Postmaster General A. S. Burleson, stating that the postal administrations in France and Germany informed the department in the United States by cable, that parcel post service between those two countries and the United States is suspended until further notice is given. The order received here also states that the postmaster must decline to receive parcel post packages for Germany or France until further advised and that those mailed before the order was issued will be returned to the sender.

Limit Money Orders.

Another notice received is from the international money order office. It reads:

"To aid the return home of Americans now in Europe, all postmasters at international money order offices, until otherwise advised, may issue money orders in their favor upon due application, limiting the amount to $100 for each person. No orders are to be made for more than that amount."

Returns to Germany.

Hans Mihan, employed at the Moeaman-Yarnelle company's plant, left Fort Wayne Tuesday for Cincinnati for a conference with the German consul there preparatory to his departure for Germany. The Mihan family owns large estates in Germany, and Hans Mihan is still an attache of the Kaiser's army. He has one brother now in active service on the French frontier and another brother along the Russian border. His father is stationed in one of the inland barricks.

Word From Michel.

Two postcards from Charles J. Michel the Bloomingdale grocer, now detained in Germany, were received by his family here Tuesday evening. They were dated and mailed in Germany July 25, and stated that Mr. Michel was in the best of health and having a good time, and enjoying his stay in his native land.

At Isle of Wight.

Word was received in Fort Wayne Wednesday informing local relatives and friends that Mrs. C. S. Knight and daughter, Alice, and Dr. Allen Hamilton and family are at the Isle of Wight.

Many Fort Wayne people are also interested in the location of Mrs. Charles Hans, of Wabash, well known in this city.

GERMANY IS NOW SHUT IN

(Continued from Page 1.)

lish coast. Communication with England over these lines was still being maintained. No hope was held out, however, for any immediate restoration of communication with Germany over the direct lines.

Complete German Isolation.

The cutting of the German cable between Emden and the Azores virtually completes the isolation of Germany from communication with the outside world, except in so far as messages may be exchanged by wireless.

All direct communication with the United States is severed; hereafter all news of happenings in Germany will have to filter through hostile countries; Russia on the east, France on the west and England on the north.

All the submarine lines in the Mediterranean sea belong to the Eastern Telegraph company, a British concern, and any German news that did make its way to Southeastern Europe through Austria-Hungary would not be transmitted over the lines of this company.

News of the cutting of the German lines between Germany and England may be expected at any moment. Already these lines are in the hands of British authorities where they land on British territory.

The only other possible outlet telegraphically, for Germany, is to the east but on this side she is hemmed in by Russia, with whom she is at war. All the land lines from Germany in every direction except to Austria-Hungary, already have been severed.

Must Be Relayed to England.

Any cable communication to the north, to Norway and Sweden, which may still be in operation, is comparatively valueless for the reason that news so transmitted, to reach the outside world, would have to be relayed to England.

The last direct Berlin message received by The Associated Press was between 12 and 1 o'clock last night. It was the official account of the British ambassador's formal announcement to the German foreign office of the declaration of war, and the ambassador's request for his passports.

Up to this time direct communication over the line that was severed today had been constant and quick although subject of course to censorship at Berlin.

The Atlantic Communication company, a German wireless organization, has a high power station at Sayville, Long Island, N. Y. This station has at times communicated successfully with Nauen, near Berlin. The company announced Sunday that it was closed for all private business, having been turned over to the German government.

C. Simon, of the Simon Sample Shoe shop, Shoaff building, has gone to Boston and other eastern cities to purchase fall stock.

Wealthy American in London Society

Mrs. J. B. Eustis

London, Aug. 3.—Mrs. James B. Eustis, wife of the former United States ambassador to France, has walked right through the barriers the American colony placed between her and smart London drawing rooms.

Notwithstanding her wealth and beauty, Mrs. Eustis was "cold shouldered" by the London American colony when she sought social recognition last spring, but recently a few of the most exclusive Londoners gave a grand ball for Mrs. Eustis and now she's the most popular American woman in London.

BEVERIDGE WILL OPEN CAMPAIGN

District Progressives to Hold Big Rally Here Thursday.

Progressives of Allen county and the Twelfth congressional district will officially open their campaign with what is scheduled to be a big rally and celebration in this city Thursday. Progressive delegations from each of the six counties of the district will reach the city early Thursday morning, many coming by automobile, for the purpose of participating in the automobile parade to be held at noon, as the opening feature of the rally.

Hon. Albert J. Beveridge, of Indianapolis and other speakers for the new party will reach the city at 11:45 o'clock Thursday morning, coming from Michigan City, where they speak this evening. The party will include besides Mr. Beveridge, State Chairman E. C. Toner, Oswald Ryan, of Anderson, and Paxton Hibbins, candidate for congress in the Seventh district. Jeanette Funk, of Chicago, another of the speakers, will arrive earlier Thursday morning and will occupy the place on the program, to have been filled by Miss Jane Addams. Bernard B. Shively will be in the city for only the evening meeting.

Both the afternoon and evening meeting will be held at the Majestic theater, and H. M. Widney, of St. Joe, progressive candidate for congress in this district, will address both sessions, delivering the keynote speeches of his campaign.

WOMAN'S DAY IS BIG DRAWING CARD

Big Crowds at Park for the Summer's Principal Feature.

So great were the crowds at the transfer corner shortly before noon, awaiting cars to take pleasure-seekers to Robison park for the annual woman's day program, that at times the streets were nearly impassable and it was with difficulty that a sufficient number of cars was pressed into service to accommodate the patrons.

Robison park is filled with one of its biggest crowds of the season, and in connection with the regular features there is in session an old ladies' congress. Weather conditions are perfect for the day and at a late hour Wednesday afternoon Manager Williams reported that each event on the program was moving along with as much success and as rapidly as possible.

A program of many contests is being carried out and it is said that the hard times parade, one of the special features, promises to be one of the biggest and best events of its kind ever staged at the popular resort under the management of Mr. Williams. Judges in the contests are having a hard time to determine the winners, and it was believed that the entire list of contests would not be completed until evening.

CURTIS SEEMS TO HAVE WON.

Topeka, Kan., Aug. 5.—Returns from yesterday's primaries in Kansas were not complete enough early today to determine the democratic nominee for United States senator. Hugh F. Farrell, of Chanute and Congressman George A. Neeley, of Hutchinson, appeared to be running a close race and leading the field of seven candidates. As returns came in the belief grew that Senator Joseph L. Bristow had been retired in favor of Charles Curtis as republican nominee for the senate. Congressman Victor Murdock as progressive candidate for the senate, was also popular.

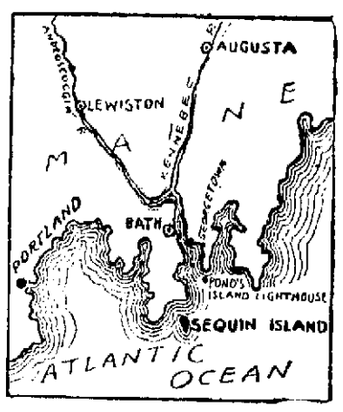
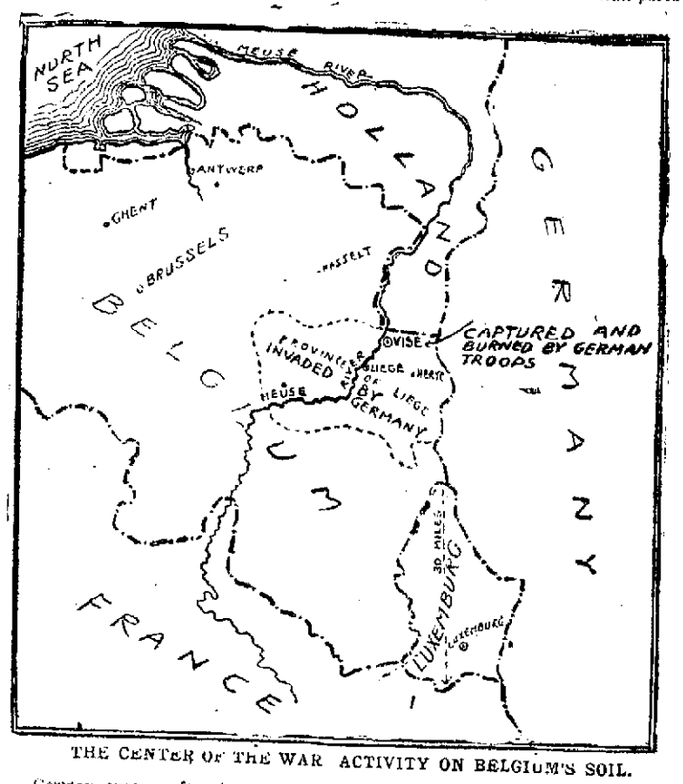
WHERE THE MAINE COAST IS EXCITED TODAY



Heavy cannonading off the coast of Maine, in the vicinity of Sequin island was heard this morning, which lead to the belief that French war vessels are in pursuit of German steamers attempting to escape from American ports.



THE CENTER OF THE WAR ACTIVITY ON BELGIUM'S SOIL.

German troops after burning several towns in the province of Liege, in Belgium, yesterday and this morning, overspread a portion of the province and have occupied a number of important points with the hope of commanding a communication with the coast of the North Sea by way of the Meuse river which flows northward through Holland. The position is also designed to allow the Germans freer access to Germany in the region of Luxemburg, which has been occupied for several days.

OLD SETTLERS WILL MEET.

Two Counties to Boost Meeting Set for August 19.

Ridgeville, Ind., Aug. 5.—The twenty-eighth meeting of the old settlers of Randolph and Jay counties will be held at Ridgeville, August 19. This meeting has become an established affair that is looked forward to each year by thousands of people. Every year has witnessed a growth in interest and attendance, until the meeting has become the largest and best known old settlers' meeting in the state of Indiana. The average attendance has run from 25,000 to 30,000, and those having charge this year are confident that the present meeting will be greater than ever.

MERCHANT SHIPS HASTEN TO PORT

German Liners Have Put in at New York and Philadelphia.

New York, Aug. 5. Another German liner whose whereabouts has been sealed, the Kronprinz Wilhelm II, of the North German Lloyd line, arrived safely in port at half past four this morning. The usual wireless signals announcing her approach to port, given at Cape Race or Sable Island, were lacking about the time they should have come and as the Kronprinz Wilhelm was due in port yesterday some apprehension was felt regarding the steamer. With her arrival, it was learned that the wireless was purposely omitted because of the war situation and the steamer made her way to port as secretly as possible. The Kronprinz Wilhelm II is from Bremen, South Hampton and Cherbourg with about 250 passengers, mail and a valuable cargo, etc. She Cherbourg Wednesday night, July 29.

Nothing has been heard of the German liner Kronprinz Wilhelm since the steamer slipped out of New York harbor Monday. The agents of the liner said that so far as they knew the steamer was bound for Bremen under orders received from Germany.

The 6,036 tons of coal taken along which is 2,639 more than the steamer usually carries, is to use in an emergency, it was explained as the steamer may have to make a dash for a neutral port.

The French steamer Venezia, in port today from Marseilles, Naples and Palermo, reported that yesterday she overheard both German and British cruisers talking with the wireless station at Sayville, L. I. The text of the messages was not obtainable. The Venezia steamed ten miles south of her usual course in order to avoid capture by any German warships. Her operator was warned not to send any wireless messages.

The Uranium line steamer Uranium arrived today from Rotterdam via Halifax.

The Hamburg-American liner, President Lincoln, from Hamburg and Southampton, arrived today. When she discharges her passengers and cargo she will probably join the big fleet of steamers already interned in port here.

The French liner La Lorraine, bearing more than 700 French reservists, left her pier for France shortly before noon today.

The British freight steamer Etonian, which left New York yesterday for Antwerp, put back today when about sixty miles east of Sandy Hook. She received word last night of the declaration of war between England and Germany and returned to port rather than risk capture.

The captain reported that about 9:30 o'clock last night he sighted what he supposed was a war vessel. He could not make out the vessel's identity in the darkness.

OLYMPIC BRINGS TREASURE.

New York, Aug. 6.—The steamship Olympic, which reached her dock today brought millions of dollars worth of American securities from London which were dispatched for delivery on sales made in the days of the great liquidation last week. The value of Europe's consignments expected on the Olympic and other steam-ships was estimated in conservative quarters at $25,000,000, although the total sales made by cable in the vast outpouring of stocks had been figured at $50,000,000 at least. A considerable part of the securities sold was held in this city by bankers and brokers for foreign account and many of the stocks and bonds have already gone to the buyers. Because of financial arrangements already made, the over-sea bonds and shares will be absorbed without difficulty.

GERMAN LINER MAKES PORT.

Philadelphia, Aug. 5. The North German Lloyd liner, Brandenburg docked here today after running for the past two days under forced draught and without lights. The Prinz Oskar, of the Hamburg-American line, also arrived today. Both ships were a day ahead of their schedule.

The Brandenburg sailed from Bremen on July 23, with 380 passengers for Philadelphia and 285 for Galveston. The Prinz Oskar sailed from Hamburg on July 22 with 360 passengers.

It is said by the steamship companies that both liners will remain in this port indefinitely.

There are now twenty-three foreign ships held up at port and thirty more are due within the next sixty days. No ships have left this port since last Sunday and insurance rates are so high that they are practically prohibitive.

DROPS APPEAL ON DECISION.

Union City Company Not to Fight Commission's Ruling.

Winchester, Ind., Aug. 5. The suit of the Union Heat, Light and Power company against the public service commission of Indiana was dismissed from the circuit court docket and the costs of the proceedings were taxed against the plaintiff. The suit was an appeal from a decision by the commission when it lowered the Union City gas rate from 81 to 56 cents a thousand cubic feet. It is understood the suit was dismissed by the plaintiff after a compromise had been reached.

The suit, it is said, was filed to have a test case against the commission, it being the first action of its kind.

PRODUCT OF BRAINS AND DETERMINATION, FLORENCE HACKETT REACHES TOP.

Florence Hackett

Florence Hackett is another instance of what talent, backed by brains and determination, will accomplish.

Two and a half years ago she was assigned by the Lubin management to Arthur Johnson's company. At first she supplied "atmosphere," played minor character parts and was always in readiness to undertake what a more important player would decline.

Then "second" parts were regularly assigned to her, and gradually the motion picture public came to associate her with Johnson's photo-plays. At last she was given her first character lead, and shortly afterward she scored a series of successes in widely different roles in two reel productions.

Today Florence Hackett's parts are written for the actress. Let it be said that they demand emotional strength and the ability to efface the player's personality. She can play either a self-centered society girl or a grief-crazed fish wife.

Miss Hackett's hobby is the study of clothes and the wearing of beautiful ones. She has original and entertaining theories regarding the science of dress.

FIRST LADY OF LAND VERY ILL

Condition of Mrs. Wilson is Giving Her Friends Anxiety.

Washington, Aug. 5. President Wilson has been at the bedside of Mrs. Wilson almost constantly for several days and her protracted illness of several months is causing worry in official circles. It was while sitting beside his wife, his constant helpmate and adviser, that the president wrote his message to the European crowned heads appealing to them to stay their conflict and discuss peace. Only those in closest touch with the president have known of the severe strain under which he has been during the last fortnight. Not only the press of domestic legislation and appointments, but the burden of direction of the relief of Americans abroad and the precautions for preservation of stable financial conditions at home have fallen upon him.

No announcements have been made about Mrs. Wilson's illness and persons at the white house were disposed to believed that she had slightly improved today, but her condition is nevertheless causing considerable concern. She first took sick last March and it is understood has been suffering from a complication of nervous ailments.

LUSITANIA GOES OUT FOR A RACE

Fast Cunard Liner Leaves New York in a Run for Home Base.

New York, Aug. 5. In the face of possible capture by German cruisers in the waters just outside the harbor, the Cunard liner Lusitania passed out to sea at 1:55 this morning on what promises to be a record-breaking trip to Liverpool.

The German cruisers known to be only a short distance off the coast are the Dresden, Karlsruhe and Strassburg. Two French cruisers, said to be the Conde and the Descartes, are also reported to be in the vicinity of the outbound trans-Atlantic lane.

While hoping to escape capture by the German cruisers by her speed, it was said the Lusitania's captain had the assurance of British naval authorities that he would be met off Fire Island by the British cruisers Essex and Lancaster and conveyed by them as far as New Foundland, where, it was reported, other British naval vessels would accompany the liner to the Irish coast.

Prepared for Speed.

Captain Dow before sailing said that his vessel was in fine trim and that he expected to make twenty five knots an hour all the way across.

The Lusitania slipped out to sea with her masthead and side lights showing, her 200 passengers having been notified that lights in staterooms might be blanketed when the vessel passed Ambrose channel. In the passageway oil lamps replaced the usual electric lights.

Among the ninety-three first cabin passengers were P. T. Hollingsworth, member of the American chamber of commerce in France; G. Menier, the owner of the Isle of Anticosti in the Gulf of St. Lawrence; Lieut. C. E. Lockhart, R. N., who sailed under orders to return to duty; J. J. Cawthra, of Toronto; Joquin Bonilla, consul general from Honduras to England, and a large number of newspaper correspondents bound for the scene of war.

OBJECTING TO STABLE.

Board Opposes Construction of Livery Barn Near School.

Terre Haute, Ind., Aug. 5.—The city school board instructed Ora D. Davis, attorney for the board, to ask the state board of health and the state superintendent of instruction in regard to the advisability of taking an appeal from the decision of Judge J. E. Cox, of the superior court, who held that the building of a livery stable within five hundred feet of a city school is not a violation of the section of the statutes which prohibits insanitary conditions within that distance and names stables as one of the insanitary conditions. Judge Cox held it was not proved that the stable would be a menace to the health of the school children.

The school is on the edge of the segregated red light district, and for several years there as been agitation in favor of enforcement of the law by which the school children might not be constantly within sight of immoral surroundings. No legal step was taken to reach the desired result. It was contended in behalf of the man who is to build the stable that he is removing worse conditions by clearing a site for his stable.

SCHOOL KIDS SHOW SNAKES, CATS, DOGS AND SILK WORMS IN NATURE EXHIBIT.

HAZEL FRYE EXHIBITING TWO OF THE "DOMESTIC SPECIMENS" AT PUBLIC SCHOOL NATURE SHOW.

Los Angeles, Aug. 5. With a sure-enough menagerie in the front yard and with the rooms of the building lined with exhibits and specimens, the virtues of which were proclaimed by youthful "ballyhoos," the second annual nature study exhibition was held in the Grand avenue school here recently.

Thirty-seven different schools of the city were represented in the show and each had a separate exhibit. Everything conceivable that was "natural" and could possibly be transported was brought to the exhibition by the pupils. There were turtles and horned toads and every now and then a feminine shriek proclaimed the fact that a snake had come into view.

One of the features of the display was an exhibition of reptiles collected by Carl Snyder, of the Logan street school. This youthful naturalist does his nature study at first hand. Without weapons of any kind he goes into the mountains and foothills and captures what ever snakes he runs across, using his bare hands. His exhibit included king, gopher, blue racer and water snakes, as well as horned toads and Gila monsters.

Much attention was attracted to the displays of animal industries of commercial value. The Gates street school with an exposition of the silk industry, and West Vernon with an exhibit of bees were the chief contenders for the prize in this division.

Dr. Charles Lincoln Edwards, head of the nature study department of the public schools, was in charge of the exhibition.

ONLY TWO ACTORS IN VERA CRUZ, AND THEY'RE MAKING A MILLION.

This is the pair that's getting the money in Vera Cruz. Alegrias and Enhart have the show business all to themselves. All others have left.

Vera Cruz, Aug. 5. There is only one place in Vera Cruz to go to in the evening—El Teatro Olimpia.

When you get there, there is only one act to see—unless you count moving pictures.

And this for the reason that there are only two actors—Alegrias y Enhart.

Finally, there are two actors in Vera Cruz, and two only, because Alegrias y Enhart are in and can't get out, while all the other actors in the world are out and couldn't get in if they wanted to.

Since leaving France to tour Mexico, Alegrias y Enhart have had tumultuous but profitable experiences. Wherever they have gone, war has followed.

Boom! boom! went the cannon. Rattlety-bang! went the musketry at Monterey, Mexico City, Torreon.

"Oh, dear!" says Alegrias, the juggler, yawning and crawling under the bed, "they're at it again!"

"Will they never give us peace?" inquires Enhart, the tumbling comedian, crawling after his team-mate.

But war pays. If the federals repulse the attacking constitutionalists, they celebrate by going to "el teatro." If the constitutionalists are victorious, they, similarly, take in the show.

Enhart kept two comedy uniforms at hand a federal and a rebel and now he has added to his wardrobe a mirth-provoking khaki suit, a parody on the kind that American soldiers wear.

As soon as the firing dies at the end of a battle Alegrias y Enhart crawl out from under their bed and show themselves in the street. They are promptly arrested.

"But," they explain, "we are the actors!"

That puts another face on the matter. Will the senors pardon? If would not do to arrest the actors, because then there would be no show.

The American soldiers, sailors and marines never get tired of Alegrias y Enhart, who are really clever. Especially do they demand the wrestling act—Enhart wrestling with an overcoat. The overcoat finally gets a full-Nelson on the comedian and presses his shoulders to the mat. The struggle is terrific.

A Sure Cure **MEN** A Small Fee

My method of treating Blood Diseases, Nervous Decline, Urinary Obstructions, Varicocele, Piles, Kidney, Bladder and all Disease of Men is unequaled and recommended by the many I have cured of these diseases. No incurable cases accepted.

914 For Blood Disease

Professor Ehrlich's IMPROVED SALVARSAN (or 606), the POSITIVE REMEDY for BLOOD DISEASE. It can have inflammation of the mucous membrane of the mouth and throat, eruptions on any part of the body, aching of the bones, spots and all discolorations of the skin, which signify serious blood infection, let me give you this FAMOUS TREATMENT. Results are marvelous, all symptoms vanish, immediately as if by magic. Under this system of treatment it is utterly impossible for poison of specific nature to remain in the blood and purity and health are the results. Few, if any, of these cases are hopeless—what is needed is the right treatment. I have seen and treated hundreds of these cases. What I have done for others I surely can do for you.

Nervous Decline or debility of men means DEBILITY of the nerves and nerve centers or general debility of the whole nervous system. No man can be strong if his nervous system is impaired because the nerves control the blood and when the proper circulation in any part ceases disease is bound to result. My thorough training has given me great advantage in treating pelvic disorders from which nearly all nervous disorders and debilities originate. Because I have thorough knowledge of the seat and cause of the disease, which is always necessary to insure success in treating any afflictions. My thorough course of treatment immediately stops nervousness, relieves backache, and by adding flesh and muscle the patient is restored to health and strength and robus vitality. Be a Manly Man.

Varicoces is simply veins filled with curdled or stagnant blood occurring in any part of the body. Every man afflicted with Varicocele if long standing knows that it has blighted his life and that he has made a great mistake in not having himself treated.

My method removes the Varicose condition so that the circulation is resumed, the nervous system is restored by the administration of a tonic and a complete restoration is certain in every case.

Special Diseases Itching, burning, scalding, painful passages of water. Strong injections, strong remedies seldom benefit—they cause obstructions of the Urinary Canal.

My treatment stops every symptom and relieves in a few days. Its scientific—that's the only sure way to be benefited. I can restore you so quickly and easily that you will be surprised. I will give you just the result and treatment you are looking for at the lowest possible cost.

WILL BEAR MILLIONS TO RELIEVE AMERICANS

United States Cruiser Tennessee Will Sail Thursday for Europe With an Enormous Treasure

Washington, Aug. 5.—Carrying millions in gold for the relief of Americans helplessly stranded by the upheaval in Europe, the armored cruiser Tennessee will start from New York across the Atlantic Thursday. It will distribute its cargo at the principal ports in Europe for the use of banks and United States diplomatic agencies in replenishing the purses of Americans who suddenly have found their letters of credit useless or their funds exhausted.

In the wake of the Tennessee will be a fleet of coastwise vessels of other neutral nations as soon as they can be mobilized to bring the American tourists home. It was estimated today that there were at least 100,000 United States citizens, many of whom wish to return home.

The Tennessee's gold cargo will consist of the fortunes that banks and express companies will send to meet the demands of their patrons together with the government's emergency appropriation. Congress has already appropriated $250,000 and both senate and house today were to act on President Wilson's request that an additional appropriation of $2,500,000 be made.

While the Tennessee is steaming across the Atlantic, government officials will begin their energies to solve the transportation problem.

The first canvass showed there were six American liners each with a passenger capacity of 1,000, and thirty transports and coastwise ships capable of carrying about 7,000 persons. It has been suggested that if the stranded Americans who would be unable to get accommodations on the first or second cruises of these vessels made urgent representations for transportation home then all available ships of neutral nations might have to be chartered.

On the Tennessee will sail Assistant Secretary of War Breckinridge and several officials of the treasury and the army. They will have charge of the disbursement of funds and arrange transportation facilities.

It was announced at the navy department today that the sailing of the armored cruiser Tennessee for Europe with gold for the relief of Americans, had been postponed until tomorrow morning in order to complete all of the necessary arrangements. She had been scheduled to sail this evening.

The North Carolina will carry additional gold probably to Mediterranean ports leaving the Tennessee free to supply needs in the north.

More Money Appropriated.

A bill appropriating $2,000,000 for which President Wilson asked in a special message was brought into the house for passage under suspended rules and exclusion of all other business. It contained authority for the use of army and navy facilities and chartering of ships. Secretaries Bryan and McAdoo told the appropriation committee it was the plan to first use neutral lines, then charter ships and use army and navy transports as last resort.

The house promptly passed the $2,500,000 appropriation and within a few minutes the senate passed it also and it went to the white house.

BESIEGED BY AMERICANS.

Copenhagen, Aug. 5. The American legation here was practically in a state of siege today. Nearly 1,000 American citizens have reached this city from Hamburg whence they had intended sailing for America on the Imperator and other liners. Most of them left their baggage behind them in Germany.

Some of the Americans will endeavor to reach America by way of England, while others will sail on the Danish liner United States.

BUY SHIP TO COME HOME IN.

London, Aug. 5.—A syndicate of stranded Americans headed by Grant Hugh Browne, of New York, combining business with philanthropy have purchased the British steamer Viking for the repatriation of their countrymen at the price of $500 for each berth. The syndicate today obtained the permission of the British government for the vessel to sail on Monday from Liverpool on its first trip. It is understood the Viking will fly the Stars and Stripes. She is to make as many trips as possible.

Among the 240 cabin passengers and the 1,000 Americans going in the steerage on board the Philadelphia sailing today are many wealthy persons. Enormous premiums were offered for tickets. One speculator offered Charles Aldrich and family of Cleveland, Ohio, $1,000 for their room or $500 if they allowed him to travel with them. Martin Vogel, United States sub treasurer at New York, with his bride, were also among the passengers. They said they were in Berlin five days ago and "the Germans were parading the streets as though celebrating victory." Later on they passed through Paris where they said "the contrast was marvelous. The atmosphere was quiet, but tense."

John A. Wilson, a cousin of the president, and Wm. H. Porter, who is connected with J. P. Morgan & Co., were also on board.

LOOKING FOR AVAILABLE SHIPS.

Washington, Aug. 5.—Secretary Garrison was scanning the Pacific coast today for ships to bring American refugees out of Europe. If available vessels can be found there they will be brought through the Panama canal. Inquiry also was made for available ships on the great lakes. Mr. Garrison said no attempt would be made to start passenger vessels to Europe until it has been determined just what the needs of Americans were. If neutral commercial liners continue to run, they may be employed.

PUT UP $5,000,000, GOLD.

New York, Aug. 5.—J. P. Morgan & Co. are understood to have obtained from the Bank of France on the credit of their French branch, Morgan, Harjes & Co., $5,000,000 in gold to be placed immediately at the disposal of Americans abroad who lack funds on account of the war. It was said that more gold would be forthcoming in the same manner if necessary.

That J. P. Morgan & Co. had stepped in to relieve the situation became known after a meeting of bankers who have been arranging to send gold to Europe on the cruiser Tennessee. This gold will, it is understood, be sent abroad on the Tennessee as contemplated, but will go direct to London consigned to the committee of Americans which has been appointed to take charge of relief measures there for their fellow countrymen.

It was stated that as soon as the Tennessee sailed with her treasure arrangements would be made in London whereby Americans would be able to obtain gold from English banks at once, the latter to be reimbursed upon the arrival of the Tennessee. Part of the gold from the bank of France, will, it is said, be turned over to the American Express company for cashing American travelers' checks and letters of credit.

Secretary Garrison announced after a conference with the president that his present plan for getting Americans out of the war zone was to have the nations involved designate a port from which they can be removed or to get permission to have them taken to Italy, Spain or some other neutral country where the United States could call for them. Mr. Garrison said that he had no doubt foreign governments would make such agreements.

Mr. Garrison has located thirty-nine available ocean going vessels sailing under the American flag. He is arranging to send food to American colonies in the war zone.

MUNCIE TO GET BIG SCHOOL.

Boston, Aug. 5.—The International Stewards association, which opened its annual convention here yesterday, will build an institution for the training of hotel employes at Muncie, Ind., at a cost of $500,000. The school will be under the direction of the state normal school. It will be unique among educational institutions in this country.

WILL WATCH THE WAR.

West Point, Aug. 5.—Major James A. Ryan and Captains Julian R. Lindsay, Herman Glade and Frank R. Wilcox, on duty at the United States military academy here, have been appointed as military observers in Europe. They left West Point today for New York where they will board the cruiser Tennessee.

FRENCH LINER SAILS FOR HOME

Despite Danger of German Warships She Carries 1,000 Reservists.

New York, Aug. 5.—With bands blaring the Marseillaise and a tumult of cheering afloat and ashore, the French liner Lorraine set sail today for Havre, probably the last for some time of departing liners to fly the French flag. In cabins and steerage she carried nearly 1,000 passengers, most of them French reservists bound for Paris.

She was the only ship to leave port today on a trans-Atlantic voyage with the exception of the Cunarder Lusitania, which slipped past quarantine with darkened lights during the early hours of the morning.

All the other sailings of the French line were cancelled today. All sailings of the Fabre line whose vessels ply between New York and Mediterranean ports likewise have been cancelled with the single exception of the Santana, which sailed last Saturday, returned to New York by wireless orders and will sail again next Saturday unless there is a change in present plans. Several vessels reached New York from European ports today, among them being the President Lincoln from Hamburg, and the Kaiser Wilhelm II from Bremen. Their passengers told stirring tales of the fears of merchant ships at sea.

Sail in the Face of Danger.

La Lorraine and the Lusitania sailed in the face of danger of capture by hostile war craft, German cruisers having been reported off the American coast, but with their officers apparently confident that English and French warvessels could and would keep open a trans-Atlantic lane for their merchant ships.

Reports were that the Lusitania was to be convoyed by a British cruiser. French line officials said the Lorraine would have no convoy.

Nevertheless, La Lorraine delayed her sailing two hours beyond the schedule so that her captain might hold a last minute conference with the captain of the Olympic, which reached New York last night. It was reported that the Olympic came into the harbor under the guns of the British cruiser Essex and that the Essex would await the Lusitania off Sandyhook. "Aren't you afraid of being captured?" some one asked Captain Murras, of LaLorraine, a minute before sailing.

"I should worry," replied the captain smiling and shrugging his shoulders.

Vaterland to Sail.

Rumors that the great Hamburg-American liner Vaterland, now in port, was being made ready for sailing as a porvision transport were given credence today when an additional guard was placed around her dock and information as to possible plans for her departure were refused. It was reported that not only the Vaterland but ships of other German lines berthed here were being secretly provisioned and coaled for the same purpose.

FATE OF MEXICO CITY IN DOUBT

Big Squad of Federal Generals Debate and Get Nowhere.

Mexico City, Aug. 5.—The fate of the capital remained in doubt today. The 112 generals of the federal army constituting the council of war had not decided whether to fight or evacuate the city.

The generals were in conference until a late hour last night and failing to determine their policy, separated to meet again this afternoon. President Carbajal will call a business meeting of business men to ascertain their feelings in the matter. He will tell them that Gen. Carranza has demanded unconditional surrender of the capital. Railroad telegraph operators report fighting between advance guards of the federals and rebels at Teoloyuca, twenty miles south of the city. The positions of the two forces were unchanged early today.

One of the generals who was present at the war council later said: "President Carbajal learned that the federal peace proposals had been rejected by Gen. Carranza and that the capital would be taken by assault if possible.

"It was the unanimous sentiment of the generals present last night that in case of joint action by constitutionalists and Americans as had been reported, the federals should evacuate Mexico City and retreating southward establish the present government in a city yet to be selected thus preserving the honor of the army. In case the capital was assaulted by constitutionalists alone, the federals are resolved to resist and employ the force of 40,000 men now available."

VILLA AND CARRANZA OUT.

El Paso, Texas, Aug. 5.—The failure of Gen. Carranza, chief of the constitutionalists and the peace delegates of Provisional President Carbajal to agree on terms of transferring the national government into constitutionalist hands will result in an open breach between Gen. Villa and Carranza, according to even the most optimistic opinions of persons who reached here from the south today.

It was said that Gen. Angeles, Villa's artillery chief, is re-organizing the army into proportionate units of infantry, cavalry and artillery. This is the first time that any perfect organization of constitutionalist troops along strictly modern lines had been attempted.

Four men, according to the arrivals, have been appointed by Villa to solve the land problem of northern Mexico. It is proposed to divide all the lands owned by "unfriendly elements" among the soldiers of Villa's army and the unemployed. Foreign owners probably will not be molested, it was said. Raoul Madero, brother of the late president, Felipe Angeles, Lazaro de la Garza and Jose Quevado, form the "land commission."

WALL STREET IS SETTLING DOWN

Cultivating Patience for a Long Wait Through the War.

New York, Aug. 5.—With the spread of hostilities abroad Wall street has settled down to a waiting attitude, convinced that the resumption of normal conditions lies in the indefinite future. It is virtually certain that no attempt to reopen the stock exchange will be made while the London exchange remains closed. The stress of the financial situation led the directors of the American Tobacco company today to declare their regular quarterly dividend of per cent payable in script instead of cash. The script is due one year from Sept. 1 and bears interest at 6 per cent, payable semi-annually. The directors announced they would need ready cash for marketing crops. American securities valued at $15,000,000 to $25,000,000 most of which were sold for foreign account in this market last week were brought in by the steamship Olympic today. Much of this stock was borrowed here pending delivery and in order to round out such transactions returned. Lenders of these stocks may find it a difficult matter to effect the exchange unless the banks offer assistance.

A bankers' conference was held here at which further arrangements were made for the shipment of gold to aid American tourists abroad. It is probable the amount may exceed $8,000,000, as outside bankers have asked to participate in behalf of their clients abroad.

More applications for emergency currency were received at the sub-treasury. Another large shipment of currency is expected from Washington tomorrow bringing the total up to about $75,000,000. At the clearing house business was proceeding as usual, though in smaller volume. A large part but not all of the balances was paid in certificates, and it was said that sales of more stocks and bonds on private terms were consummated at prices invariably above last Thursday's close. The small inquiry was for the more active issues, including Harriman, Great Northern prf., St. Paul and U. S. steel. Railroad companies reported a further piling up of freight for foreign ports at this end other near by constwise centers. Shippers are contemplating a petition to President Wilson asking for special legislation by congress in order that ships may be obtained for carrying all food stuffs to Europe.

Beggars are no longer permitted in the streets in Philadelphia.

CHICAGO GRAIN AND PRODUCE.

Chicago, Aug. 2.—Although weakness seized the wheat market as the first result here of England's declaration of war prices were not long in making a complete recovery, and then showing a rise all around. Depression at the outset in Chicago was due to fear that the export situation in wheat for the time being would be made worse, not bettered, by England's entrance into active hostilities. The opening, which was 2c to 2c lower, was followed by moderate further declines, and then by an upward swing that carried prices 3c to 5c above last night.

The close was strong, 1¼c to 2c net higher.

Reports of expected rains made the corn market strong. After starting ½c off to ½c up, and ascending a little further, the market sagged below last night's level, but then climbed decidedly higher than before.

The close was strong, 1⅞c to 3¼c above last night.

Oats developed independent strength on account of offerings being scanty. The market held firm throughout regardless of the action of other grain.

Falling off in hog receipts brought about an advance in provisions. Sellers were not numerous but there was no difficulty in buying lard.

FIRST CONCRETE ON BIG HIGHWAY

More Than 400 Feet Down on the New Haven Improved Road.

More than 400 feet of concrete has been laid on the New Haven road, which is Allen county's first contribution to the proposed Lincoln highway and such progress has been made that there is every assurance that the work will have been completed by the time limit set for Nov. 1 of this year.

The Brooks Construction company is pushing the undertaking rapidly and in addition to the concrete about three miles of the road bed has been completed ready for the topping.

Good weather is all that is needed for the rapid completion of the task and the company is working under a full head of steam in anticipation of probable rain and shorter days in the latter part of September and during the entire month of October.

Giving It Another Paring.

For a short time today Mayor W. J. Hosey and Controller W. C. Baade considered the budgets submitted by the various city departments for running expenses and improvements next year and took under advisement a number of expenses that they will be compelled to lop off.

They do not desire to appropriate all of the money that is anticipated in taxes as there is always danger of emergency calls for money that must be raised and for that reason they want to leave a balance in the general fund. This can be appropriated to the departments later if it is not needed for other purposes.

Decide Monument Matter.

At a meeting called for the assembly room of the court house on Saturday night of this week the disposition of the money in the monument fund, amounting to about $14,000, will probably be decided upon. This fund has been raised under a tax levy assessed during twenty years and there is in the hands of the Lawton Home Monument association the sum of $802.

Whether this money shall be devoted to the erection of a monument to Gen. Anthony Wayne or to Gen. Henry W. Lawton is a question that will come up at the meeting for discussion.

Notes of the City Hall.

Dr. J. H. Gilpin, secretary of the board of health, has under advisement the suggestion from Dr. J. N. Hurty, of the state board, that Fort Wayne hold a public health day and that floats demonstrating disease prevention methods be made part of a parade. October 2 is named as the tentative date, but plans have not been determined upon.

At its meeting Tuesday night the city council committee on finance recommended the payment to Henry Becker $800 as salary due him while he acted as secretary to the municipal lighting department. It was also decided to recommend an appropriation of $3,000 for repairs to steamers used by fire companies Nos. 4, 5 and 6.

No typhoid was reported to the health department during the month of July as against two cases of the disease in the same month a year ago. The contagion record was: Diphtheria, 14; scarlet fever, 6, and smallpox, 2. In July, 1913, there were sixteen cases of diphtheria and one case of scarlet fever.

LOCAL FORECASTS.

For Fort Wayne and vicinity: Partly cloudy, with possibly local showers late tonight or Thursday.

For Indiana: Unsettled late tonight and on Thursday, with probably local showers.

For Ohio: Fair tonight; Thursday unsettled with probably local showers.

For Lower Michigan: Unsettled late tonight and on Thursday, with probably local showers. Somewhat cooler Thursday in north and west portion.

WEATHER CONDITIONS.

While temperatures yesterday ranged from 85 to 95 degrees over the states from the Rockies to the Mississippi, no excessive temperatures were reported from any section of the country. In the extreme northwest cooler weather is general, and over the central and eastern states moderate temperatures prevail.

Rains continued over the south Atlantic and gulf coast districts, and some scattered showers occurred over the plains states.

The showery condition of the western districts will probably spread eastward and local showers are possible for this section by Thursday morning or Thursday night, with but slight changes in temperature. W. S. PALMER, Local Forecaster.

FOOD QUESTION BIG IN BRITAIN

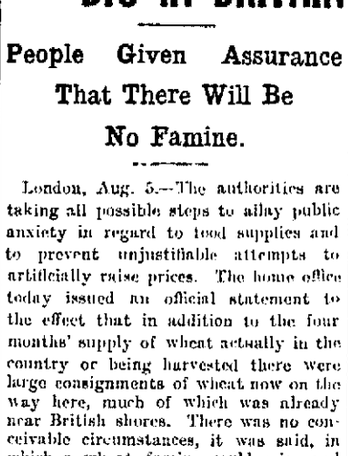
People Given Assurance That There Will Be No Famine.

London, Aug. 5.—The authorities are taking all possible steps to allay public anxiety in regard to food supplies and to prevent unjustifiable attempts to artificially raise prices. The home office today issued an official statement to the effect that in addition to the four months' supply of wheat actually in the country or being harvested there were large consignments of wheat now on the way here, much of which was already near British shores. There was no conceivable circumstances, it was said, in which a wheat famine could arise and accordingly fear of a scarcity was groundless. The situation regarding meat was not less satisfactory. "Normal killings of home stock supply 60 per cent. of our annual consumption," reads the statement, "and we are not necessarily dependent upon foreign imports for the balance of our supplies as in case of emergency it could be provided by slaughtering a larger proportion of our own stock.

"This contingency cannot arise in the present circumstances. There is now an exceptionally large supply of foreign meat in cold storage and heavy consignments are on the way to our shores. Therefore no justification exists for any rise in the prices of bread or meat."

The circular concludes with the assurance that arrangements have been made with a view to controlling prices so far as possible.

KNEW WHEN TO ASK.



"Are you reading the anti-trust legislation now, pa?"

"Yes, my son."

"Well, then let me have the base ball page—I know you're through with that now."

SUBURBAN PROPERTIES, located at station stops on interurbans out of Fort Wayne is my special business. Its history that no real estate grows in value more rapidly than interurban stuff close to a live city. The Interurban will get you out and in just as quick as your city car will get you home. Your tract will raise more than your living, your taxes and upkeep will not eat you up. Get your money into stuff that'll befriend you when old age and adversity overtakes you. I'll sell you 5 acres at $1,000, 10 acres at $1,500, and so on, just about the price you'll have to pay for a good city lot. I have three beautiful tracts with new buildings, extra fine locations, ready for sale now at very attractive prices. Let's talk it over together.

NOW FRENCH AVIATOR DESTROYED GERMAN DIRIGIBLE

In the above illustration is shown how a French aviator destroyed a German Zeppelin while she was maneuvering over French territory. The aviator in his monoplane went clear through the envelope of the airship, which immediately collapsed and her twenty-five occupants were dashed to death. The monoplane was also wrecked and the aviator killed

WEALTHY FARMER ENDS OWN LIFE

Frederick Hubner Makes Doubly Sure to Kill Himself.

With his form dangling from a rope attached to an overhead gas pipe in the basement and with a large hole torn in his side near the region of his heart, the lifeless body of Frederick Hubner, aged fifty-five years, a retired farmer, was found by his wife when she returned to her home, 615 Huffman street late Tuesday afternoon when she returned from a visit to the country.

FREDERICK HUBNER.

Despondency because of having left his farm to reside in the city is believed to have led the man to take his own life. The suicide had been carefully planned. Hubner evidently placed his head in the rope noose and placed in front of him a double-barreled shot gun, intent upon making doubly sure of snuffing out his own life. From the position in which the gun was found, it is believed that Hubner pulled the trigger with his foot. The contents of one barrel was emptied into his body just below the heart and it is thought that death was instantaneous and the lifeless body fell backward and was supported by the rope.

Although she was in a state of near collapse after finding her husband's body Mrs. Hubner succeeded in notifying the police and Coroner E. H. Kruse was summoned. The body was removed to the Klaehn & Melching morgue.

The unfortunate man formerly resided near Preble on a farm in Adams county seven miles east of Bluffton. He was wealthy and owned considerable city real estate. Only last autumn he returned from an extended trip abroad. Surviving besides the widow he leaves the following children: Minnie, Sadie, Lizzie, Mary, Frank, Edward and Fred Hubner, jr.

Private funeral services Friday morning at 8:30 o'clock from the residence. The remains will be shipped to Bluffton at 10 o'clock and removed from that city to Honduras, where services will be held Friday afternoon at 1 o'clock from St. Luke's Reformed church.

ENGLAND SEES A FAMINE.

Economy Is Necessary and Simple Meals the Rule.

London, Aug. 5. England is preparing for a possible famine by economy in money, food and fuel. The Carlton club committee strikes the keynote with the decision to serve only simple meals and to advance food prices slightly.

Among the rules published in the morning papers to make economy a "family game," are to save the vegetable salts from the saucepan, to use nutritious potato skins and to make brown flour from wheat chaff.

Britons are asked to live on a standard dish of a little meat stewed with many vegetables. Children and those over 40 years must use a one-course meal. Cheese and nuts are to take the place of butter. Pickled peas and scrap dishes are recommended.

All the papers declare there is no panic. Trade routes are open, and the country is well supplied. However, England may be cut off from the east and imports of bacon, sugar, poultry and dairy products may be stopped.

There are prospects of a paper famine and most journals already are beginning to cut down the size of their issues.

SAYS ASIA IS BIG U. S. EXPORT FIELD

Eastern Traveler Tells of Needs of American Buyers.

New York, Aug. 5.—After traveling for two years and two months, in which time he has covered about 140,000 miles in India, Burmah, Ceylon, the Federated Malay states, Dutch Indies, Siam, North and South China, Eastern Siberia, Korea, the Hawaiian Islands and other lands, S. Raleigh Kirkness, vice president of Muller, McLean & Co., Inc., of No. 11 Broadway, was welcomed recently by the management of the Holland house, where he has made his home when in this city for several years.

To Mr. Kirkness, Asia is the great field for American exports. He declared that the field had merely been scratched and that there was a great demand for all American goods. But Mr. Kirkness said that during prosperous times in the United States the American neglects the export trade, placing the United States in difficulties with the clients of the far east. However, he added, with the opening of the Panama canal, the facilties for trading with the far east will be considerably facilitated.

"I want to say a word for the United States consuls in the different places I went to," said Mr. Kirkness, who is an Englishman. "They are far in advance of our Englishmen. Our business is in the Asiatic field and it has increased by leaps and bounds. We sell everything that America makes, everything that we can sell. I have found that the persons in the Asiatic countries are keen and eager to buy American made goods.

"In a friendly way I would like to say that America is making a great mistake in debarring the importation of Chinese labor in the Philippines. It is ridiculous to see the Filipinos getting so much money that they work only two days a week, with the result that there's a scarcity of labor. Few persons have an idea of the area of the Philippine Islands. America is getting good interest out of the investment in the Philippines."

Concerning China, Mr. Kirkness feels the possibilities there are greater than in any other country in the east. There is, he said, a decided preference in favor of the United States, Germany and England over Japan in trading with China between the far east countries on the Yangtse river.

One church in an Oklahoma town advertised free lemonade at its Sunday service. A rival church of the same town is resolved not to be outdone, and is advertising free buttermilk.

German naturalists are interested in the fact that the wild rabbits of that country seem to be changing their habits, among other things building their nests above ground instead of in burrows.
